## Zelensky - The Frontline President

*By Andrew L. Urban and Chris McLeod*

**Key Sales Points:**

- \* Insider accounts of President Zelensky’s hands-on leadership of the war against Russia.
- \* A detailed look into Putin’s survival and his popularity at home in Kremlin, the Ukrainian diaspora, the use of drones for the war and the large and obsolete Russian military against the smaller but more modern and effective Ukraine military.
- \* A profile on Olena Zelenska, President Zelensky’s wife.

In the first week of September 2022, President Volodymyr Zelensky sat down for a meal with soldiers in their field canteen, just 700 metres from enemy lines in the Donetsk region. He was given a briefing on the battle situation.

Unlike Vladimir Putin grandstanding in the sanctuary of the Kremlin some 1,000 kilometres from that field canteen, Zelensky is leading his military, both psychologically, emotionally, and physically.

This sequel to the first book on the Ukrainian President in the early days of 2022, soon after the invasion by the Russian Federation had begun, paints a complex and gripping picture of how Zelensky continued to conduct himself and led the Ukrainian nation’s fight to retain the country, the land, and the people.

**Author Bio:**

Andrew L. Urban, an author, journalist, and documentary filmmaker, fled Hungary as a child during the 1956 revolution, eventually settling in Australia. He has written for many publications and has authored investigative books on wrongful convictions. His first book, *Murder by the Prosecution* explored several wrongful convictions and was described by Margaret Cunneen SC as ‘troubling expose’. He has published the online *Wrongful Convictions Report* since 2018. Since 1985, before turning his journalistic attention to miscarriages of justice, Andrew was a prolific film journalist and covered the Cannes Film Festival for 20 years for both screen trade publications and mainstream media.

Chris McLeod is an Australian author and former newspaper journalist and executive. He was Foreign Editor and News Editor at the Newcastle Morning Herald and News Editor at the Melbourne Herald. He is an author and researcher for *floggerblogger.com* with an interest in sport, transport, and mystery.

## Tasmanian Devils: The Wrongful Conviction of Sue Neill-Fraser

Murder By The Prosecution Vol. 2

*By Urban Andrew L.*

### Key Sales Points:

\* Includes 60 minutes witness transcript of the headline-making Vass “interview”, excerpts of Sue Neill-Fraser’s prison diary and many more.

\* A detailed look into the failure of police to disclose proper evidence, the missed clues in the statutory declaration that led to the conviction and the irony of the Integrity Commission’s lack of integrity and logic.

Never faltering in her claim of innocence, Sue Neill-Fraser was released on parole in October 2022, after 13 dark years in a Hobart prison for murdering her partner, Bob Chappell. But her rightful fight to quash her wrongful conviction continues.

This book reveals the entire shocking case of Sue Neill-Fraser, whose crime was invented, and her conviction protected by the Tasmanian devils of the entire legal establishment, including the police, the Office of the Director of Public Prosecutions, the political leadership, the Legal Profession Board, and the Integrity Commission. Based on speculation without evidence, her conviction has drawn condemnation from over 36,000 petitioners, lawyers, barristers and much of the media.

In Vol.1 (9781925642537), investigative journalist and author Andrew L. Urban traced the first stage of this shocking miscarriage of justice; in Vol.2 he reveals the full extent of a catastrophic failure of Tasmania’s legal system. Now, after two dismal appeals that followed the trial, there are still plenty of grounds to appeal again – and to have the conviction quashed. There is hope, but it needs the swell of public pressure to disarm the power of Tasmania’s legal ‘club’.

### Author Bio:

Andrew L. Urban, an author, journalist, and documentary filmmaker, fled Hungary as a child during the 1956 revolution, eventually settling in Australia. His first book, *Murder by the Prosecution* (9781925642537) explored several wrongful convictions and was described by Margaret Cunneen SC as ‘troubling expose’. He has published the online Wrongful Convictions Report since 2018. He was Channel Host on World Movies for five years. He co-published with his wife Louise, the online movie magazine Urban Cinefile for 20 years. His most recent works include *Gladys* and *Climate Alarm Reality*.

**The Beatles 1963**

A Year in the Life

*By Rees Dafydd*

At the start of 1963, The Beatles were a successful local Liverpool band with one hit single; twelve months, two albums and the arrival of Beatlemania later, they were on the cusp of world domination.

Featuring daily entries covering every pivotal event, The Beatles - 1963 draws on hundreds of new eyewitness accounts and provides numerous unseen photographs. Meticulously researched, this is the definitive account of the momentous year that sent John, Paul, George and Ringo to stratospheric heights.

### The Value Flywheel Effect

Power the Future and Accelerate Your Organization to the Modern Cloud

By Anderson David

It's no secret that technology is moving faster than ever, but current business/IT strategies are not working. To survive the next wave of transformation, the relationship between businesses and technology must evolve.

In *The Flywheel Effect*, David Anderson enables leaders to create an adaptive organization built upon embracing strategic thinking, team focus, and reduced time to value to drive business results. *The Flywheel Effect* is a technique already being used by next-generation leaders and companies to succeed in the modern competitive landscape. Combining the power derived from the Value Flywheel and the situational clarity provided by Wardley Mapping, organizations can sense and respond to change, easily navigating the rough waves ahead, including migrating to the cloud and serverless. Every company that uses technology must act differently from the companies of yesterday.

In *The Flywheel Effect*, David Anderson shows organizations how to understand and utilize the socio-technical intersection between business, technology, and people, giving your organization the edge, it needs to navigate future challenges and build maximum situational awareness.

### The Fabulous Fibonacci Numbers

*By Posamentier Alfred S.*

The most ubiquitous, and perhaps the most intriguing, number pattern in mathematics is the Fibonacci sequence. In this simple pattern beginning with two ones, each succeeding number is the sum of the two numbers immediately preceding it (1, 1, 2, 3, 5, 8, 13, 21, ad infinitum). Far from being just a curiosity, this sequence recurs in structures found throughout nature - from the arrangement of whorls on a pinecone to the branches of certain plant stems. All of which is astounding evidence for the deep mathematical basis of the natural world.

With admirable clarity, two veteran math educators take us on a fascinating tour of the many ramifications of the Fibonacci numbers. They begin with a brief history of a distinguished Italian discoverer, who, among other accomplishments, was responsible for popularizing the use of Arabic numerals in the West. And of course, in mathematics, as the authors amply demonstrate, there are almost boundless applications in probability, number theory, geometry, algebra, and Pascal's triangle, to name a few.

Accessible and appealing to even the most math-phobic individual, this fun and enlightening book allows the reader to appreciate the elegance of mathematics and its amazing applications in both natural and cultural settings.

### Quantum Fuzz

The Strange True Makeup of Everything Around Us

*By Walker Michael S.*

Quantum physics has turned our commonsense notion of reality on its head. This accessible book describes in layperson's terms the strange phenomena that exist at the quantum level--a world of tiny dimensions where nothing is predictable, where we rethink causality, and information seemingly travels faster than light. The author, a veteran physicist, uses illuminating analogies and jargon-free language to illustrate the basic principles of the subatomic world and show how they explain everything from the chemistry around us to the formation of galaxies. He also explains how scientists and engineers interact with this nebulous reality and, despite its mysteries, achieve results of great precision. Up front is a brief history of the early 20th-century "quantum revolution," focusing on some of the brilliant individuals whose contributions changed our view of the world--Albert Einstein, Niels Bohr, Paul Dirac, Werner Heisenberg, Erwin Schroedinger, and others. The work concludes with a discussion of the many amazing inventions that have resulted from quantum theory, including lasers, semiconductors, and the myriad of electronic devices that use them. Lucidly written, this book conveys the excitement of discovery while expanding the reader's appreciation for a science that explores the basis of everything we know.

### Great Walks on the England Coast Path

30 classic walks on the longest National Trail

**By McCloy Andrew**

Guidebook to 30 routes celebrating the best day and weekend walks on the England Coast Path. Includes a varied selection of linear and circular walks along the country's diverse shoreline, on cliff paths, estuaries, beaches, and saltmarsh. Routes from 9 to 45km to suit all ages and abilities, many of which can be enjoyed all year round.

At around 4500km (2800 miles), the England Coast Path is the longest coastal trail in the world. This inspirational large-format guide presents a handpicked selection of 30 highlight sections, offering a taste of England's stunning and diverse shoreline. Routes range from 9 to 45km, spanning between 3 hours and 2 days, offering options to suit all abilities. They can be accessed by public transport and are walkable year-round (weather permitting!).

Incorporating beautiful photography of England's coastline, the guide will encourage you to explore both well-loved and less well-known parts of the English shoreline, from soaring cliffs to wildlife-rich estuaries, from huge golden beaches to atmospheric marshes. Capturing the rich heritage and glorious contrasts of England's coast, the routes offer something for everyone, whether your passion is for escape or adventure, geology or nature, castles, or culture.

### Hiking in Hong Kong

Wilson, MacleHose, Hong Kong, and Lantau Trails and 21-day walks

**By Whitmarsh Simon**

The multi-day Wilson, MacleHose, Hong Kong and Lantau Trails and 25-day walks (from easy to challenging) on the fascinatingly diverse Hong Kong archipelago, including Hong Kong Island, Kowloon, the New Territories, and the islands. With notes on plants, wildlife, and geology (including the UNESCO-listed geopark) and public transport information. Although Hong Kong is often thought of as intrinsically urban, just a short distance from the big cities are lush mountains and attractive and varied countryside. This guide presents the highlights of this hiking-friendly territory, detailing 21 graded day walks and four short treks: Hong Kong Trail (presented in 3-day stages), Lantau Trail (5 days), MacLeHose Trail (5 days) and Wilson Trail (5 days). The day walks - of 5 to 22.5km - cover Hong Kong, Kowloon, the New Territories, and the islands and range from easy hikes suitable for families to challenging ascents of Hong Kong's highest peaks. The territory's compact nature and excellent public transport infrastructure make it easy to access the routes.

The guide has all you need to explore Hong Kong's excellent network of trails. Route description is accompanied by clear mapping and there are comprehensive notes - including Chinese place names - to help visitors navigate the public transport system.

## On Mending

Stories of damage and repair

*By Pym Celia*

The artist Celia Pym lives in London and has been exploring damage and repair in textiles since 2007. Working with garments that belong to individuals as well as items in museum archives, she has broad experience with stories of damage, from moth holes to accidents with fire. Textile language crops up in the body: mending language works on the body as well as on garments. We describe the body as mending after illness or injury - 'I'm on the mend,' someone might say if they're feeling better. You might hear a doctor or nurse describe a broken bone as 'mending well', or broken bones are often described as knitting back together as the break heals. Pym is interested in exploring the varied evidence of damage, and how repair draws attention to the places where garments and cloth wear down and grow thin. These personal tales document the intimate damage caused to clothing by everyday use and the parallels with the consequent wear and tear on the body. Mending work builds on what is left behind. It's not replacing, or remaking, or cutting apart and putting back together, instead it is slow work that makes things better. It conjures an unhurried recovery or change. In textiles, the act of mending wear-and-tear, thinning cloth or accidental damage builds on what already exists, anchoring threads and yarn into the robust healthy fabric and filling in the holes or reinforcing the areas that are weak.

## The Autism-Friendly Cookbook

*By Wilkins Lydia*

*The Autism-Friendly Cookbook* was created by autistic journalist Lydia Wilkins for autistic adults and teens to turn to when cooking for friends, lacking inspiration, or on those low-energy days.

With recipes to suit any occasion, the book is written in clear, jargon-free language which makes 'the obvious' obvious.

Recipes are categorised by meal with additional guidance on the level of energy needed to tackle them, with options for low-energy or meltdown days, or days when you're able to take on a new challenge.

They contain adaptations and options to suit different dietary needs including vegetarian, vegan, gluten-free and dairy-free, and additional modifications for those who are sensory seekers, sensory avoiders or who want to expand their repertoire in the kitchen.

With contributions from individuals within the autistic community and options for quick meals, special occasions and more.

With autistic people at its heart, the book also contains helpful tips and advice for parents and teachers looking to find out more.

# OMEGA BALANCE

Nutritional Power  
for a Happier, Healthier Life

ANTHONY JOHN HULBERT

## Omega Balance

Nutritional Power for a Happier, Healthier Life

By *Hulbert Anthony John*

AUS AUTHOR

Learn how to live a happier and healthier life by finding the right balance of omega fatty acids in your diet. Omega-3 and omega-6 fatty acids are essential in the human diet. In *Omega Balance*, noted scientist Anthony J. Hulbert explains how the balance between these fatty acids in the human food chain has changed over the last half-century and the very serious negative health impacts this imbalance has created. An imbalance of these omega fats contributes to increased rates of obesity, diabetes, cardiovascular diseases, allergies, asthma, as well as cancer and a variety of other inflammatory diseases. Omega balance is also important for normal brain function, and an imbalance in these fatty acids is associated with depression, mood disorders, and neurodegenerative diseases.

Hulbert provides extensive information on the omega balance of different foods and discusses fascinating details about human evolution, dietary changes throughout history, the effect of diet on human development and physiological processes, and more. He investigates the paleo diet of our ancestors and describes the dramatic changes that have accompanied the increased ultra-processing of modern foods. *Omega Balance* is an essential guide to understanding a significant problem in our modern food chain and will make us rethink the food we eat.

## Logged In and Stressed Out

How Social Media is Affecting Your Mental Health and What You Can Do About It

**By Durlofsky Paula**

Social media is here to stay and *Logged In and Stressed Out* presents the right information and tools to improve our lives through examining and changing our digital habits. America is facing a mental health crisis. Studies show that the average American is spending more than 10 hours a day in front of their screens, suicide rates are at all-time high, and mental health professionals are working hard to address social media's role in this epidemic. Social media can sometimes feel like an unpredictable roller coaster ride. One's mood can swing from elated after getting a slew of "likes" on a post to worthlessness and deflation in response to being criticized in a comment thread. Too often, bad feelings from social media interactions linger, negatively affecting our off-line lives and worsening already present mental health issues. Instead of demonizing social media by taking a one-note, "digital detox" approach, *Logged In and Stressed Out* recognizes social media is not, itself, the problem—it's how we use it that needs examining. Paula Durlofsky guides readers through its impact on break-ups and infidelities, social distortion and comparison, trauma and triggers, social media bingeing, depression, anxiety, and other common concerns, using real stories from her own practice to personalize concepts and recommendations.

## Navigating Grief and Loss

25 Buddhist Practices to Keep Your Heart Open to Yourself and Others

**By Brown Kimberly**

*Navigating Grief and Loss* is designed to support all of us through difficult and upsetting times.

It's a relatable and useful guide with practical applications to help navigate the profound experience of loss, be it an elderly parent, succumbing to a lingering illness, the shock of an accidental death, a small business shuttered, a divorce after years of conflict, or euthanasia of a beloved pet.

Each short chapter honestly describes a personal experience dealing with death or grief—staying at a hospice facility at my mother's bedside, feeling frustrated by the options for a terminally ill friend, navigating changed relationships after someone dies, the shock and shame of an unwanted divorce, managing the overwhelming pain of bereavement—and is followed by a brief practice—a meditation, exercise, or contemplation that readers can use to discover insights and truths and find some solace for their own struggles and sorrow.

### My Life After Trauma Handbook

Surviving and Thriving using Psychological Approaches

*By Bridie Gallagher, Sue Knowles, Reggie Worthington, and Jade Baron*

**Key Sales Points:**

\* A relatable handbook for teens looking for ways to cope with trauma and adverse experiences and to understand the impact they can have on their mental health.

Adversity is a part of life and many of us have experienced trauma that has left us feeling distressed, scared or alone.

This book draws on Bridie and Sue's background in clinical psychology to help you identify what trauma is and the effect it can have on your physical and mental health, and how you can cope.

Containing many ideas and strategies to support you with the impact of trauma, including giving yourself a butterfly hug to calm yourself down or sending an email to someone who lives far away to feel more connected, this is a guide that you can dip in and out of, and return to at different stages in your life after trauma.

Co-written with two young people who were brave enough to share their own stories, you will find that you are not alone, that nothing stays the same, and that there's always hope.

**Author Bio:**

Bridie and Sue are Clinical Psychologists from CMCAFS ([www.CMCAFS.com](http://www.CMCAFS.com)) who work with children, young people and those who care for them. Reggie and Jade are young people with lived experience.

### The Planted Runner

Plant-Based Nutrition for Running at Your Best

**By Bartholic Claire**

With *The Planted Runner*, runners will learn to optimize fuel training with plant-based nutrition, harness the power of their minds, and perform at their best while discovering the joy of running at any age. Plant-based nutrition is no longer a fad, but rather has been shown to optimize athletic performance and reduce recovery time. Fueling with the power of plants is not only a suitable eating plan for training, but it is also delicious and satisfying. Author Claire Bartholic breaks down the information to provide complete understanding of how to eat not only to fuel running, but also to enjoy eating.

Readers will also find a chapter devoted to basic ingredients and building blocks of a plant-based diet, rounded out with runner-specific fuelling recipes. Successful training requires more than just good plans and nutrition, however. With the proven mindset training techniques provided in this book, the runner will quiet that negative self-talk which can sabotage the best efforts to find his or her potential.

Through her coaching, Claire Bartholic has found the best way to successfully integrate those three critical elements-physical training, plant-based fuelling, and mindset techniques-to help hundreds of runners reach their personal bests, and she provides her wealth of knowledge in this book.

## The Hidden Hindenburg

The Untold Story of the Tragedy, the Nazi Secrets, and the Quest to Rule the Skies

*By McCarthy Michael*

By the author of *Ashes Under Water*, here is one of the great untold stories of World War II. *The Hidden Hindenburg* at last reveals the cause of aviation's most famous disaster and the duplicity that kept the truth from coming to light for three generations. It also finally catches up with a German legend who misled the world about the Hindenburg to bury his own Nazi connections.

Drawing on previously unpublished documents from the National Archives in Washington, along with archival collections in Germany, this definitive account explores how the Hindenburg was connected to the Dachau concentration camp, a futuristic German rocket that terrified the Allies, and a classified project that imported Nazi scientists to America after the war.

It took author Michael McCarthy four years to get to the bottom of this epic disaster, in which the largest object civilization has ever managed to fly burnt up in less than one minute. Along the way, he found a tale of international intrigue, revealing a whistle-blower, a cover-up and corruption on two continents.

### **Author Bio:**

Michael McCarthy worked for twenty-two years for the Wall Street Journal, as a reporter and editor in New York and Chicago. He wrote about aviation and other industries. In 2014, he published *Ashes Under Water: The SS Eastland and the Shipwreck That Shook America*. That nonfiction work brought to life a tragedy in which more than eight hundred people, mostly poor women, and children, perished in a steamship capsized. The book hit the New York Times e-book bestseller list in the summer of 2015. His *Eastland* book also sparked a documentary film, for which he was interviewed, from Chicago-based Moshman Productions. He lives in South Haven, MI.

## Ultimate Allied Fighters Of Second World War

Miranda J.

During the five years of the Second World War, the power of engines and speed of aircraft increased as much as it did during twenty years of peacetime. Conventional aircraft and engines reached the limits marked in the original design and surpassed them, very fast. The basis for this huge achievement was exotic fuels, short-lived artificially overpowered engines, propellers with four, five, and even six blades, and thinner wings with special sections of laminar flow. Then the faster Allied fighters began to be attacked by a demon that lived in the air: scientists called it compressibility buffeting and different type of aircraft suffered it at different speeds and manifested itself in different ways. They were forced to adopt brute force solutions by increasing engine power on the turbojet powered fighters, leaving in the background the research on the last projects of fighters, driven by monster piston engines. The purpose of this book is to present them to the public, for its notable interest.

## The Complete Knight's Cross

Brazier Kevin

*The Knight's Cross of the Iron Cross*, to give it its full name, owes its origins to the Pour le Merite (Blue Max), an imperial award dating back to 1740. *The Complete Knight's Cross* is the only book to tell the story of all 7,364 men who were awarded it (including all the disputed awards). The book has over 200 photos of holders of the medal and over 100 photos of their graves. Volume One deals with 1939-41 (numbers 1-1267) and is subtitled *The Years of Victory*. Volume Two deals with 1942-43 (numbers 1268-3685) and is subtitled *The Years of Stalemate*. Volume Three deals with 1944-45 (numbers 3686-7364) and is subtitled *The Years of Defeat*. The recipients are listed in the order of the date of award. Each entry starts with the recipients rank and name, followed by details of the action or actions for which they were awarded it. Other interesting facts and stories are also included for many of them. Finally, their burial locations, where known are given.

### The William E. Boeing Story

**By Williams David**  
FONTHILL

*The William E. Boeing Story - A Gift of Flight* is the first-ever full-length biography of William E. Boeing, the father of commercial aviation. Boeing's story is an exciting one complete with bootleggers, kidnappers and a disastrous run-in with President Franklin Roosevelt and future Supreme Court Justice Hugo Black.

## Covid Vaccines from a Spiritual Perspective

Consequences for the Soul and Spirit and for Life after Death

*By Thomas Mayer and Carlotta Dyson*

Vaccination is a topic that has long divided opinion. Today, in view of Covid-19, that debate has become ever more polarized. Illustrated throughout with full-colour images, *Covid Vaccines from a Spiritual Perspective* deals with scientific facts, but also with research that requires spiritual-scientific methods. Led by main author and activist Thomas Mayer, the volume features reports, experiences, and commentary from more than fifty contributors with clairvoyant and psychic abilities. From their observations, it is argued that Covid vaccines are not harmless jabs, but potentially violent interventions in the subtle structures of the human body, soul and spirit. The vaccines even have implications for an individual's life beyond death. Instead of the soul evolving in the afterlife, it could remain bound to the earth, suffering deeply. ---

Although this book's conclusion may appear alarming, it is not the authors' intention to create fear. He seeks only to provide useful information and enlightenment, demonstrating how vaccinated and unvaccinated people can deal with this subject consciously, courageously and with hope for the future.

### **Author Bio:**

Thomas Mayer, author, meditation teacher and civil rights activist, was born in southern Germany. He is co-founder of More Democracy, an association in Germany to further direct democracy or participatory politics, particularly through referenda. He has lectured widely on regional currencies and initiated pilot projects to introduce them. He organized a referendum in Switzerland in 2018 called sovereign money regarding the question of who should have the right to create money: private banks or public institutions? Since 2004 he has been teaching anthroposophical meditation, together with Agnes Hardorp.

### The Fall of the Spirits of Darkness

By Rudolf Steiner and F. Amrine  
RUDOLF STEINER PRESS

Speaking towards the end of the catastrophic Great War, Rudolf Steiner reveals the spiritual roots of the crises of our times. Since 1879, he says, human minds have been influenced by backward angels, spirits of darkness, who - following their defeat in battle with Archangel Michael - were forced out of the heavens and fell to the earth.

### Universe, Earth, Human Being

By Steiner Rudolf  
RUDOLF STEINER PRESS

In symphonic style, he describes the conquest of the physical plane in post-Atlantean civilizations, the relationships between the various cultural epochs, the human beings' connections with the kingdoms of nature and the different planetary bodies, and the relationship of animal forms to the physiognomy of human passions.

### The Occult Truths of Myths and Legends

By Steiner Rudolf  
RUDOLF STEINER PRESS

In this series of previously untranslated lectures, Rudolf Steiner describes how myths and legends portray humanity's most ancient evolutionary and spiritual history. Steiner suggests that his shaping of Germanic legends was driven by an instinctive, creative, and artistic certainty that accords with deep occult truths.

### The Anthroposophic Movement

By Steiner Rudolf  
RUDOLF STEINER PRESS

This course of lectures was given at a pivotal point in the development of the anthroposophic movement. Just months before, an act of arson had caused the destruction of the first Goetheanum, and its darkened ruins appeared to reflect the fragmentations within the Anthroposophical Society.

## Christ and the Spiritual World

*Rudolf Steiner and F. Amrine*

Reassessing human history in relation to the cosmic-earthly events of Christ's incarnation, Rudolf Steiner stresses the significance of both Gnostic spirituality and the legends of the Holy Grail. The Christ-Impulse, he tells us, is not a one-time event but a continuous process, beginning well before Jesus of Nazareth walked the earth. This mighty impulse is a force that gives impetus to human development, such as with the extraordinary blossoming of free thinking of the last two millennia. Surveying this pattern of evolving human thought, Steiner explains the roles of contrasting historical figures, for example the great teacher Zarathustra, Joan of Arc and Johannes Kepler. We are shown the widespread influence of the clairvoyant prophetesses, the sibyls, who formed a backdrop to the Greco-Roman world. Steiner contrasts their revelations to those of the Hebrew prophets.

## Letters on John's Gospel

*Rittelmeyer Friedrich*

Without doubt his most powerful work, Rittelmeyer's *Letters on John's Gospel* first appeared in a series of publications by the Stuttgart seminary of The Christian Community between 1930 and 1932. Whilst these Letters were originally written with students and local congregations in mind, they provide manifold insights for anyone seeking to glimpse the majesty of John's Gospel. Margaret Mitchell's translation from 1937 has never been published in book form. Revised here and expanded by editors Alan Stott and Neil Franklin, this volume features additional contributions by Rudolf Frieling and Emil Bock.

## Wonders of Development in Plants, People and Projects

*Mansvelt Jan Diek Van*

The hectic pace of our lives is increasingly determined by the unconscious forces driving our thinking and by the relentless speed of the machines and automated intelligence that this thinking has produced. We are so caught up by the pressure this imposes upon us that we have largely lost any awareness of the regenerative, rhythmical activity that sustains us. For the sake of our health, sanity, and ultimately of our own productivity, we can, as this deeply refreshing, delightful little book suggests, slow down and turn our full attention to the creative life of nature as it manifests in the growth and development of plants, in human development, and even in the unfolding of our human endeavors. Drawing on his lifelong experience in regenerative agriculture, education, and planning, the author guides us in detailed observations that can awaken a deep sense of wonder at the creative lawfulness underlying all development.

Orphaned koala joey Elsa was raised by Koala expert Hayley when her mother was too sick to look after her. This positive and happy book features photo of beautiful Elsa and follows her growing up and then eventually having her own joey. This adorable story also aims to educate kids about Australian native animals and the people that care for them.

Elvis, Australia’s crankiest crocodile, was scaring people in Darwin so he was sent to the Australian Reptile Park and has become its most famous resident. With photos of Elvis, this book tells the story of his life at the park and some of his naughty antics. The book also educates about Australian native animals and the people that care for them.

**AUSSIE ARK CHARITY:**

Part of the proceeds from this book go towards supporting Aussie Ark, a charity that supports endangered Australian wildlife.

Aussie Ark was established in 2011 as ‘Devil Ark’, with a focus on saving the iconic Tasmanian devil from extinction. Since then and due to overwhelming success, the role of the organisation has expanded, and now has vision of creating a long-term future for our threatened Australian species. Aussie Ark secure wild sanctuaries to conserve our native wildlife, free from unnatural predation. Aussie Ark is an adaptive, innovative, private organisation, committed to changing the trajectory declining species - <https://www.aussieark.org.au/>

# BY JUDITH BARKER

Judith's wonderfully written books, illustrated by Janie Frith, are derived from her passion for developing children's learning of phonics and phonemics. These stories highlight the complexities of written English and aid in developing imagination, language and vocabulary in young readers.

From the Brolga dance of a group of Sydney Butchulla Elders (from I in the Island) to the Tarkine Rainforest in Tasmania (from the A in the Rainforest), Judith's books innovatively depict through beautiful illustrations Aboriginal stories which will delight and inform all readers.

### The Wee Seal

*Mackay Janis*

Jamie has been watching the wee white seal that lives on the beach. At night the wee seal cuddles up to its mother. In the morning she goes out to sea and leaves it alone like a strange white stone on the sand. One day tourists come and crowd the wee seal, but Jamie knows just what to do to protect it until its mother comes back...Janis Mackay's lyrical prose tells the story of the tender relationship between a wild baby seal and the young boy who watches over it, while Gabby Grant's soft illustrations brilliantly evoke the landscape of the Orkney Islands.

## Cheeky Worries

*Davey Patrick*

Finn LOVES adventures and having fun! But when he starts to have 'cheeky worries', a Wise Owl knows just what to do...Cheeky worries are those sneaky thoughts that pop up when you're least expecting it. You might be getting ready for bed, playing with friends at the park or having fun on the bus when suddenly a scary thought pops into your head. Through the character of Finn and a wise owl, this book equips children and adults with a common language to discuss their emotional worlds and worries. It gently introduces psychological principles and evidence-based techniques that help children ages 4-8 develop resilience and deal with anxiety.

## The Lie That Wasn't

*Naish Sarah*

Arthur is daydreaming in class when his teacher announces, "Remember it's Parents' Evening tonight - don't forget to give your parents the letter." Oh no! Arthur hasn't been doing his homework and doesn't want to get in trouble. Time to tell a lie! But then something strange happens - Arthur's lies start to come true...Mum is at space camp; dad has a snazzy new car and Mr Lott the teacher is stuck up a tree tangled up with sticky tape! Arthur starts to worry - now if he tells the wrong lie, someone could get hurt. This entertaining story for children aged 4-8 help children to explore how telling tricky truths is usually better than telling little lies.

## My Book about Brains, Change and Dementia

*Moore Lynda*

Sometimes, a person's brain gets sick with a disease called dementia. What does dementia do to the brain? What changes might we notice if a parent or grandparent has the disease? How might we feel about it and what can help? This book breaks down misconceptions about dementia and speaks directly to children aged under 5 about the realities of the disease, using age-appropriate language in an engaging and informative way. It reassures parents of the value of open and honest conversation about the challenges raised by dementia and offers advice and support in the opening Guide for grownups. It includes a diverse audience of characters, to emphasise that ANY child can be impacted by dementia in their loved ones. Unlike traditional storybooks, the ending provides a question for the adult and child reading it to ponder together.

# I Have a Question about Divorce

*Gaines Arlen Grad*

Divorce is a difficult topic for any parent or educator to explain to a child, perhaps even more so when the child has autism spectrum disorder or other special needs. This book is designed specifically to help children with these additional needs to understand what divorce means. Using a question-and-answer format, it explores the changes and feelings a child may experience during a divorce and provides ideas to help cope with this life change. Illustrated with SymbolStix, which uses a symbol-based language for visual thinkers, this book explains a difficult topic to children who might otherwise struggle to understand it and gives additional guidance for parents and carers.

# Simon the Hugger

*Davids Stacy B.*

Simon the sloth loves to hug. He hugs plants. He hugs rocks. He hugs his friends. He even hugs himself! So, when his best friend, Elsa the jaguar, and others around him start saying no to his hugs, he is crushed. Why wouldn't someone want to be hugged? After being rejected several times, he learns that both he and his friends need to want a hug at the same time so they both feel comfortable. This light-hearted story about a lovable, huggable sloth is a gentle introduction to the importance of receiving consent before offering physical affection to others, and respecting others' boundaries.

# Brave Like Mom

*Acker Monica*

As one girl watches her mom battle illness, she sees Mom being strong, brave, and fierce on both good days and bad ones. Mom is fierce as she catches and wrestles a fish and brave as she endures needles from the doctor. The girl wants to be brave like Mom! As she worries about her mom's health, the girl realizes that bravery comes in many forms and that she can be brave too. A poignant and sensitive story about a loved one living with a chronic illness, and an important lesson about how being brave doesn't mean you aren't scared.

## Palmer's Mystery Hikes

*Ashton Paul*

Coming home from a friend's house one Sunday afternoon, Thomas came across a street full of rubbish. Piles of it in front of peoples' homes. It was a council clean up. Thomas peered into the heaps of stuff ... and then something caught his eye on one of the untidy piles: a small, brown album full of old photos. It would take him back to the 1930s and a series of amazing mystery hikes. Halstead Press presents Paul Ashton's series of short texts designed to integrate with the Australian Curriculum for Humanities and Social Sciences and English, each focussed on the role that accident and serendipity play in the past and making history. Each short story provides an opportunity for students to engage with history while improving their core language, research, and critical thinking skills. They allow for students to understand how that history is not just something that can be found in textbooks, but rather that it is something which is constantly being made around them, and that they are creating their own histories every day. The stories are being written by Paul Ashton, a historian who has published ten history textbooks for Australian schools.

## Yellamundie

*McGrath Michelle*

This beautiful book – a collection of stories from, and photographs of, 30 Indigenous people around Sydney – will bring all Australians closer to the truth about the impact that colonisation has had on our First Nations People and how that impact continues today. Truth telling is an important part of our nation's healing. These stories are told in the words of the contributors, it is their truth. This book is for all Australians and while many of the stories contain sad elements, they are reflections of a beautiful culture that is still strong today.
