4WD Glovebox Guide 3/e

By *Pepper Robert*

Key Sales Points:

- * Third edition of this perennially popular guide.
- * 4WDing has never been as popular in Australia with thousands of new 4WDers hitting the road.
- * Author is one of the most qualified 4WD experts in Australia.
- * Previous Edition ISBN – **9781925403336**

This easy-to-follow reference shares the essential driving and recovery techniques that all four-wheel drive owners need to know.

With a rugged cover and spiral binding, the guide is small enough to pop into the glovebox of any 4WD vehicle, but comprehensive enough to cover all the essentials about 4WD driving, including 4WD systems, suspension, wheels and tyres.

Discover specific driving techniques for mud, water, sand and rock; learn why steep hills are often the most perilous of four-wheel drive situations and get yourself out of trouble with clear recovery techniques.

Each chapter includes simple checklists to help drivers prepare for the trip and ensure the safety of both driver and passengers.

SECTION 1:

ABOUT 4WD

This section explains what 4WDs are and how they work. It sets the scene for the chapters on driving techniques.

Life After Google

The Fall of Big Data and the Rise of the Blockchain Economy

By Gilder George

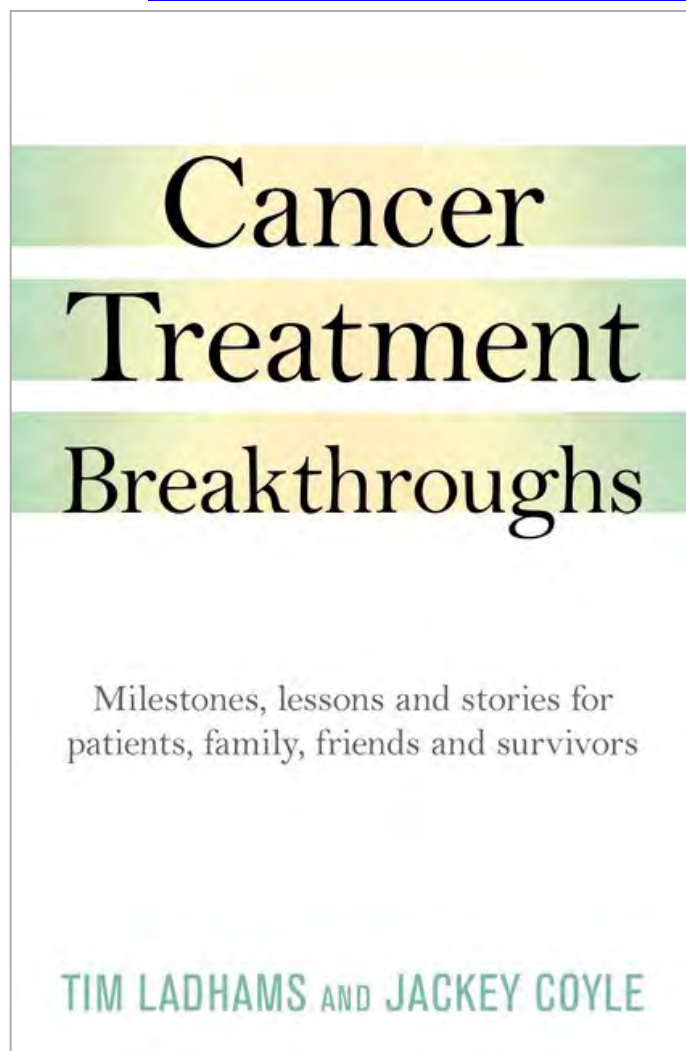

Key Sales Points:

- * New edition of the bestseller with a new introduction from the New York Times Bestselling author.
- * Essential reading to learn why blockchain is the future to protect user data and create a world beyond Google and big data.
- * A compelling examination of The Age of Google, data gathering and the true cost of 'free' services, the Google mindset and its impact on user security, and what lies ahead for Silicon Valley and the future of 'cryptocosm'—the new architecture of the blockchain and its derivatives.
- * Gilder covers the evils of the Google Age: porous Internet security, unmoored money, regulatory overreach, network concentration, officious delays, and diminishing returns of big data.

Publicity:

- * George Gilder is available for online interviews from the US.
- * Release coincides with the US release and publicity which will be boosted with national media and a targeted digital marketing to technology publications, websites and social media accounts and audiences.

The Age of Google, built on big data and machine intelligence, has been an awesome era. But it's coming to an end. In *Life After Google*, George Gilder explains why Silicon Valley is suffering a nervous breakdown and what to expect as the post-Google age dawns. Google's astonishing ability to 'search and sort' attracts the entire world to its search engine and countless other goodies—videos, maps, email, calendars—and everything it offers is free, or so it seems. The crisis is not just economic. Even as advances in artificial intelligence induce delusions of omnipotence and transcendence, Silicon Valley has pretty much given up on security. The Internet firewalls supposedly protecting all those passwords and personal information have proved hopelessly permeable. The crisis cannot be solved within the current computer and network architecture. The future lies with the 'cryptocosm'—the new architecture of the blockchain and its derivatives. Enabling cryptocurrencies such as bitcoin and ether, NEO and Hashgraph, will provide the Internet a secure global payments system, ending the aggregate-and-advertise Age of Google. Life after Google is almost here.

Cancer Treatment Breakthroughs

Milestones, lessons & stories for patients, families, friends & survivor

By Tim Ladhams and Jackey Coyle

Key Sales Points:

* A guide to cancer for patients, family, friends and survivors. This book demystifies cancer treatment and highlights the rate of progress the scientific and medical communities are making in their understanding of cancer and how best to treat it.

* Includes: the latest research on cancer treatments and how they can effectively be combined, including expert insights from international medical professionals.

Publicity: * Coincides with Ovarian Cancer Awareness Month and World Cancer Day on 4 February 2022. * Coverage in national newspapers including The Guardian, The Australian, The Daily Telegraph, The West Australian, The Herald Sun, The Courier-Mail and more. * Radio including the show 'Radiotherapy' on RRR-FM and ABC Radio National.

Cancer is the world's biggest health problem, manifesting at an ever-increasing rate, and alongside the human cost is an enormous economic impact. With so much information available this detailed guide demystifies cancer treatment and highlights the rate of progress the scientific and medical communities are making in their understanding of cancer and, therefore, how best to treat it. *Cancer Treatment Breakthroughs* gives the reader an overview of the disease and how treatment has evolved throughout history. It covers recent treatment breakthroughs including early diagnosis and testing through to surgical techniques. Each chapter contains a detailed case study that shares someone's experience with that treatment, as well as interviews with internationally recognised experts in their fields. Authors Tim Ladhams and Jackey Coyle also explore living with cancer and how to build resilience after cancer treatment, with evidence-based tips for exercising, eating well, complementary treatments, sleeping better and simple recipes and ideas for maximising nutrition during this time. Families and friends will find ways to support someone with cancer and improve quality of life with palliative care.

Author Bio:

Tim Ladhams is the editor of Inside Small Business and is responsible for all the publication's online content and its quarterly magazine. He was driven to researching the themes in this book after losing his father to cancer soon after coming to Australia. Jackey Coyle is obsessed by stories, whether to do with history, medicine, science, wellbeing, travel or music. She is a writer, researcher and broadcaster who has earned a masters. She began to investigate cancer when her younger sister died within 11 months of diagnosis. As she listened to more and more family and friends' stories of their cancer journeys, she thought about how body and mind interact throughout illness, recovery and survivorship.

Great books from the people you can trust

WILKINSON PUBLISHING

The Naked Truth About Breast Cancer

By Marshall Jane

Key Sales Points:

* Approaches breast cancer as a rite of passage rather than just a medical problem, a way to grow from this even though it's hard. * The book provides information about what to expect at different stages, what no-one tells you about breast cancer and the treatment/s that follow. * The book confront death head-on, but in a positive way, smashing away the taboo that many face when they want to discuss death. * There are no other books out there that has turned breast cancer into something beautiful - a 300 page full-colour coffee table book.

Publicity: * Author has hired a marketing and PR team and will be doing the following and more: * Building a social media audience with daily/weekly video and other content * Major news/TV platforms * Follow-up to two interviews in The Age * A launch event * Will approach major breast cancer organisations.

This is not an ordinary book. It's the raw, unedited, and unfiltered diary and photos of a woman going through, not just breast cancer, but also living alone in Melbourne's lockdown, during the covid pandemic while dealing with breast cancer. Nothing is off-limits. From the moment of being was told 'you have breast cancer', author Jane Marshall captured everything. This book shows the emotional, and spiritual rollercoaster that is this disease. Breast cancer is seen as a 'good' cancer, which means that survival rates are high relative to other cancers. You're not likely to die. But that only tells half the story - breast cancer is brutal, arduous, and very lonely. It's the book you need when you get your diagnosis, so you know what to expect. It's all the things that no-one ever talks about, and that your surgeon, doctor, oncologist don't tell you. In exposing her own story in such a raw and personal way, Jane shows the reader that yes, it's hard, but you're not failing. This book takes a head on approach to the taboos, adversity and struggles of going through breast cancer at a time when the rest of the world was focused on 'the' pandemic of Covid, and it confronts these issues in a deeply mystical way. Whilst avoiding advice, the book does provide a framework for how to approach breast cancer as a rite of passage.

Author Bio:

Jane is from the UK and has had senior roles in the corporate world for decades - in London and Melbourne. She currently runs her own innovation business working for large organisations and has a second book in the pipeline The Phoenix Years about women negotiating mid-life.

For Love & Money

How to profit with purpose and grow a business with love

By Butler-Madden Carolyn

Key Sales Points:

* Written for business leaders who want to build meaningful purpose into their business, this book smashes the misconceptions around what it means to be a true purpose-led business and, through inspiration and practical guidance, paves the way to build an organisation led by an authentic social purpose. * Offers real-life examples of the world's (and Australia's) most socially purpose-driven businesses, with insights on how their social purpose drives their business success. * The ultimate benefit to the reader - CLARITY – understanding why meaningful (Social) Purpose such a vital part of business is today. Combined with PRACTICALITY – how to get started on your business' path to purpose.

Publicity: * Working with a media publicist to build awareness via magazines, newspapers, TV, Radio * Social Media support * Live book launch event in Sydney end Feb/early March * Speaking engagements.

Purpose in business has become a common expectation, from employees, customers and investors. Yet many business leaders struggle to understand what it means for their business. *For Love & Money* offers clarity on the most recent evolution of organisational purpose. It equates the demand for purpose in business with social purpose. Business as a force for good. Sharing inspiration from businesses such as Intrepid Travel, Outland Denim, Patagonia, Unilever, PayPal and Future Super, this book makes a powerful connection between the two things that drive social purpose-led businesses: LOVE. Of people, planet and humanity. It's the raw emotion behind purpose. And MONEY. Profit and commercial success. Why are they interlinked? Because when purpose drives profit, it offers the ability to play a bigger game; to be ambitious in the change you seek to create over the long term. Meanwhile you build a meaningful business for everyone involved; you attract passionately invested employees, customers, partners, suppliers and investors; and you build trust, the currency of a valued business. *For Love & Money* combines inspiration, insight and practical resources to empower you to reimagine your business and the higher purpose that will drive its success through the volatility of the twenty-first century.

Author Bio:

Carolyn's 30-year international marketing career includes 18 years as an agency owner, working with some of the world's best brands. Since starting her Purpose Consultancy, The Cause Effect in 2017, "Profit with Purpose" has become her guiding mantra. She has helped corporate leaders and leaders of both medium and small organisations to define and articulate their purpose and embed it strategically into their organisations. Her first book, *Path To Purpose*, published in 2017, was Australia's first on cause marketing.

To Age or Not to Age?

Strategies and life hacks to turn back the clock

By Linkin Lyndal

Key Sales Points:

* The first time a book is being written that discusses all aspects of anti-aging - rather than just one of the topics (chapters). * The latest most up to date information on what technology is available and costings - easily explained and summarised. * Latest information on what creams and serums do so client can purchase with confidence.

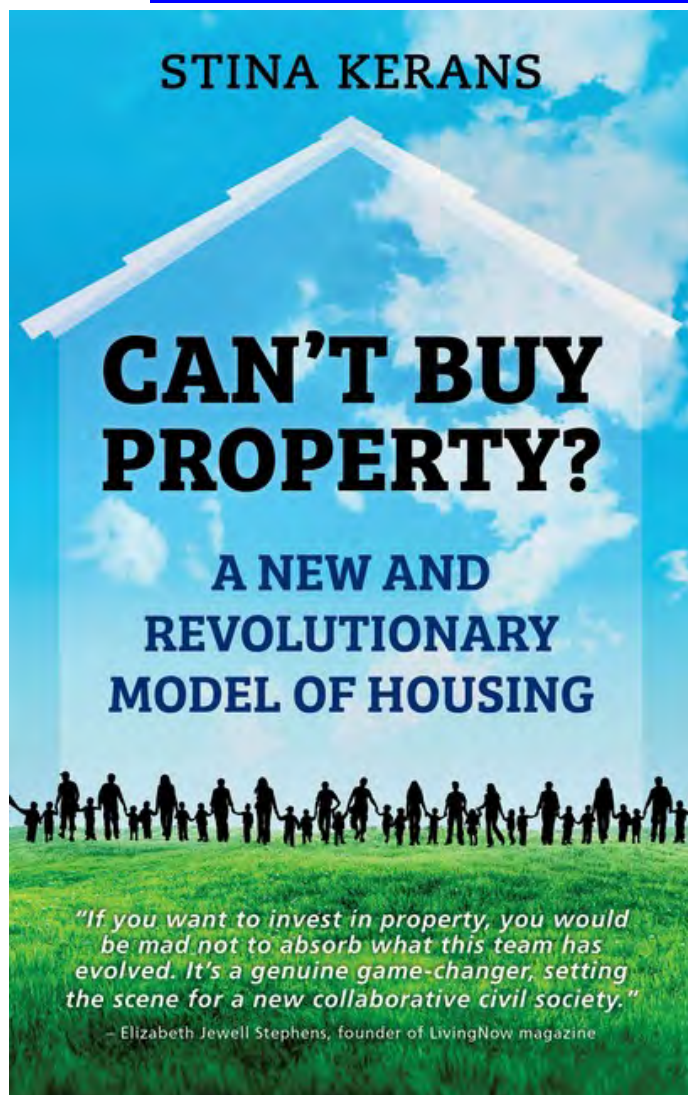

Publicity: * Social Media * Speaking * Website * TV, print and radio media.

To age or not to age? Is it really a choice? Or should we resign ourselves to fate and let time do what time does? Lyndal Linkin has spent a lifetime learning about ageing, or more specifically learning how to fight back against everything that seems hell bent on making every woman on the planet look and feel older than they should. Lyndal understands the deep connection between how we look and how we feel. Most importantly, she has a passion to empower all women with the knowledge and skills that she has developed to slow the clock down. But her real goal is bigger than that. It's about helping women to feel strong, vibrant, energetic and passionate about every part of their life - the ultimate anti-aging approach. In *To Age or Not to Age* Lyndal explains: * Why looking after our brain is better is crucial to anti-aging, * The danger of neglect on our body and our mind, * The foundations of anti-aging, * Strength is the new beautiful, * How to navigate the confusing world of creams and serums, * The incredible injectables, * Surgery and non-surgery options for your face, * The compound effect of aspiring to be ageless.

If you're ready to step up and fight back against everything that is trying to make you look, act and feel older than you are, then this book is for you. To age or not to age, it really is up to you.

Author Bio:

A successful entrepreneur for many years, a corporate leader and now author, Lyndal Linkin packs a great deal into her life. She paints, loves her dogs, is a devoted Mother and partner, and she uses all her anti-aging energy to live a rich and full life. Lyndal started life in Broken Hill, but today is an absolute Melbournian and she lovingly embraces all that this entails.

Can't Buy Property?

A New and revolutionary model of housing

By Kerans Stina

Key Sales Points:

- * Investor and owner access to property market for \$10K.
- * Solves social, financial and environmental issues.
- * Financial protection and retirement option.
- * Affordable housing is a bi-product.
- * Totally new model of development and ownership.
- * Thrive rather than survive.

Publicity: * Facebook advertising. * LinkedIn presence.
* Website calendar for webinars. * Engaged marketer - Amped Up.

To solve the housing affordability crisis, we need a different approach from the variants and options that have been thrashed around for decades. Our present housing model is linked to many heart-breaking social issues and contributes to environmental degradation. This book delves into the reasons why housing is so expensive and details a solution to the extractive process that drives people towards housing and mortgage stress. By deflecting the 20% developers profit, the model offers a financial advantage for all involved—an attractive reward that is hoped will assist in the uptake of this new model. The return from a finished eco-village always stays in line with wages, allowing for planned future security. Investors seeking the solidity of real estate, receive efficient ethically controlled profits with none of the costs and responsibilities – they simply act like a bank. The owner-residents within these eco-villages have many cost and social benefits that assist them to thrive rather than survive.

The model is ready to roll – form your own syndicate or community under the umbrella entity or join us in this movement to enhance our lives. Free information booklets available from our website: <https://sunvillages.com.au>

Careless Whispers: The Life and Career of George Michael

By Steele Robert

George Michael was pop's greatest survivor. He has been UK radio's most-played artist over the last 35 years and the superstar behind the legendary 1980s Faith album and tour. He was a musician with international credibility--and a disaster magnet whose serial scandals never seemed to dent his professional reputation.

This searching biography throws a light on Georgios Panayiotou, the Anglo-Greek London boy who had to hide his homosexuality when he was half of the pop phenomenon Wham! before becoming a global superstar and publicly claiming his identity.

In *Careless Whispers*, author Robert Steele details every step of the conflicted superstar's career and digs deep into his closely guarded private life.

Drawing on firsthand accounts from Michael's ex-manager and the journalist who was part of his social circle in the 1980s, *Careless Whispers* examines in detail the life, work, and tragic final act of a much-loved icon.

Author Bio:

As a writer and editor in the independent publishing industry, Robert Steele has worked in the genres of popular culture and cinema. As a writer on pop culture, he has provided new chapters for the updates of books including Rock 'n' Roll Babylon by Gary Herman and Marc Bolan: Born to Boogie by Chris Welch and Simon Napier-Bell, as well as producing biographies of teen movie idols such as Orlando Bloom.

The Glugs of Gosh

Dennis C.J.

The Glugs of Gosh is a book of satirical verse written by Australian author C. J. Dennis, published by Angus & Robertson in 1917. The book's 13 poems are vignettes of life in a fictional kingdom called Gosh, inhabited by an arboreal race (that is to say, climbers) known as Glugs. Dennis describes the Glugs as a "stupid race of docile folk". The illustrations, by Dennis's regular collaborator Hal Gye, depict the Glugs as short humanoids with large heads. Written in the style of children's nonsense poetry, the work attacks free trade, along with what Dennis saw as Australia's social conformity, intellectual cowardice and rampant bureaucracy. With an introduction by John Derum.

**Nigel Kennedy Uncensored!****By Kennedy Nigel**

Instead of an Introduction, Nigel opens with a tongue-in-cheek 'Warning': readers should beware of his politically incorrect writing style and his frank take on the BBC, record companies, the Bavarian Police and any other 'self-appointed wielders of power.' It sets the tone for a truly original memoir that is as playful, unconventional and carefully executed as his music. The book is structured like a musical performance, with 'Interludes', 'Outros' and an 'Encore' separating the regular chapters which cover Nigel's life story, from his humble beginnings and scholarship to the newly created Yehudi Menuhin School—and then New York at The Juilliard School—to his flourishing career and break-through as a world-class superstar. Nigel writes of his interests outside music—boxing and football—which provide inspiration and balance to his creative output (on Aston Villa—"a true blessing for me to have an outlet in which I was surrounded by normal, honest, hard-working people who did 'proper jobs'"). There is a splendid chapter on 'Kitchen Golf', a not-without-risk variation of the game, conjured up with close friend and mischief-maker Gary Lineker, during a messy late night kitchen session. Nigel Kennedy changed the course of classical music in the late 1980s with his interpretation of Vivaldi's Four Seasons. A natural boundary-pusher and musical adventurer, Nigel Kennedy blew minds - and sales records - as he became the best-selling violinist of all time.

**Final Drafts**

Suicides of World-Famous Authors

By Seinfeld Mark

Some of the greatest writers in the history of the art-Hart Crane, Ernest Hemingway, Jerzy Kosinski, Sylvia Plath, Anne Sexton, and Virginia Woolf—all chose to silence themselves by suicide, leaving their families and friends with heartbreak and the world of literature with gaping holes. Their reasons for killing themselves, when known, were varied and, quite often, unreasonable. Some were plagued by depression or self-doubt, and others by frustration and helplessness in a world they could neither change nor tolerate. Profoundly moving and morbidly attractive, *Final Drafts* is a necessary historical record, biographical treatment, and psychological examination of the authors who left this "cruel world" by their own hands, either instantly or over long periods of relentless self-destructive behavior. It is also a devoted examination of references to suicide in literature, both by those who took their own lives and those who decided to live. Mark Seinfeld has selected many well-known (mostly fiction) writers, from those whose work dates to over a century ago—when the medical community was ill-equipped to deal with substance abuse and depression—to more recent writers such as Kosinski, Michael Dorris, and Eugene Izzie, who have left a puzzled literary community with a sad legacy. Other noted authors discussed in this volume include John Berryman, Ambrose Bierce, Harry Crosby, John Davidson, William Inge, Randall Jarrell, Arthur Koestler, T.E. Lawrence, Primo Levi, and many others.

Talking to Myself

By Jagger Chris

It's Chris Jagger's turn to lift the lid on one of the most colourful and exotic periods in British cultural history. He unrolls an insider's tale of growing up among the bombsites and ration books of post-war Dartford, weaving through the glittery underground of late 1960s countercultural London, and spending months in India before most trod that path.

He covers the highs and lows of acting and film work, and the pursuit of his own unique musical adventures that have resulted in several albums and gigs across the world.

Ultimately though it's the beguiling story of a close-knit family and deep brotherly ties, which endure from both sides of the spectrum.

Chris Jagger has been busy, as, it seems, he always is. There's been the song writing: adding to the pile of 100+ compositions he's created, recorded and had published over the years and heard on the dozen albums he's released, some solo, some with his band Atcha! Chris spent lockdown completing his long-in-the-works memoir and autobiography *Talking To Myself*. It's a rich, detailed, hilarious, gossipy tale that digs deep into he and his older brother Mick's upbringing in Dartford, Kent, and plots the siblings' emergence into adulthood and shared lifelong appreciation for the blues.

Scandals, Secrets and Swansongs

How Hollywood Stars Lived, Worked, and Died

By Hadleigh Boze

Behind the images and facades of stars whose fame and fascination continue to outlive them lies the naked truth. How Hollywood stars lived, worked and died is often more dramatic than their films.

When we talk about movie stars, we usually dwell not on their movies but their personalities or what happened to them or supposedly happened.

Their lives interest us even more than their roles, especially, let's be honest, their mishaps and tragedies, including early deaths.

Their scandals define several movie stars, and Hollywood secrets remain a true-gossip staple, particularly sexual secrets.

Scandals, Secrets Swansongs takes a close-up, no-holds-barred look at 101 stars-at their surprising, often shocking, sometimes sordid but always entertaining real selves and lives.

Boze Hadleigh is the author of 27 books, most of them Hollywood-themed. The Los Angeles Times labeled him "a pop culture phenomenon."

Supernatural

Giannini Erin

A captivating exploration of the television phenomenon that is Supernatural, with insights into characters, plots, and the show's impact on pop culture. When Supernatural first aired on the CW in 2005, it was dismissed by many for being "pretty guys fighting demons." Yet Supernatural persisted for 15 seasons to become the anchor of the network's line-up and the longest running genre series in US television history. In *Supernatural: A History of Television's Unearthly Road Trip*, Erin Giannini delves into the phenomenon of this cult series and its devoted fan base. Covering all 15 seasons, including the series finale that aired in 2020, this book examines the show's predecessors, characters, major storylines, and fan activism. It also revisits creator Eric Kripke's road to creating the series, draws surprising and revealing connections between the show and other series, and discusses the ways Supernatural responded to social and industry changes throughout its long run.

Oblivion

Robroek Roman

Beautiful, haunting photographs of abandoned places around the world. Once thriving buildings now ravaged by nature and time are the subject of this fascinating book. The vestiges of Abkhazia, a country that does not exist, an abandoned power plant turned into a set for Hollywood movies, the Buffer Zone in Cyprus, the ghost city of the Chernobyl disaster, an Art Nouveau theatre in Brussels, a unique 18th-century Italian fortification, the city of Tskaltubo with its waters of immortality, one of the oldest baths in Romania... Roman Robroek is an urban-obsessed and award-winning photographer, born and raised in the enchanting south of the Netherlands. He takes unique photos of forgotten and abandoned places all over the world. What is the story behind those buildings? Who used to live there? What purpose did these objects serve, and why were they abandoned? This curiosity has created a close bond between him and Urban Photography, and Oblivion is the result of the last 10 years, which he spent exploring incredible ghostly locations, trying to answer these endless questions.

Swamplands

Tundra Beavers, Quaking Bogs, and the Improbable World of Peat

By Struzik Edward

In a world filled with breathtaking beauty, we have often overlooked the elusive charm and magic of certain landscapes. A cloudy river flows into a verdant Arctic wetland where sandhill cranes and muskoxen dwell. Further south, cypress branches hang low over dismal swamps. Places like these—collectively known as swamplands or peatlands—often go unnoticed for their ecological splendour. They are as globally significant as rainforests, and function as critical carbon sinks for addressing our climate crisis. Yet, because of their reputation as wastelands, they are being systematically drained and degraded to make way for oilsands, mines, farms, and electricity. In *Swamplands*, journalist Edward Struzik celebrates these wild places, venturing into windswept bogs in Kauai and the last remnants of an ancient peatland in the Mojave Desert. But the rewards are sweeter for the struggle: an enchanting Calypso orchid; an elusive yellow moth thought to be extinct; ancient animals preserved in lifelike condition down to the fur. *Swamplands* highlights the unappreciated struggle being waged to save peatlands by scientists, conservationists, and landowners around the world. An ode to peaty landscapes in all their offbeat glory, the book is also a demand for awareness of the myriad threats they face. It urges us to see the beauty and importance in these least likely of places.

Thicker Than Water

The Quest for Solutions to the Plastic Crisis

By Cirino Erica

Much of what you've heard about plastic pollution may be wrong. Instead of a great island of trash, the infamous Great Pacific Garbage Patch is made up of manmade debris spread over hundreds of miles of sea—more like a soup than a floating garbage dump. Recycling is more complicated than we were taught less than nine percent of the plastic we create is reused, and the majority ends up in the ocean. And plastic pollution isn't confined to the open ocean: it's in much of the air we breathe and the food we eat. In *Thicker Than Water: The Quest for Solutions to the Plastic Crisis*, journalist Erica Cirino brings readers on a globe-hopping journey to meet the scientists and activists telling the real story of the plastic crisis. From the deck of a plastic-hunting sailboat with a disabled engine, to the labs doing cutting-edge research on microplastics and the chemicals we ingest, Cirino paints a full picture of how plastic pollution is threatening wildlife and human health. *Thicker Than Water* reveals that the plastic crisis is also a tale of environmental injustice, as poorer nations take in a larger share of the world's trash, and manufacturing chemicals threaten predominantly Black and low-income communities. There is some hope on the horizon, with new laws banning single-use items and technological innovations to replace plastic in our lives. But Cirino shows that we can only fix the problem if we face its full scope and begin to repair our throwaway culture.

The Adult Side of Dyslexia

By Sandman-Hurley Kelli

This book combines moving accounts of the lived experience of dyslexic adults with tips and strategies for surmounting the challenges you or a loved one or family member may face.

Drawing on in-depth interviews, Kelli Sandman-Hurley explores common themes such as school experiences; the impact of dyslexia on mental wellbeing; literacy skills; and being a dyslexic parent, perhaps to a child who is also dyslexic.

Interviewees share what helped them (or didn't), the strategies they use daily to tackle literacy-based tasks, anxiety and low self-esteem, the advice they would give to the parent of a dyslexic child who is struggling and reflect on how their experience has impacted their own parenting style.

Whether you're dyslexic yourself or supporting someone who is, this book sheds light on an underrepresented topic, providing much-needed guidance and insight around what life is really like for an adult with dyslexia.

From Survive to Thrive

Chisolm Margaret S.

What's holding you back? Learn how to take the steps needed to get to a place where you are happier, more productive, and more at peace. Are you struggling with personal problems, a mental health condition, or addiction? Are you looking to permanently improve your well-being and happiness? If you'd like to lead a fuller, more satisfying life-or help a mentally ill loved one-this book is for you. In *From Survive to Thrive*, Dr. Margaret S. Chisolm, a psychiatrist at the Johns Hopkins School of Medicine, describes a tried-and-true plan to help anyone grappling with life's challenges learn how to flourish. Dr. Chisolm does not define health as the mere absence of illness. She wants you to be able to lead the best life possible-to thrive! In down-to-earth prose, Dr. Chisolm provides insight into how readers can cultivate healthy habits and more positive reactions to life's provocations, choosing not to allow past life circumstances or a disease state to define their well-being.

Mindfully Wise Leadership

Tsuk Keren

Presents timely, implementable, and easy practices for the modern workplace, and demonstrates how leaders can be mindful, listen deeply, and embrace tension to enable organizations, and people, to succeed in uncertain times. Leading is by no means an easy task. We expect our leaders to be steadfast but also flexible. We need leaders to show us the way, but also to deeply listen and recognize the expertise of those around them. In *Mindfully Wise Leadership*, Keren Tsuk, founder of consulting group Wisdom To Lead, seeks to revolutionize the process by which leaders manage their organizations and their people. Through her research in the field, Tsuk found that, with the application of mindfulness techniques, individuals can not only improve their effectiveness in the management of others but also in the management of their own needs, building better futures for everyone.

Leadership

The Warrior's Art

By Christopher Kolenda

This wide-ranging anthology brings together noted military minds as they examine the crucial role of leadership in combat, relate the lessons learned, and apply the principles to the stressful world of business.

The book covers classic and modern concepts of leadership and uses case studies from Alexander the Great through post-9/11 wars to illustrate the principles of leadership in concrete historical contexts.

The most important, most penetrating analysis of military leadership to emerge in a generation, this seminal work features leaders of the armed forces as they learn from the past and present and look toward the future.

This fully updated edition includes chapters that speak to leading in a diverse world.

Christopher Kolenda is a graduate of West Point, former West Point instructor, retired Army officer, and founder of Strategic Leader's Academy. He served four tours of duty in Afghanistan and was a senior advisor to three 4-star commanders and two undersecretaries of defence. He was awarded the department of defense's highest civilian award and earned his Ph.D. at King's College in London. He lives in Milwaukee, Wisconsin.

Churchill's Cocktail Cookbook

By Imperial War Museums

Thirty new and classic cocktail recipes inspired by the colourful and controversial Winston Churchill.

This charming book from the Imperial War Museums features dozens of cocktail recipes, each accompanied by detailed instructions, an ingredients list, and a short description of how the drink is inspired by British former head of state Winston Churchill.

Photographs of the cocktails at Churchill War Rooms or the Churchill Bar accompany each recipe, and archival images of Churchill himself, drawn from the Imperial War Museums collection, tie the volume together.

Published in association with the Churchill Bar at the Hyatt Regency Churchill in London, this is the ideal gift for anyone who likes a glass of something strong mixed with a splash of history.

Imperial War Museums is a British national museum organization with branches at five locations in the United Kingdom, three of which are in London.

Its museums record and showcase experiences of modern conflict and uncover the causes, course, and consequences of war, from World War I to the present day.

Jazz Age Cocktails

History, Lore, and Recipes from America's Roaring Twenties

By Tichi Cecelia

"Roaring Twenties" America boasted famous firsts: women's right to vote, jazz music, talking motion pictures, flapper fashions, and wondrous new devices like the safety razor and the electric vacuum cleaner. The decade opened, nonetheless, with a shock when Prohibition became the law of the land on Friday, January 16, 1920, when the Eighteenth Amendment banned "intoxicating liquors." The law, riddled with loopholes, let the 1920s write a new chapter in the nation's saga of spirits. Men and women spoke knowingly of the speakeasy, the bootlegger, rum-running, black ships, blind pigs, gin mills, and gallon stills. Passwords gave entree to night spots and supper clubs where cocktails abounded, and bartenders became alchemists of timely new drinks like the Making Whoopee, the Petting Party, the Dance the Charleston. A new social event-the cocktail party staged in a private home-smashed the gender barrier that had long forbidden "ladies" from entering the gentlemen-only barrooms and cafes. From the author of *Gilded Age Cocktails*, this book takes a delightful new romp through the cocktail creations of the early twentieth century, transporting readers into the glitz and (illicit) glamour of the 1920s. Spirited and richly illustrated, *Jazz Age Cocktails* dazzles with tales of temptation and temperance, and features charming cocktail recipes from the time to be recreated and enjoyed.

Shipwreck

Horner Dave

Readers hearts have long thrilled to gripping tales of golden galleons, tossed by gales and engaged in bloody battle and the frantic pursuit of treasure. Based on the exceptional and fascinating eyewitness account of a 17th century Spanish padre, Dave Horner's *Shipwreck* is the absorbing and true story of two immense galleons that were lost to disasters at sea. *Shipwreck* is an extraordinary literary adventure which interweaves accounts of the many attempts throughout the past three centuries to recover the sunken treasure, including the recent discovery and salvage of one of the galleons by Dave Horner himself. *Shipwreck* is an outstanding history of true adventure on the high seas, past and present, which is wonderfully enhanced for the reader with 50 photographic illustrations, six maps, four line drawings, seven appendices, as well as bibliographies of archival sources, institutions, original documents or primary works, and a general listing of thematically appropriate titles for further suggested readings.

Ritchie Boy Secrets

Eddy Beverley Driver

In June 1942, the U.S. Army began recruiting immigrants, the children of immigrants, refugees, and others with language skills and knowledge of enemy lands and cultures for a special military intelligence group being trained in the mountains of northern Maryland and sent into Europe and the Pacific. Ultimately, 15,000 men and some women received this specialized training and went on to make vital contributions to victory in World War II. This is their story, which Beverley Driver Eddy tells thoroughly and colourfully, drawing heavily on interviews with surviving Ritchie Boys. The army recruited not just those fluent in German, French, Italian, and Polish (approximately a fifth were Jewish refugees from Europe), but also Arabic, Japanese, Dutch, Greek, Norwegian, Russian, Turkish, and other languages-as well as some 200 Native Americans and 200 WACs.

Edible Stories

*Kurlansky Mark*

Robert Eggle finds himself standing one day in a hole in the sidewalk, rain plastering his clothes to his body, with no memory of who he is, his former life as a food critic, how he got there, or where he should go next. Trying desperately not to be unknowing to people who seem to recognize him including his wife Margaret, he must survive by holding on to what he tastes. He finds his preoccupations narrowed down to his loss of taste, and the puzzling gastronomic tales people regale him with. Why is it important not to be too gourmet? And what is the real purpose behind red sea salt? There is his ex-wife Margaret, who becomes the unwilling obsession of a man from Papa New Guinea with an unusual appetite, and Emma, his neurotic fan who sees a conspiracy in creme brulees. In this world where love is celebrated with peppered, slow-cooked menudo, and where friendships are forged over fat-free muffins, Edible Stories serves up a delectable tale of quirky individuals whose lives intersect in amusing, poignant, and surprisingly thrilling ways.

Christmas Past

*Adcox John*

The winter holiday season is a time for gifts and music, for snow and miracles, and for family and going home. For Jessie Malone, it's a time for sorrow. Jessie is a graduate student living in London, where she hopes to be one of the first folklorists ever to trace an urban legend back to its original source. She's also a grieving young widow unable to heal from the agony of her life-shattering loss. In the bleak midwinter, Jessie learns of an urban legend about a lonely, wandering ghost, a British sailor named Sam who promised his bride that he'd be home for Christmas. The legends say he's been trying to make it back to her since World War II. As she investigates, Jessie learns that Sam's story defies the patterns of how urban legends are supposed to work. It's a puzzle she can't let go. To solve the mystery, she must confront the impossible and, just perhaps, discover a miracle of Christmas love that survives beyond the grave.

Raven Wakes the World

*Adcox John*

The winter holiday means a hundred things in a hundred different lands. But no matter where you travel, winter is a time for storytelling. Raven Wakes the World presents a very different winter holiday tale sure to touch the heart, bringing together an ancient Inuit legend and a haunting romance. Katie Mason is an artist wounded in the soul, a creator who's forgotten how to create ... and how to love. She has come all the way to Alaska to make art and to heal from a broken relationship. But she hasn't been able to do either. At least not until a dark-eyed stranger enters her life. His stories fuel her imagination and her passions. But his secrets may do something far more transformative. Christmas is a season of gifts and miracles, of love and healing and the joy of homecoming. This mythic holiday gift will awaken the wonder of the season in you -- and make you think of winter in entirely new ways.

Christian Mystics

McColman Carl

Christian Mystics: 108 Seers, Saints and Sages celebrates the many types of mystics, visionaries, wisdom keepers, and non-dualists whose spiritual insight and perceptive teachings have illuminated the Christian tradition for the past two thousand years. Looking at 108 mystics from Biblical times to the present day, this user-friendly guide shows how the spiritual masters of the western tradition provide a variety of paths into the transforming heart of God. Everyone needs teachers and companions to guide and nurture us in developing rich interior lives -- as we seek to respond to the beatifying, deifying love of God. The mystics, whose legacy includes sublime poetry, fascinating autobiographies, and potentially life-changing teachings, can help anyone find greater love, purpose, and a deeper sense of God's presence.

The Big Book of Christian Mysticism

McColman Carl

In popular usage, "mysticism" typically refers to New Age or Eastern forms of spirituality. However, the mystical tradition is also an important component of the Christian tradition. At its heart--and much like its expression in other faith traditions-- Christian mysticism is an ancient practice that incorporates meditation, contemplation, worship, philosophy, the quest for personal enlightenment, and the experience of Divine presence. This volume is a comprehensive introduction and guide to Christian mysticism. It is a big book about a big possibility: the hope of achieving real, blissful, experiential unison with God. Among the topics covered here are a general introduction to mysticism, the Bible and mysticism, the history and types of Christian mysticism, biographical sketches of leading Christian mystics, and practical instructions about practicing mysticism today. This is a breathtaking work that explores a form of spirituality that has changed lives over the course of 2,000 years. Learning about Christian mysticism and how it has been articulated through the centuries will prove inspirational for today's seekers, regardless of the faith tradition.

Brave

Women of the Bible and Their Stories of Grief, Mercy, Folly, Joy, Sex, and Redemption

By Connor Alice

"Women are essential to the biblical story--they bear life, lead communities, and testify to God's power and presence. Some of their names we know, others we've only heard, and others, tragically, go unnamed.

Following the success of her beloved book *Fierce*, pastor and provocateur Alice Connor introduces us to a whole new group of women from the Bible, including Rachel, Leah, Miriam, Esther, and Lydia.

Connor invites us to see them not as players in a man's story--as victims or tempters--nor as solely morality archetypes who teach women to be better wives and mothers--but as brave foremothers of the faith.

Skilfully drawn by the author, these women's stories are messy, challenging, and beautiful. When we read their stories, we can see not only there, formidable lives but also our own."

Alice Connor is an Episcopal priest and college chaplain. Alice is a certified enneagram teacher and a stellar pie-maker. She lives for challenging conversations and has a high tolerance for awkwardness.

What the Amish Teach Us

Plain Living in a Busy World

By Kraybill Donald B.

It may seem surreal to turn to one of America's most traditional groups for lessons about living in a hyper-tech world--especially a horse-driving people who resist "progress" by snubbing cars, public grid power, and high school education. Still, their wisdom confirms that even when they seem so far behind, they're out ahead of the rest of us. Having spent four decades researching Amish communities, Donald B. Kraybill is in a unique position to share important lessons from these fascinating Plain people. In this inspiring book, we learn intriguing truths about community, family, education, faith, forgiveness, aging, and death from real Amish men and women. The Amish are ahead of us, for example, in relying on apprenticeship education. They have also out-Ubered Uber for nearly a century, hiring cars owned and operated by their neighbours. Kraybill also explains how the Amish function in modern society by rejecting new developments that harm their community. Pairing storytelling with informative and reflective passages, these twenty-two essays offer a critique of modern culture that is provocative yet practical. In a time when civil discourse is raw and coarse and our social fabric seems torn asunder, *What the Amish Teach Us* uproots our assumptions about progress and prods us to question why we do what we do.

The A in the Rainforest

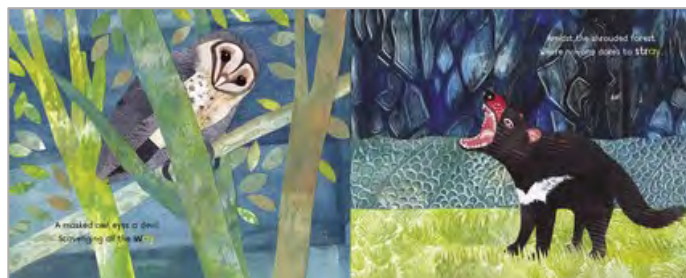

By Barker Judith

Key Sales Points:

- * Fourth book in this award-winning series.
- * Unique approach to phonemes and the teaching of English.
- * Designed to appeal to primary aged children.
- * Hardback version ISBN – **9781925868838 - \$27.99**

Age Range: from c 3 years

This is the story of the A. The A in the Rainforest is a fun Australian-themed phoneme story that teaches young readers about the vowel sound A and where they can find it in different words. Beautifully illustrated by Janie Frith, the rich colours and vibrant use of multi-media enhance the magical experience. The book is about the journey of a young Rainbow Bird from the rainforests of Tasmania to their counterparts in New South Wales. The first book from Judith and Janie, the Oo in Uluru, won a 2019 Book of the Year award from Speech Pathology Australia; this is their fourth book, the others being the EE in the Deep Blue Sea and the O in the Snow.

Author Bio:

Judith is an English teacher who has taught phonemic awareness to children in Europe, the Middle East, India and China. While researching a masters in phonology, Judith began to use visual language in stories, by colouring the different phonemes, so that children could make a holistic sense of the various spelling patterns. Judith published her first children's book, The Oo in Uluru, in 2019 and it soon won a Book of the Year award from Speech Pathology Australia. Ee in the Sea followed in 2020 and O in the Snow in 2021. When Judith is not writing children's stories or plays, she teaches music therapy and meditation. She lives in Melbourne with her family and adorable Australian terriers, Nellie and Dusty. Originally from New Zealand, Janie Frith attended art school and then became an art teacher. In 2006 Janie moved to Australia with her family and now lives in Foster, South Gippsland. Janie holds art classes in her studio, Art Blast. This is where Janie spends most of her time, usually with her naughty border collie Lucy snuggled under her feet.

Deadly Science - The Solar System

Australian Geographic & Edited by Corey Tutt

From planets made of gas, to stars made of fire, our vast Solar System is filled with mysteries still to be explored and solved. Did you know that the world's first astronomers were Indigenous Australians over 35,000 years ago? These Australians were the first humans to closely observe and note the movement of the planet and stars in space. So, buckle up and get ready to navigate the nebulae and comets with us as we explore space and begin to unravel the intricacies of our little corner of the Milky Way.

Brilliant Bea

By Rudolph Shaina

Brilliant Bea is an endearing and empowering story that demonstrates that a learning difference like dyslexia doesn't define who you are.

Despite her struggles with reading and writing, Beatrice is a natural and brilliant storyteller.

With the help of a kind-hearted teacher, Beatrice uses an old-fashioned tape recorder so she can speak her words and then play them back, as a technique for learning in whole new way.

With her new approach, Beatrice can show her classmates who she really has been all along.

This book is set in EasyReading, a dyslexia-friendly font.

Shaina Rudolph is an author and educator in the Los Angeles area. She has worked alongside students with unique learning needs for the last 10 years. Mary Vukadinovich has been working with students with language-based differences for the last 16 years. As a learning specialist in Los Angeles, Mary values the opportunity to teach diverse learners, including students with dyslexia. Fiona Lee is a children's book illustrator living in central Vermont. Her background in education and science illustration informs how she approaches all her illustration projects today.

World Tales from Family Storytelling

53 Traditional Stories for Children aged 4-6 years

By Smith Chris

Young children are natural storytellers.

They love both listening to parents telling stories and telling stories themselves.

These 53 World Tales for Family Storytelling can be shared at bedtime, on journeys, at parties or around the campfire.

Children will find these ready to tell stories are short, simple, and quick to learn. They draw on traditional tales, told in the voice of a storyteller.

Parents can read or tell the stories, so children can soon tell the stories themselves.

Such oral storytelling builds children's confidence in their unique voices.

These wonderful world tales are all selected from the highly acclaimed 147 Traditional Stories for Primary School Children to Retell, a reference book used by teachers around the globe. In this collection for home use, we focus on tales for children aged 4-6. The stories may be read, told and retold and then explored within the family. They offer a rich vein of world heritage, giving your family a doorway into the wonderful world of traditional tales. Enjoy! Chris Smith.

The Amazing A-Z of Resilience

26 Curious Stories and Activities to Lift Yourself Up

By Gumbrell David

P is for Pirates, Q is for Questions and R is for Resilience.

We all know PIRATES were always hunting for treasure.

Follow this A to Z to QUESTION the world around you and you will find your way to the treasure within- your RESILIENCE!

This alphabet of objects presents 26 familiar objects as conversation starters to develop resilience.

Each object introduces a wellbeing theme to open discussions about mental health between teachers, parents/carers and children.

There is an activity for each letter to help children aged 8-12 develop life skills to become more resilient.

Destigmatising mental health and providing children with the language to describe and communicate their wellbeing, this essential guide helps children to manage their inner emotions and feelings and makes these complex topics accessible and enjoyable to read about.

It includes a section on how the book can be used and how to have conversations about resilience, feelings, emotion and mental health for the adult using this tool with a child.
