NEW RELEASE

Attachment:

The Fundamental Questions

By Ross A. Thompson, Jeffrey A. Simpson & Lisa J. Berlin
(Australian Contributors)
GUILFORD PUBLICATION

The ongoing growth of attachment research has given rise to new perspectives on classic theoretical questions as well as fruitful new debates.

This unique book identifies nine central questions facing the field and invites leading authorities to address them in 46 succinct essays.

Multiple perspectives are presented on what constitutes an attachment relationship, the best ways to measure attachment security, how internal working models operate, the importance of early attachment relationships for later behavior, challenges in cross-cultural research, how attachment-based interventions work, and more.

The concluding chapter by the editors delineates points of convergence and divergence among the contributions and distils important implications for future theory and research.

AUD RRP: \$108.00	ISBN-13: 9781462546022

NEW RELEASE

Measuring Attachment:

Developmental Assessment across the Lifespan

By Everett Waters, Brian E. Vaughn & Harriet Salatas Waters
GUILFORD PUBLICATION

This volume provides an in-depth examination of traditional and emerging measures of attachment behavior and representations from infancy to adulthood.

Leading authorities share their expertise on the Strange Situation, the Attachment Q-set, Ainsworth's Maternal Sensitivity Scales, the Adult Attachment Interview, the Attachment Script Assessments, and the Adult Attachment Projective Picture System, as well as analogue and experimental methods.

The book clarifies the conceptual and empirical underpinnings of the various measures and shows how they fit into a coherent developmental framework. Offering detailed discussions of key constructs such as attachment security, the secure base phenomenon, disorganization, and narrative structure, this is a valuable resource for both researchers and practitioners who use attachment assessments in their work.

Child Development 4/e: A Practitioners Guide

GUILFORD PUBLICATIONS

By Douglas Davis & Michael F. Troy

Now in a revised and updated fourth edition, this trusted text and professional resource provides a developmental framework for clinical practice. The authors examine how children's trajectories are shaped by transactions among family relationships, brain development, and the social environment. Risk and resilience factors in each of these domains are highlighted. Covering infancy, toddlerhood, the preschool years, and middle childhood, the text explores how children of different ages typically behave, think, and relate to others. Developmentally informed approaches to assessment and intervention are illustrated by vivid case examples.

NEW EDITION

Ordinary Magic: Resilience in Development

GUILFORD PUBLICATIONS

By Ann S. Masten

From a pioneering researcher, this book synthesizes the best current knowledge on resilience in children and adolescents. Ann S. Masten explores what allows certain individuals to thrive and adapt despite adverse circumstances, such as poverty, chronic family problems, or exposure to trauma. Coverage encompasses the neurobiology of resilience as well as the role of major contexts of development: families, schools, and culture. Identifying key protective factors in early childhood and beyond, Masten provides a cogent framework for designing programs to promote resilience. Complex concepts are carefully defined and illustrated with real-world examples.

Handbook of Personality Development

GUILFORD PUBLICATIONS

By Dan P. McAdams, Rebecca L. Shiner & Jennifer L. Tackett

Bringing together prominent scholars, this authoritative volume considers the development of personality at multiple levels--from the neuroscience of dispositional traits to the cultural shaping of life stories. Illustrated with case studies and concrete examples, the Handbook integrates areas of research that have often remained disparate. It offers a lifespan perspective on the many factors that influence everyone's psychological makeup and examines the interface of personality development with health, psychopathology, relationships, and the family. Contributors provide broad-based, up-to-date reviews of theories, empirical findings, methodological innovations, and emerging trends. See also the authored volume The Art and Science of Personality Development, by Dan P. McAdams.
