## Barty (2022 Edition)

Arise, Queen of Oz

*By Ron Reed and Chris McLeod*

### Key Sales Points:

- \* New edition of the bestseller and the only book about Australian tennis champion and World No. 1 Ash Barty on the market.
- \* Includes new introduction, Ash's triumphant 2022 Australian Open campaign and legendary win, her 2022 Adelaide International Tennis Tournament win, her engagement news that thrilled the tennis world and social media, and how Ash has held on to her World No. 1 position.
- \* Up to date with all of Ash's matches, ranking and tournaments up to the 2022 Australian Open. Also includes her historic Wimbledon win and the Tokyo Olympics.
- \* Complete overview of Ash's career from junior to World No.1 including her brief break from tennis to play cricket.

### Publicity:

- \* Coverage in national newspapers and radio including ABC National, 3AW, SEN, Fox Sports, ESPN Australia, Inside Sport and more.

### Author Bio:

Ron Reed's 50-plus years in sports journalism include decades as a columnist and feature writer for Australia's biggest-selling daily newspaper, the Herald Sun, as well as two stints as Sports Editor of that paper's predecessor, The Herald, and one as Editor of the old Sporting Globe. He has covered most of the world's major sports events – many of them multiple times – in more than 30 countries, and is a tennis aficionado, having been a fixture at the Australian Open as well as many Davis Cup ties. He is an author and researcher for floggerblogger.com with an interest in sport, transport and mystery.

It doesn't get any better than this. Ash Barty, the greatest Australian tennis player of the modern era, rewrote history by winning the 2022 Australian Open and becoming the first Australian woman to do so since 1978.

This book covers her journey from knockabout kid from Queensland to world champion and explores her rare gift for the game, engaging personality, innate modesty and relentless determination to be the best.

Barty's mantra is that being a good human being is far more important than being a good tennis player, and it has been widely hailed as a lesson for all. In other words, she now transcends sport. Her unfolding, unfinished narrative has come to resonate with overtones of national pride and inspiration, community morale, cultural issues ancient and modern, the importance of family and friends, the regard for humility and grace over rampant ambition, the escalating battle for gender equality, and perspectives on fame and fortune.

In this new edition of the top seller, award-winning sports writer Ron Reed and journalist Chris McLeod pay tribute to the World No. 1 covering all her games and unforgettable moments.

**Crown**

Playing in the Shadows

**By Ravlic Tom**

**Key Sales Points:**

\* Exposes the tricks used by Crown, one of Australia's largest companies, to avoid regulatory scrutiny, dodge tax, and tinker with their games while on the quest to fill its coffers.

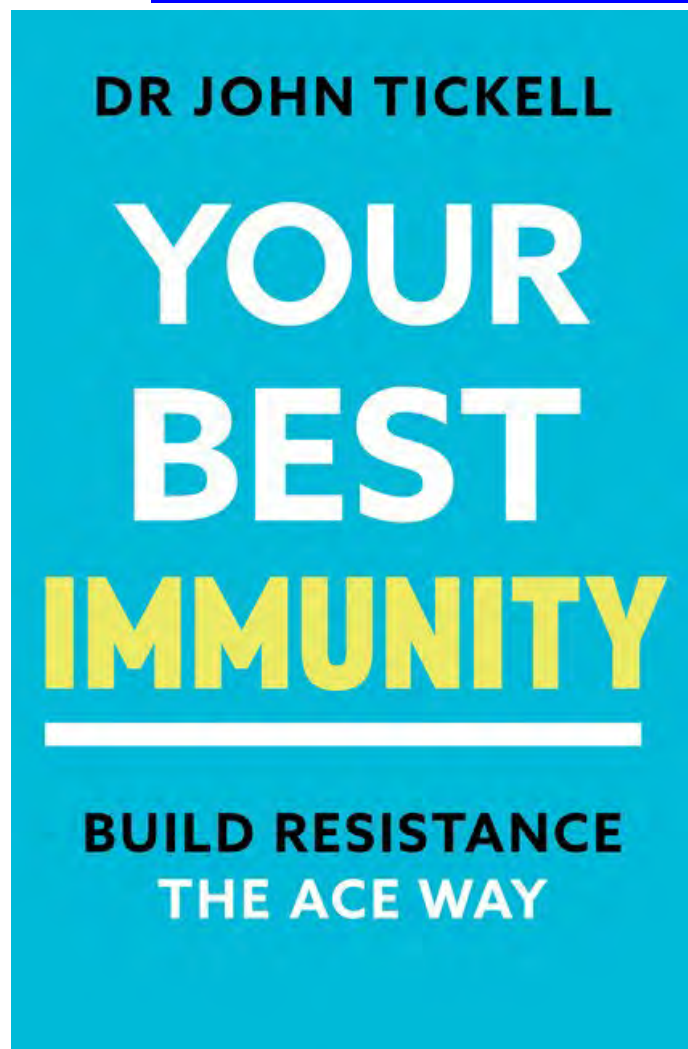

\* A case study in a decaying corporate culture with celebrities, former politicians, corporate governance failures, tax dodges, and casino junkets tailor-made for colourful gambling identities.

\* A fascinating read for those who enjoy true crime, have an interest in business and finance, or criminology and human behaviour; and those interested in learning about the gaming and gambling sector, the importance of checks and balances within corporates and regulators, and organised crime.

**Publicity:** \* National newspapers, Australian Financial Review, Crikey, Banking Day, The Mandarin, ABC National radio, 3AW, 2GB, Australia's True Crime podcast (Australia's #1 True Crime podcast) and more.

The glitz and glamour of casinos across the world is legendary, and Australia's Crown Casino complexes are no exception. An extensive gaming floor that is surrounded by retail outlets, food courts, accommodation and entertainment venues is the place where people come out to play. Behind the blinding lights, clinking glasses, pursuit of a winning hand or the elusive jackpot is a darker reality that lurks in the shadows about the conduct of the casino businesses like Crown across multiple jurisdictions.

From sacrificing staff on the altar of profit to money laundering and breaching of gaming laws, media and government inquiries have exposed links to organised crime and the company dodged payments of gaming taxes that added further to the company's internal and public woes. Investigative journalist Tom Ravlic takes a forensic look at Crown's ills through a detailed examination of evidence presented in government reports and to commissions and inquiries. He explains how things went so wrong and explores whether there are ways of getting a fair share of the spoils from casino operations into the hands of players and the broader community.

## Your Best Immunity

Build Resistance the ACE Way

*By Tickell Dr. John*

**Publicity:** \* Interviews, extracts and reviews in national media including newspapers and radio (4BC, 2GB, 3AW, ABC National); online advertising and social media campaign.

### Author Bio:

Dr John Tickell is a Medical Doctor, an International researcher, presenter and author who has spent several decades travelling and studying the health, wellbeing and longevity patterns of people around the world, in more than 100 countries. He applies his own powerful formula of Activity, Coping and Coping skills, which draw on his medical experience, extensive international research and the lifestyle patterns of the longest living, healthiest people on earth—the Okinawans, off the southern end of Japan. As a 10-year brain cancer survivor, Dr John underlines these ACE skill principles for life, and shares them with those seeking long term immunity and wellness.

Immunity is the protector of our bodies— it's our defence system and is essential for our survival. Our body is surrounded by literally millions of viruses and potentially harmful pathogens daily, and a few of them are strong enough to infect our human cells. A healthy, balanced immune system is a must—and as immunity decreases with age and poor daily habits, the question is: can we help ourselves with immunity support? In *Your Best Immunity* bestselling author Dr John Tickell explores the immune system, why it's so important and how to build resilience using his ACE Way: Activity, Coping, and Eating. He answers questions about how vaccinations work with your natural immunity and looks at the increased risk compromised immunity can have on your health including cancer and COVID-19. This is an essential guide to better understand and know how to boost your immunity—take Dr John's Immune System Rating and start increasing your immune resistance today.

Photo Edition

**By Alberts Ziggy****Key Sales Points:**

\* Ziggy Alberts is an independent singer-songwriter with a worldwide, grassroots following. Platinum ARIA accredited artist with over 1.5 million monthly listeners and his music having received attention from Billboard magazine, triple j, Rolling Stone France and Clash UK. \* Alberts continues to branch into the written median, pairing this latest release of brainwaves with his love of film photography to deepen the connection with the words. \* His music and public figure alike are loved for the authenticity, vibrancy and relatability. Alberts' honest approach to his writing and stage presence is the core of his success. This mindset is how he fortuitously branched into poetry and now the photo edition.

**Publicity:**

\* Planned digital marketing spend for the announcement of the book. \* The announcement of 'brainwaves-photo edition' has strategically occurred in the height of Alberts' single release period which has a global focused marketing campaign. \* The photo edition is tied into Alberts' searching for freedom album by subtly showcasing the same illustration on the front cover as seen on the album cover and the same as the debut poetry book release.

A new edition of the successful debut poetry book from platinum ARIA accredited artist Ziggy Alberts, brainwaves - the photo edition, explores life's experiences and emotions, inwards and out. Deeply personal, frank, insightful, yet relatable, Alberts uncovers his introspective thoughts and lessons learned in conscious and intentional living. In this edition, readers can discover Alberts' love of film photography with photos spread throughout the book - deepening the reader's connection with the words through imagery. Divided into 4 chapters, each poem entices the next train of thought. Alberts masterfully draws observations of the natural environment to paint his experience of introspective moments. He contemplates modern-day dilemmas, timeless topics of purpose, trust, stillness, and love.

## Don't Stop

55 Years of Fleetwood Mac

*By Chrisp Pete*

They began as a little blues band in London, England, in 1967, named, rather bizarrely, after their tight rhythm section: Mick Fleetwood on drums and John McVie on bass. Fleetwood Mac.

Fifty years later, they remain one of the biggest bands of all time - a position they have held since 1977 when, with the help of John's wife, Christine McVie, and two virtually unknown American musicians called Stevie Nicks and Lindsey Buckingham, they released an LP titled Rumours that went on to become the world's best-selling album. That is a remarkable story. Now consider the highs and lows, the successes and failures, the personal turmoil, tragedy and heartbreak through which this band has journeyed over the last 50 years ... and the story of Fleetwood Mac becomes one of pure drama.

The greatest ever rock 'n' roll soap opera. In this independent, lavishly illustrated publication, music writer and journalist Pete Chrisp reveals the true story of how, over the last 50 years, despite all those confrontations, pinnacles and all-time lows ... the chain of Fleetwood Mac remains unbroken. Now fully updated to include features on Peter Green's Fleetwood Mac and all the musicians and members that have made the band one of the bestselling of all time.

## The Complete Book of Pokemon

*By Sleep Drew*

Welcome to the world of Pokemon. For 25 years, this series has entertained leagues of aspiring gamers. Starting as a mere idea in the mind of Satoshi Tajiri, drawing from his experiences catching bugs as a child, it grew into a duet of Game Boy games that captured the hearts of Japan. From then, the Pocket Monsters set their sights on taking over the rest of the world by storm. Evolving to encompass videogames, toys, cards, manga, anime and more, Pokemon rapidly turned into a multimedia behemoth. Its super effective strategy of maintaining that popularity with regular updates of new monsters, games and regions to explore has ensured that it's the most successful media franchise in the world. Today, it's almost impossible to find someone who doesn't recognise the likes of Pikachu, Ash Ketchum or the iconic Poke Ball logo.

Inside this special celebratory book, we're going to take you on a journey from the very first Generation of Pokemon, all the way to the eighth. On our quest, we'll learn about how each era brought something new to the series, explore each and every Pokedex expansion and delve deep into the stories behind the videogames, television series and more.

Whether you're a Pokemon Professor or an aspiring Pokemon Master taking their first steps towards the Indigo Plateau, we're confident that you'll enjoy the ride.

## Superheroes, Orphans & Origins

125 Years in Comics

*By Foundling Museum*

Many of the most inspiring characters in comics and graphic novels began their epic journeys as orphaned or abandoned children. In these stories, the loss of a parent inflicts challenges that even superpowers cannot easily resolve. *Superheroes, Orphans Origins: 125 Years in Comics* offers a richly illustrated and thought-provoking exploration of the representation of orphans, foundlings, adoptees and foster children in sequential art. Surveying 125 years of creative practice and an international cast of characters, this book examines how care-experience is depicted in early comic strips like Little Orphan Annie, celebrated superhero narratives including Superman and Batman, and popular Japanese manga, among other examples. The complex issues and identities that feature in these stories are considered from a variety of perspectives, ranging from art historical to activist. Contributing authors include Lemn Sissay, MBE and award-winning artists Carlos Gimenez and Lisa Wool- Rim Sjoebloom, all drawing inspiration from their own experiences in care. Bringing together critical essays, candid conversations and outstanding artwork, this book encourages a new way to experience comics.

This book is published on the first major exhibition to focus on the representation of care experience in comics, produced by the Foundling Museum in London (April - August 2022).

## Arnold Bennett

Lost Icon

*By Donovan Patrick*

During his 1920s heyday, Arnold Bennett was one of Britain's most celebrated writers.

As the author of *The Old Wives' Tale* and *Clayhanger* he was a household name, writing just as much for the common man as London's literati.

His face was plastered over theatre hoardings and the sides of West End omnibuses. To his public, Bennett stood for financial prudence, self-improvement and quiet domesticity.

Yet Bennett's own affairs were teetering on collapse in the run-up to his death in 1931. He was fighting a losing battle on three fronts: with his estranged wife; with his disenchanted mistress; and from a literary perspective, with Virginia Woolf.

As the first full length biography of Bennett since 1974, *Arnold Bennett: Lost Icon* draws on a wealth of unpublished diaries and letters to shed new light on the unquiet, and at times tormented, life of a man who can be considered a 'Lost Icon' of early twentieth-century Britain.

## Napoleon Hill's the Language of Thought

Leverage Your Thoughts to Achieve Your Desires

*By Hill Napoleon*

Napoleon Hills *The Language of Thought* is your guide to understanding, generating, and directing more powerful thoughts so that you can live and work with more intention, joy, and success.

The single most powerful tool available to human beings is not money, physical strength, influence, or a network; it is the mind. Our thoughts determine our outcomes in life, as well as our ability to enjoy the journey. To harness our thoughts to create material success, we do not require any personal advantage such as wealth, connections, or education. We simply need to utilize the mental resources already within our possession by cultivating a thorough understanding of the workings of the mind and the way thoughts may be transformed into their physical counterparts.

To create positive change in our lives, we must learn to speak the language of thought, which has its own unique formula. This book contains Napoleon Hills best lessons on the components that make up the language of thought, as well as easy-to-follow, modernized instructions on how to leverage these elements to generate more powerful thoughts.

## 30 Days to Sales Success

Build More Profitable Relationships, Close More Sales, Drive More Business

*By Elliot Meredith Powell*

Organized into daily lessons on critical sales strategies, *30 Days to Sales Success* is your roadmap to making sales more comfortable, more fulfilling, and more rewarding. Regardless of what you are selling--a product, a service, an idea, or a new direction--you must understand the value of your offering and share it in a way that convinces people to participate. However, much of the sales advice today centres on the salesperson, not the customer, and entails aggressive cold-calling and upselling techniques. It's no wonder so many people dislike selling...and why so many people dislike being sold to. Luckily, there is another way--a path to customer-oriented sales, with a focus on value, service, and long-term relationships. Named "One of the Top 20 Sales Experts to Follow" by LinkedIn, Meridith Elliott Powell will equip you with critical strategies for sustainable, relationship-oriented sales success.

By reading the lessons and completing the journaling prompts and action items each day, you will progressively improve your sales savvy so that by the end of the month, you will feel more confident in your abilities and your natural sales style, more passionate about your work, and more empowered to sell with intention and efficacy.

## Free from Panic

A Teen's Guide to Coping with Panic Attacks and Other Panic Symptoms

**By Parkinson Monika**

Self-help book for teens experiencing panic attacks, including strategies from CBT, ACT and CFT.

Panic symptoms and panic attacks can feel overwhelming and frightening. This book guides teens through the isolation and worry of living with panic symptoms or panic disorder.

Through interactive exercises, this book shows that the key to unlocking freedom from panic is learning to understand our feelings, fears and bodies. Demonstrating that panic is a natural emotion that many people experience, it provides useful strategies drawn from a range of approaches including Cognitive Behavioural Therapy (CBT), Acceptance and Commitment Therapy (ACT) and Compassion-Focused Therapy (CFT) to help teens to get on top of their fears and panic. Co-written by respected clinicians in the field, the strategies in this book are tried and tested in helping teens and young people in their journey through panic.

## The Secret Perfume of Birds

Uncovering the Science of Avian Scent

**By Whittaker Danielle J.**

The untold story of a stunning discovery: not only can birds smell, but their scents may be the secret to understanding their world. The puzzling lack of evidence for the peculiar but widespread belief that birds have no sense of smell irked evolutionary biologist Danielle Whittaker. Exploring the science behind the myth led her on an unexpected quest investigating mysteries from how juncos win a fight to why cowbirds smell like cookies. In *The Secret Perfume of Birds*-part science, part intellectual history, and part memoir-Whittaker blends humour, clear writing, and a compelling narrative to describe how scent is important not just for birds but for all animals, including humans. Whittaker engagingly describes how emerging research has uncovered birds' ability to produce complex chemical signals that influence their behavior, including where they build nests, when they pick a fight, and why they fly away. Mate choice, or sexual selection-a still enigmatic aspect of many animals' lives-appears to be particularly influenced by smell. Whittaker's pioneering studies suggest that birds' sexy (and scary) signals are produced by symbiotic bacteria that manufacture scents in the oil that bird's stroke on their feathers when preening. From tangerine-scented auklets to her beloved juncos, redolent of moss, birds from across the world feature in Whittaker's stories, but she also examines the smelly chemicals of all kinds of creatures, from iguanas and bees to monkeys and humans.

## Predators

Who They Are and How to Stop Them

**By Cooper Gregory M.**

Most of us only half-listen to the public service announcements about safety in the home. We lock our doors at night but do little else to change habits that may make us the next victims of the dangerous individuals who are always on the watch for their next opportunity. This updated paperback edition takes readers through the mindset of predatory criminals - their motives, various plans of attack, and way of thinking - and then teaches simple lifestyle techniques that will help reduce the risk of becoming victimized. Featuring a new chapter on how the Internet and social media has radically changed how some predators operate, criminal behavior specialists Greg Cooper and Mike King provide expert analysis based on real-life cases, in addition to moving insights from victims and criminals themselves. The authors make the point that the people who commit these crimes aren't much different from the predators of the wild, preying on the weak and unsuspecting. What makes these individuals more dangerous than their instinctive wildlife counterparts, however, is that they consciously choose to inflict their will on the more vulnerable members of their own species.

To protect our loved ones and ourselves requires that we truly educate ourselves about the predators who live in our society and then take appropriate action. This excellent, in-depth study will help readers lead safer lives.

## Sacramental Theology for a Modern and Future World

*Debus Michael*

There are many books on sacramental theology—some of which focus on a specific denomination, while others aspire to rigorous academic objectivity. Some also serve as an introduction to a particular branch of Christianity, and Michael Debus's book serves that purpose well. Nevertheless, the author's integration of theological developments through the centuries with a discussion of the evolution of consciousness makes this book unique. He addresses the fact that anyone looking for a new or renewed relationship to Christian religiosity must come to understand the centre of religious cognitive consciousness and practical life—the sacraments. Is baptism merely a symbolic act, or is it a reality that affects one's life? Does a final unction affect a person's future stages of destiny? How should we understand the transformation of bread and wine?

## Reappearance of Christ in the Etheric

*Steiner Rudolf*

The first chapter of the Acts of the Apostles describes Christ's Ascension: "and a cloud received him out of their sight." As the disciples were looking up, two angels appeared and said, "the same Jesus, taken up from you into heaven, shall come again in the same way as you have seen him go." Starting in 1910, Rudolf Steiner initiated a series of lectures announcing the advent of Christ's appearance in the sphere of the earth's etheric or life body. This he said would begin between 1930 and 1940, but at first, only a few people would be aware of it. In time, more and more people—regardless of their religious affiliation—would be infused by Christ's living presence. Such "Damascus experiences," bespeaking a new natural clairvoyance, Steiner said, would become increasingly common. The Christ will become a living comforter. Though it may seem strange now, it is nevertheless true that even large numbers of people sitting together and wondering what to do will see the etheric Christ.

## Mistletoes and the Emerging Future of Integrative Oncology

*Steven Johnson & Nasha Winters*

Human disease is an elaborate dance between behavior, our environment, and chance. Medicine tries to tame human disease with science, but when our knowledge falls short, disease wins. This is too often the case with cancer. We spend billions of dollars each year trying to better understand it and develop tools to ease its effects. Today, many allopathic medical practitioners are beginning to seek out a greater connection with holistic and integrative approaches. The authors of this book introduce one specific therapy and make a case for integrative health in general, including anthroposophically extended medicine, naturopathy, and other holistic approaches. Mistletoe therapy has long been considered a viable treatment for cancer by the European medical community and is beginning to gain recognition in North America, as well. The mistletoe plant possesses many remarkable properties. As a therapy, it represents a rediscovery of ancient wisdom and shows us how the science of modern medicine might expand its reach and reconnect with a more human-centered medicine.

- \* Author was to have been interviewed on TV—"A Current Affair"

**Age Range:** from c 5 years

This little rhyming adventure is a fun positive way to alert very young readers to everyday dangers that injure and kill too many Australian children.

The story follows friends like Jumping June the Kangaroo, Blue Tongue Beau and Artie Emu from June's house through the bush to a swimming spot. Our reckless characters navigate hazards that threaten them with spinal injury, snakebite and being squished, all thanks to Billy's simple precautions. Information at the back of the book reveals that real life can be tragically less successful—for example, that 10 children die each year from preventable car accidents in driveways.

A good book for adults to read to toddlers and infants, and an ideal reader for 5 to 7 year old's. For advanced readers and adults there's safety information. For everyone, there are pleasing reminders in the text and the appealing pictures.

## Derek the Dingo meets the Spotted Quoll

Zoe Clemann-Santa and Glenn Clemann & Illust. By Emma Stuart

The story follows Derek as he goes on an adventure with a newfound friend, the Spotted Quoll. Derek comes across the Quoll while she is searching for food, and he offers to help. Derek and the Quoll wander through the Australian bush until they find a food source for the quoll, some witchetty grubs hidden inside a large rotten tree stump. Once the Quoll has had her meal Derek takes her back to her nest, where she bunks down for the night. Derek then treks off home.

## Albert, The Greyhound Who Loves To Run

Kylie Miller and Illust. by Karen Erasmus

*Albert, The Greyhound Who Loves to Run*, is the heart-warming, true story of Albert, an anxious adopted greyhound who overcomes his fear of cats to find a safe home, a warm bed, and a family of his own. The book features Albert, a two-year-old greyhound, who runs away from his new home after being spooked by the family cat. The true story of Albert's escape and nine weeks on the run captured the imagination and interest of animal lovers worldwide as author Kylie Miller worked to bring him home. Albert's adventures – and eventual return – were reported nationally in the Australian media. *Albert, The Greyhound Who Loves to Run* is a fictionalised account but includes real-life characters, including greyhound Teddy, Cleo the cat, and Albert's great love and saviour, Rhonda. It's a universal story of love, family, persistence, friendship and belonging that applies to the thousands of pets seeking happy, forever homes each year.

## Edu-Chameleon

Leverage 7 Dynamic Learning Zones to Enhance Young Children's Concept-Based Understanding

**By Kriegler Lili-Ann**

All early childhood educators know that play is an integral part of a child's learning. But there is much more to the science of play than meets the eye. This must-read book calls on teachers to focus more deeply on specific modes of play to promote concept formation from an early age. As Kriegler explains, if children only ever free play, educators miss a vital chance to design engaging learning projects and scaffold students' conceptual understanding of the world around them. In *Edu-Chameleon*, Kriegler offers ways to engage the minds and imaginations of young children at the level that is appropriate to their current ability, whilst simultaneously laying foundations for future success.

Written for educators of children aged three to nine years, including preschool assistants, teacher aides, degree qualified teachers, leaders and curriculum designers, this practical guide outlines how to identify and utilise the endless opportunities in the classroom to enhance concept-based understanding for learning all subjects including a solid foundation for STEM.

After reading this book, educators will have the confidence to elevate their practice with every word they speak. Their competence will be amplified, and the learning dynamics in their classrooms will be positively realigned.
