Blanchard on Leadership and Creating High Performing Organizations

By Blanchard Ken

FT PRESS

Great organizations don't happen by accident! For 35+ years, Dr. Ken Blanchard and his colleagues have helped thousands of leaders and organizations evolve from good to great -- becoming the providers, employers, and investments of choice in their respective industries.

Leading at a Higher Level, Third Edition brings together Blanchard's most up-to-date thinking and research on the principles and practices used by the world's most successful organizations. Readers will learn how to:

Build a high performing organization Create a compelling vision

Nurture customers and empower people

Tailor leadership styles to bring out individuals' highest potential

Cultivate self-leaders Use coaching and mentoring to develop leadership bench strength

Create effective teams and foster collaboration Manage change

Cultivate trust Establish a world-class culture

Develop a leadership point of view

Practice servant leadership to attain the highest individual, social, and financial results

Based on the Blanchard principle that both results and people are important, Leading at a Higher Level, Third Edition combines proven theories with practical actions for leaders in every organization, large and small.

Refactoring

By Fowler Martin
ADDISON WESLEY

Refactoring is about improving the design of existing code. It is the process of changing a software system in such a way that it does not alter the external behaviour of the code yet improves its internal structure. With refactoring you can even take a bad design and rework it into a good one. This book offers a thorough discussion of the principles of refactoring, including where to spot opportunities...
