Vermeer and the Art of Love

By **Georgievska-Shine Aneta**

LUND HUMPHRIES PUBLISHERS LTD

Vermeer and the Art of Love is about the emotions evoked in those elegant interiors in which a young woman may be writing a letter to her absent beloved or playing a virginal in the presence of an admirer. But it is also about the love we sense in the painter's attentiveness to every detail within those rooms, which lends even the most mundane.

The Wooden Architecture of Northern Europe

From the Viking Era to the 20th Century

By Hilling John B.

This book explores the wealth of wooden architecture that is to be found in Northern Europe the Fennoscandian Peninsula. This distinct region, which includes Norway, Sweden, Finland, and the Russian Republic of Karelia, was dominated by coniferous forest and remained until well into the 20th century a largely rural society. Wood was seen as a living material - one that was permeated with myth and folklore - while the forest itself formed the background to everyday life. Indeed, no single source of material wealth has contributed more to the economy, art, and culture of Fennoscandia than the forests. Nowhere is this contribution clearer than in the region's historic buildings, the vast majority of which were constructed in wood up until the late 19th century.

This is the first book to examine and record the distinctive wooden architecture of this region from the early medieval period to the early 20th century. Structured according to different wood types, it concentrates on domestic and religious buildings, as these formed the great bulk of historic architecture in the peninsula over many centuries.

One Hundred Years of James Joyce's "Ulysses"

By Toibin Colm

Ulysses is widely regarded as the greatest novel of the twentieth century. Commemorating the 1922 publication of this modernist masterwork, *One Hundred Years of James Joyce's "Ulysses"* tells the story of the writing, revising, printing, and censorship of the novel. Edited by world-renowned Irish novelist and literary critic Colm Toibin, this book presents ten essays by preeminent Joyce scholars and by curators of his manuscripts and early editions, as well as an interview with Sean Kelly, the New York gallery owner who donated his extensive Joyce collection to The Morgan Library Museum. Beginning with Toibin's expert interpretation of the Dublin context for *Ulysses*, the volume follows Joyce in Trieste, Zurich, and Paris from 1914 up through the novel's publication and the international scandal and fame that ensues. It draws on Joyce's notebooks and letters, as well as extant manuscripts and proofs, to provide new insights into Joyce's life, the narrative and place of *Ulysses*, and the printed book. Rich and illuminating, this volume is essential for scholars, fans, and readers of the novel. Along with the editor, contributors include Ronan Crowley, Maria DiBattista, Derick Dreher, Catherine Flynn, Anne Fogarty, Rick Gekoski, Joseph M. Hassett, James Maynard, and John McCourt.

Arbitrary Lines

How Zoning Broke the American City and How to Fix It

By Gray M. Nolan

What if scrapping one flawed policy could bring US cities closer to addressing debilitating housing shortages, stunted growth and innovation, persistent racial and economic segregation, and car-dependent development? It's time for America to move beyond zoning, argues city planner M. Nolan Gray in *Arbitrary Lines: How Zoning Broke the American City and How to Fix It*. With lively explanations and stories, Gray shows why zoning abolition is a necessary--if not sufficient--condition for building more affordable, vibrant, equitable, and sustainable cities. The arbitrary lines of zoning maps across the country have come to dictate where Americans may live and work, forcing cities into a pattern of growth that is segregated and sprawling. Reform is in the air, with cities and states across the country critically reevaluating zoning. In cities as diverse as Minneapolis, Durham, and Hartford, the key pillars of zoning are under fire, with apartment bans being scrapped, minimum lot sizes dropping, and off-street parking requirements disappearing altogether. In *Arbitrary Lines*, Gray lays the groundwork for this ambitious cause by clearing up common confusions and myths about how American cities regulate growth and examining the major contemporary critiques of zoning. Gray sets out some of the efforts currently underway to reform zoning and charts how land-use regulation might work in the post-zoning American city.

Build Beyond Zero

New Ideas for Carbon-Smart Architecture

By King Bruce

"Net Zero" has been an effective rallying cry for the green building movement, signalling a goal of having every building generate at least as much energy as it uses. Enormous strides have been made in improving the performance of every type of new building, and even more importantly, renovating the vast and energy-inefficient collection of existing buildings in every country. If we can get every building to net-zero energy use in the next few decades, it will be a huge success, but it will not be enough. In *Build Beyond Zero*, carbon pioneers Bruce King and Chris Magwood re-envision buildings as one of our most practical and affordable climate solutions instead of leading drivers of climate change. Professional engineers, designers, and developers are invited to imagine the very real potential for our built environment to be a site of net carbon storage, a massive drawdown pool that could help to heal our climate. The authors, with the help of other industry experts, show the importance of examining what components of an efficient building are made with, and how the supply chains deliver all those products and materials to a jobsite. *Build Beyond Zero* looks at the good and the bad of how we track carbon, then takes a deep dive into materials and biological architecture, and wraps up with education, policy and governance, circular economy, and where we go in the next three decades.

Music and Mystique in Muscle Shoals

By Reali Christopher M.

The forceful music that rolled out of Muscle Shoals in the 1960s and 1970s shaped hits by everyone from Wilson Pickett and Aretha Franklin to the Rolling Stones and Paul Simon.

Christopher M. Reali's in-depth look at the fabled musical hotbed examines the events and factors that gave the Muscle Shoals sound such a potent cultural power.

Many artists trekked to FAME Studios and Muscle Shoals Sound in search of the sound of authentic southern Black music-and at times expressed shock at the mostly white studio musicians waiting to play it for them.

Others hoped to draw on the hitmaking production process that defined the scene.

Reali also chronicles the overlooked history of Muscle Shoals's impact on country music and describes the region's recent transformation into a tourism destination.

Multifaceted and informed, *Music and Mystique in Muscle Shoals* reveals the people, place, and events behind one of the most legendary recording scenes in American history.

So You Want to Sing Musical Theatre

A Guide for Performers

By Flynn Amanda

The book is updated and expanded for musical theatre performance in the current era, covering a broader array of topics and including more in-depth discussion than the original edition. From television shows like *Glee* and *Smash* to the phenomenon of the Broadway show *Hamilton*, musical theatre has never been more popular.

In *So You Want to Sing Musical Theatre*, Updated and Expanded Edition, Broadway vocal coach Amanda Flynn provides an in-depth look at the skills needed to successfully sing and teach this repertoire. Fully updated to meet the current needs of the profession, this new edition covers a vast array of topics with even deeper discussion: musical theatre history; repertoire; genres used in productions; basic singing voice science; vocal health; audio equipment and microphones; vocal production of musical theatre sounds; acting, dancing, and other movement; working with kids; and auditioning at all levels. The book also includes profiles of Broadway singers that explores their training, methods of vocal upkeep, and advice for singers and teachers.

The *So You Want to Sing* series is produced in partnership with the National Association of Teachers of Singing.

Treating ADHD in Children and Adolescents

WHAT EVERY CLINICIAN NEEDS TO KNOW

Treating ADHD in Children and Adolescents

What Every Clinician Needs to Know

By Barkley Russell A.

From foremost authority Russell A. Barkley, this book presents essential principles and practices for managing attention-deficit/hyperactivity disorder (ADHD) in children and teens. Barkley interweaves the best scientific knowledge with lessons learned from decades of clinical practice and research. He provides guidelines and clinical tips for conducting thorough, accurate assessments and developing and implementing science-based treatment plans.

The book is grounded in Barkley's theory of ADHD as a disorder of executive functioning and self-regulation. Ways to collaborate successfully with parents and other professionals are highlighted throughout. In a convenient large-size format, the volume includes 46 reproducible handouts and forms that can be downloaded and printed for repeated use.

Author Bio:

Russell A. Barkley, PhD, ABPP, ABCN, is Clinical Professor of Psychiatry at the Virginia Commonwealth University School of Medicine. Dr. Barkley has worked with children, adolescents, and families since the 1970s and is the author of numerous bestselling books for both professionals and the public, including *Taking Charge of ADHD* and *Your Defiant Child*. He has also published six assessment scales and more than 300 scientific articles and book chapters on attention-deficit/hyperactivity disorder, executive functioning, and childhood defiance, and is editor of the newsletter *The ADHD Report*. A frequent conference presenter and speaker who is widely cited in the national media, Dr. Barkley is past president of the Section on Clinical Child Psychology (the former Division 12) of the American Psychological Association (APA), and of the International Society for Research in Child and Adolescent Psychopathology.

SECOND EDITION

Becoming A THERAPIST

What Do I Say, and Why?

Suzanne Bender
Edward Messner

Becoming a Therapist

What Do I Say, and Why?

By Bender Suzanne

Revised and expanded for the digital age, this trusted guidebook and text helps novice psychotherapists of any orientation bridge the gap between coursework and real-world clinical practice. It offers a window into what works and what doesn't work in interactions with patients, the ins, and outs of the therapeutic relationship, and how to manage common clinical dilemmas. Featuring rich case examples, the book speaks directly to the questions, concerns, and insecurities of novice clinicians.

New to This Edition:

- * Reflects two decades of technological changes--covers how to develop email and texting policies, navigate social media, use electronic medical records, and optimize teletherapy.
- * New chapters on professional development and on managing the impact of therapist life events (pregnancy and parental leave, vacations, medical issues).
- * Instructive discussion of systemic racism, cultural humility, and implicit bias.
- * Significantly revised chapter on substance use disorders, with a focus on motivational interviewing techniques.
- * Reproducible/downloadable Therapist Tools.

Author Bio:

Suzanne Bender, MD, is a Staff Psychiatrist in the Division of Child and Adolescent Psychiatry at Massachusetts General Hospital (MGH); Co-Director of the MGH for Children (MGHfC) Pediatric GI Psychiatry Program within the MGHfC Pediatric Gastroenterology and Nutrition Department; and Assistant Professor in Psychiatry, part-time, at Harvard Medical School. Dr. Bender teaches a weekly year-long course on child and adolescent psychodynamic psychotherapy in the MGH/McLean Child and Adolescent Psychiatry Fellowship Program. Edward Messner, MD, until his death in 2006, was a Senior Psychiatrist at Massachusetts General Hospital (MGH) and Associate Clinical Professor of Psychiatry at Harvard Medical School. Dr. Messner trained as a psychiatrist at the Boston VA Hospital, at Boston's Thom Clinic, and at MGH. He also graduated from the Boston Psychoanalytic Institute as a certified psychoanalyst. Dr. Messner received the Teacher of the Year award from the MGH Department of Psychiatry eight times.

EMDR Therapy and Sexual Health

Baird Stephanie

This unique text provides EMDR clinicians with a complete toolkit, assisting sexual trauma survivors in moving from symptomology reduction/elimination to optimal sexual health and functioning. By integrating sexual health and EMDR Therapy together throughout this innovative book, the Adaptive Information Processing (AIP) Model is applied to sexual health, with sexual health-related material blended into all eight phases of the EMDR Protocol. Encompassing principles and best practices of current helpful positive sexual health frameworks, including fundamental sex therapy information and sex education models, this first of its kind EMDR Therapy resource disseminates essential information on anatomy, the history of sex research, Sexually Transmitted Infections (STIs) and pregnancy related issues, the Dual Control Model of arousal and desire, spontaneous and responsive desire, arousal non-concordance, models of consent for sexual activities, and out of control sexual behaviours.

Rupture and Repair in Psychotherapy

Eubanks Catherine F.

Ruptures in the therapeutic alliance are common clinical experiences. If left unresolved, they often lead patients to drop out and to other poor outcomes. As a therapist and patient work together, their alliance can come under strain, often because of disagreements in how to work together and toward what goals or due to a lack of trust and respect. These moments of stress, where the relationship has ruptured, are challenges but also opportunities for growth. Repairing these ruptures is an important change process that is relevant for all therapies. This volume collects the work of 12 teams of scholars and clinicians, each expert in a different therapeutic context or theoretical approach, to describe clinical challenges that resonate with readers' own experiences. The authors use case studies to describe realistic, complex clinical examples of rupture and provide strategies and principles therapists can readily integrate into their work to help them navigate these challenges more successfully with their patients.

Personality Disorders and Pathology

Huprich Steven K.

This volume presents the latest theory and research on the diagnosis and treatment of personality disorders. The chapters describe changes in the DSM-5 and ICD-11 assessment of personality disorders, review empirical support for these changes, and provide clinical guidance for diagnosing and treating the most common personality disorders. A primary focus throughout the book is the Alternative Model for Personality Disorders (AMPD), found in Section III (Emerging Measures and Models) of the DSM-5. The AMPD is a hybrid of the earlier categorical model of personality disorders and the emerging dimensional model fully embraced in the ICD-11. It offers a middle-of-the-road approach that is supported by a growing body of research. With its blend of research, clinical guidance, and case studies, this volume will be an essential resource for clinicians and researchers alike.

Handbook of Personality 4/e (PB)

Oliver P. John and Richard W. Robins

Now in a revised and expanded fourth edition, this definitive reference and text has more than 50% new material, reflecting a decade of theoretical and empirical advances. Prominent researchers describe major theories and review cutting-edge findings. The volume explores how personality emerges from and interacts with biological, developmental, cognitive, affective, and social processes, and the implications for well-being and health. Innovative research programs and methods are presented throughout. The concluding section showcases emerging issues and new directions in the field. New to This Edition: Expanded coverage of personality development, with chapters on the overall life course, middle childhood, adolescence, and early adulthood. Three new chapters on affective processes, plus chapters on neurobiology, achievement motivation, cognitive approaches, narcissism, and other new topics.

Emotional Development across the Lifespan

Camras Linda A

Unique in its dual focus on emotion and lifespan development, this text weaves together theory, research, and practical clinical implications for fostering children's emotional well-being. The author examines how emotions are experienced, expressed, understood, and regulated from infancy through later adulthood, surveying both typical and atypical development. For each stage, chapters highlight the interrelated influences of temperament, neurobiology, and the social environment, and distinguish universal processes from those that vary across cultures. The book presents current knowledge about specific emotions, probes the causes and consequences of emotional maladjustment, and reviews evidence-based and promising interventions. Innovative methods, examples, and meta-analyses are described; key terms are defined within chapters and in an end-of-book glossary.

Solving Modern Problems with a Stone-Age Brain

Kenrick Dr Douglas T

Sharing stories and advice rooted in the science of evolutionary psychology, father and son authors Doug Kenrick and David Lundberg-Kendrick pinpoint the dangers of stone-age problem solving for our lives today, and present a new, systematic way to survive and be happy in the modern world. Over millennia, we humans have evolved a set of motivational systems to help us solve the seven basic problems of existence: surviving, protecting ourselves from attackers, forming friendships, winning respect, attracting mates, hanging onto mates, and caring for our families. We seek the same goals in the 21st century. However, the saber-tooth tigers and rival tribes that once threatened us have been replaced by marketers peddling sugar-laden foods, pundits fanning the culture war flames, and payday loan companies scamming those who can least afford it. Through a series of engaging narratives and science-based life tips, this book helps us see past our electronics and lattes and gain helpful insights into achieving the life we want.

**Dr. Treisman's Big Feelings Stories**

6-Book Collection

By Treisman Dr Karen

Dr. Karen Treismans Big Feelings Stories take children on therapeutic adventures - from deep in the Okavango delta to the depths of the sea. The six stories have been written to help children's difficulties with anxiety, bereavement, trauma, nightmares and sleep-related problems, low self-esteem and self-regulation and relaxation.

This set includes:

- * *Binnie the Baboon and the Big Worries*
- * *Cleo the Crocodiles New Home*
- * *Gilly the Giraffe Learns to Love Herself*
- * *Ollie The Octopus and the Memory Treasures*
- * *Neon the Ninja Meets the Nightmares*
- * *Presley the Pug and The Tranquil Teepee*

This set is an ideal resource for any school library, or for services supporting children aged 5-10.

The stories in this series also feature in a separate set of Activity Books created by Dr. Treisman - Dr. Treismans Therapeutic Activity Book Library - which include the same stories, but with additional activities and worksheets, and guidance for adults.

Beyond Pronouns

Plunkett Tammy

If your child or teen recently told you they are transgender, non-binary or genderfluid, you're bound to have questions. You may wonder how best to support your child's transition and doubt whether you are making the right decisions. When her son came out as transgender, Tammy Plunkett had the same worries. In *Beyond Pronouns*, she shares her candid experiences learning to navigate her child's transition and provides clear and practical guidance to help you do the same. She deals with many frequently asked questions, including: * Is this a phase? * Why not wait until they're an adult? * How do I tell others my child is gender-diverse? * Where do we start a child's transition? Offering gentle guidance through the first 100 days and beyond, Tammy uniquely addresses the need for parents to be supported so they can best care for their child. You will find ways to face common fears, have important conversations with your child, be a good ally and much more, with age-appropriate approaches that aim for a happy and connected family.

The Anxious Person's Guide to Non-Monogamy

Phoenix Lola

Embarking on a non-monogamous relationship can be a daunting experience, opening old wounds that cause anxiety, fear and confusion, something Lola Phoenix knows about all too well. In this all-you-need-to-know guide to exploring non-monogamy, polyamory and open relationships, Lola draws upon their years of experience in giving advice and being non-monogamous to provide guidance for every stage of your journey, helping you to prioritise your mental health and wellbeing along the way. Beginning with advice on starting out - such as finding your anchor, figuring out your personal reasons for pursuing non-monogamy, challenging your fears and practicing self-compassion - the book proceeds to cover the emotional aspects of non-monogamous relationships, including dealing with jealousy and judgement, managing anxiety and maintaining independence, as well as practical elements such as scheduling your time, negotiating boundaries and managing your expectations, all accompanied with activities for further exploration.

The Awesome Autistic Guide for Trans Teens

By Yenn Purkis and Sam Rose

AUS AUTHORS

Calling all awesome autistic trans teens!

Yenn Purkis and Sam Rose want you to live your best authentic life - and this handy book will show you how!

With helpful explanations, tips, and activities, plus examples of famous trans and gender divergent people on the autism spectrum, this user-friendly guide will help you to navigate the world as an awesome autistic trans teen.

Covering a huge range of topics including coming out, masking, different gender identities, changing your name, common issues trans and gender divergent people face and ways to help overcome them, building a sense of pride and much, much more, it will empower you to value yourself and thrive exactly as you are.

Author Bio:

Yenn Purkis is autistic and non-binary and has published a range of books with JKP since 2006. They actively speak at autism conferences and have increasingly spoken and written on autism and LGBTQIA+ identities and received the ACT Volunteer of the Year award for work in autism advocacy. Yenn lives in Canberra, Australia.

Sam Rose is autistic and trans/non-binary. They are Network Leader at I CAN Network, a Mentor for Kids Under Cover, and a mental health speaker at batyr. Since June 2020, Sam has been running a weekly online program for young LGBTQIA+ autistic people (aged 13-17) to connect and chat about their experiences in a safe and informal environment.

The Asperkid's (Secret) Book of Social Rules, 10th Anniversary Edition

By Cook Jennifer

Being a teen or tween is tough for anyone. And if you're on the Autism Spectrum, life can feel like a game you're playing without knowing the rules.

Jennifer Cook knows - she's been there! Her internationally bestselling handbook is the key to unlocking those unwritten, often confusing, not-so-obvious social guidelines and bolstering confidence, all at once.

Finally, teens can play the game of life with instructions. *The 10th Anniversary Edition of The (Secret) Book of Social Rules* reveals the essential secrets behind the baffling social codes surrounding making and keeping friends, dating, and catastrophic conversation pitfalls, with all-new content on social media and talking about neurodiversity.

It's no wonder Jennifer's is the navigation tool tens of thousands of fans have come to love! Full of brand-new funny illustrations, take-it-from-me explanations, and comic strip examples, this Book of the Year award winner is real, positive, and speaks from the heart (without ever sounding like your mother's guide to manners). It's confidence, humour, and smarts.

Traveling Different

By Barclay Dawn M.

The travel bible for parents of children with autism spectrum disorder and/or mood and distraction disorders, offering helpful tips to soothe any child's travel anxieties. Traveling with children is always challenging, but for parents of children with autism spectrum disorder and/or mood and attention and distraction disorders it can be especially intimidating. *Traveling Different: Vacation Strategies for Parents of the Anxious, the Inflexible, and the Neurodiverse* answers these and many other questions parents may have when traveling with their children.

Dawn M. Barclay presents travel strategies and anecdotes from Certified Autism Travel Professionals™, parents of special needs children, associations and advocates, and mental health professionals, broken down by mode of transportation and type of venue.

The heart of the book outlines suggested itineraries for spectrum families as well as venues--such as museums--that cater to the unique special interests that are characteristic of individuals with autism. Less common accommodations such as dude ranches and houseboats are also included, as are vacations involving sports that might not immediately be associated with ASD, such as diving, skiing, and golf.

Hip and Knee Pain Disorders

Benoy Mathew

Hip and Knee Pain Disorders has been written to provide a state-of-the-art, evidence-informed, and clinically informed overview of the examination and conservative management of hip/knee pain conditions. Under the current predominantly evidence-based practice paradigm, clinician expertise, patient preference, and best available research determine examination, and prognostic and clinical management decisions. However, this paradigm has been understood by many to place greater value and emphasis on the research component, thereby devaluing the other two. Evidence-informed practice is a term that has been suggested to honour the original intent of evidence-based practice, while also acknowledging the value of clinician experience and expertise. In essence, evidence-informed practice combines clinical reasoning, based on current best evidence, with authority-based knowledge and a pathophysiological rationale derived from extrapolation of basic science knowledge.

Yoga on Prescription

Fox Paul

Exploring the benefits of yoga on social prescription, this book details the 10-week Yoga4Health social prescribing programme developed by the Yoga In Healthcare Alliance. This evidence-based prevention programme targets NHS patients at risk of becoming chronically ill and supports them to bring about lifestyle change through a daily yoga practice. The programme is for patients who are socially isolated, at risk of cardio-vascular disease or Type 2 diabetes, and those with stress or mild-moderate anxiety/depression. The authors present the theory and background to the Yoga4Health Yoga on Prescription programme, providing the reader with a detailed posture-by-posture guide to teaching the protocol on a yoga mat, on the floor or in a chair. Inspiring lifestyle changes that will positively affect long- and short-term health, Yoga on Prescription is the perfect companion to anyone wanting to teach the yoga for health and wellbeing.

The Online Yoga Teacher's Guide

Beckett Jade

Teaching yoga online can help you to grow your business, help more students, while also allowing you to work more flexibly to suit your lifestyle. However, whether you want to move fully online, or even blend in-person teaching with an added digital offering, it can be daunting trying to incorporate a style of teaching that you've otherwise never had to engage with. This book is for you if... * You've been sticking your head in the sand, reluctant to start online teaching. * You've been struggling to adapt to online teaching and would like to streamline your business with the right tools and software. * You've stopped teaching and need to get started again. * You lack confidence and feel overwhelmed trying to figure teaching online out. * You would like to access a larger student base. This down to earth guide will offer you advice and reassurance on all the above in succinct, straightforward, and mindful chapters. It speaks candidly on goal setting, planning, and fruitful mindsets.

Yin Yoga Therapy and Mental Health

Meyers Tracey

This highly illustrated guide teaches yoga therapists and mental health professionals how to integrate Yin Yoga into practice and treatment plans as part of a holistic approach to healing and treating a variety of mental health challenges and brain injuries. Yin yoga is an accessible form of yoga consisting of mainly floor based low force stretching, perfect for all patients regardless of physical limitations. The use of Yin yoga when combined with breath work and meditation can decrease anxiety, improve overall mood, and create a sense of well-being. With explanations on the principles of practice, such as asanas, meditation, breathwork and how to integrate different psychological methods to decrease emotional suffering and increase self-care along with examples of how to apply these principles for a range of mental health conditions; this guide is essential reading for all practitioners interested in an integrated approach to healing.

The Microbiome, Gut Health, and Oriental Medicine

Lee Lisa

The human microbiome and its resident micro-organisms have in recent years come to represent a new frontier in health research and science. Yet this body of knowledge has hitherto been little addressed within Oriental Medicine theory and has consequently been underutilised in practice. The book proposes a novel and ground-breaking approach to understanding and influencing gut health and the microbiome by integrating the latest evidence from Western medical research and the long-established theory and practice of Oriental medicine. Building on an understanding of the body as a complete ecosystem where symbiotic relationships maintain balance in both mind and body, this integrative model sheds new light on an area that has seen rapidly growing interest both in and out of scientific communities, providing a more holistic and comprehensive perspective that both unites and broadens the potential applications of microbiome knowledge across medical and therapeutic traditions.

Shantideva's 'a Guide to the Bodhisattava's Way of Life'

Rinpoche Ringu Tulku

The Bodhicaryavatara, often translated as A Guide to the Bodhisattva's Way of Life, is an 8th-century masterpiece from Indian scholar and yogi Shantideva. It is regarded as one of the most important Tibetan Buddhist texts and is studied extensively by Tibetan Buddhist practitioners everywhere. This commentary on the Bodhicaryavatara is by His Excellency Ringu Tulku Rinpoche, the Tibetan Buddhist Master. Working systematically through the ten chapters of Shantideva's renowned work, Rinpoche delivers his understanding of the text in a way that makes it fully accessible to anyone who is looking for support and help in these times.

So What Now?

Time for learning in your school to face the future

By Groves Malcolm

"It is not the role of schools to solve the climate crisis or any of the other multiple crises now facing humankind. But it is powerfully their role, if they so choose, to equip young people as well as possible to deal with the consequences of the serious problems they will be inheriting from their elders, not betters." Could it be our collective failure to respond effectively to the threat of the climate emergency or the challenges of the pandemic has been shaped to a small but significant degree by the nature of the learning that happens in our schools and a failure to enable young people to learn appropriately there? That question lies at the heart of this thought-provoking new book as it unpicks the concept of deep learning for future sustainability. This combines deep understanding with action, and links both to moral purpose. It is not enough just to be concerned about climate change - awareness must lead to action. The book draws on an eclectic range of sources, case studies of actual practice, critical perspectives, and opportunities for reflection. The authors argue that first and foremost it is for educators and leaders to get on as best they can in their own school context to do what is both necessary and right to secure learning fit for a just and sustainable future irrespective of governmental lead in these matters. In doing so the authors set out some clear evidence-informed principles for school development and leadership that are central to the success of that mission.

Author Bio:

Malcolm Groves has worked at the forefront of education innovation, as a teacher, youth worker, adult educator, school leader, inspector, and national adviser. Formerly an NPQH assessor, SIP, and secondary school chair of governors, he is currently a director of the Society of Education Consultants, and a founder director of the pioneering schools research and development network, Schools of Tomorrow. John West-Burnham is a writer, teacher, and independent consultant in education leadership with a particular interest in innovative approaches to learning in schools and communities. He has been a schoolteacher, education officer and has held posts in six universities. John is the author or editor of 30 books. He has worked in 27 countries.

Expanding Reading Comprehension in Grades 3-6

By *Stahl Katherine A.*
Dougherty
GUILFORD PUBLICATIONS

Students in grades 3-6 need to use increasingly sophisticated comprehension skills and strategies as they read and build knowledge across disciplinary content areas. Grounded in research, this book presents effective practices for integrating literacy instruction with literature, science, and social studies. Chapters address text selection.
