Author Bio:

Intrinsically linked to the music scene from the late 1970s Paul Cox started his career at LFI, an established picture agency, where he embarked on an adventurous career photographing live bands at venues in London. Artists such as Blondie, Sid Vicious, Ian Drury - to name a few - were photographed by Paul at iconic venues such as the Marquee, Hope and Anchor pub and the Electric Ballroom. He got bashed about by the fans whilst taking photos! During this period Paul did a lot of live shoots, but also worked for several music magazines and record companies. After three years Paul left the agency and set up a partnership with a fellow photographer from LFI. They set up a studio in an amazing run-down building in Belgravia. After a few years there they moved to the studio in Fulham, going their separate ways in the mid-eighties. Paul went on to become one of the most prolific photographers of the music scene in that era, photographing pretty much every band that entered the Top 40.

The Wieambilla Shootings

The True Story of a long-prepared ambush by religiously motivated conspiracy theorists

By John Kerr

Key Sales Points:

- * The Wieambilla Shootings provides a reckoning as to what happened on 12 December 2022 when four young police officers made a welfare check on a bush block and walked into a deadly ambush.
- * Constables Rachel McCrow and Matthew Arnold and neighbor Alan Dare were shot to their deaths at the hands of the residents of that bush block -brothers Nathaniel and Gareth Train and Gareth's wife Stacey.
- * How did this evil action happen? No-one knows. The Wieambilla Shootings is what we do know.
- * The book assembles all that is known about the lives of the three killers. Introduced to the idea of the Christian apocalypse in their early years, the Trains came to embrace the sovereign-citizen movement and pick from the doomsday preppers online to form an incoherent right-to-kill point of view.
- * The book will be available before the 12 December anniversary and will generate strong media interest. John will be able to build on media momentum following publication of his critically successful book *The Big Folbigg Mistake* (9781875703524) in 2022.

Two survivors, three lost lives. The true story of a long-prepared ambush by religiously motivated conspiracy theorists. Grappling with a dangerous conspiratorial worldview, Gareth, Nathaniel, and Stacey Train carry out one of Australia's most horrific ambush attacks. Disillusion, paranoia, isolation collides violently with distrust of government and the outside world in Central Queensland.

John Kerr has taken time and care to intimately research the lives of Nathan, Gareth and Stacey Train to help readers make some sense of what happened that day and why.

With an incoherent mash-up of Apocalyptic Christianity, the Sovereign Citizen Movement, doomsday preppers mentality, anti-vax conspiracy theories and a withdrawal from normal society, *The Wieambilla Shootings* chronicles the trio's descent.

Author Bio:

John Kerr is a bestselling author, book seller, editor, and publisher. Having worked as a police and court reporter, in recent years John has become one of Australia's leading writers on crime. His 2022 book, *The Big Folbigg Mistake*, was a critical success and helped draw attention to the terrible miscarriage of justice Kathleen Folbigg suffered resulting from the judiciary's ignorant dismissal of top scientific evidence.

Rod Stewart

The Classic Years

By Sean Egan

For some, Rod Stewart embodies all the conceit and narcissism that susceptible egos are prone to once they make it big in the music industry. Even if that were true, however, that wouldn't change the fact that he is responsible for some of the greatest recordings ever made. A great number of those songs were recorded for the Mercury label between 1969 and 1975, spread across Stewart's solo output as well as his side gig as front man for the band Faces. Even when the records were likable more often than they were classic, Stewart was still one of the greatest live attractions in the world, whether on his own or with the band. *Rod Stewart: The Classic Years* gives a precedented in-depth look at this crucial phase of Stewart's career.

Whatever Happened to Slade?

When The Whole World Went Craze

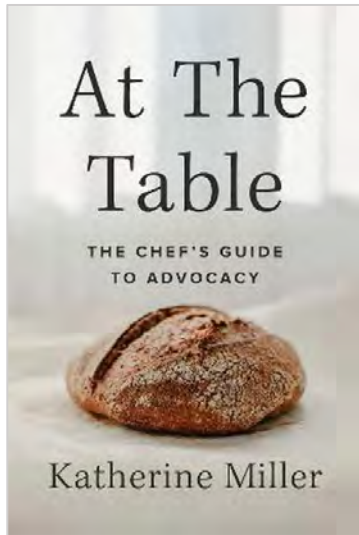

By Daryl Easlea

More than simply the iconic group of the 1970s glam rock era, Slade's huge popularity and the enduring levels of affection still exist. Although the original quartet ceased working as a unit in 1992, Noddy Holder, Dave Hill, Jim Lea and Don Powell remain household names. The first serious biography of Slade since 1984, *Slade: Nobody's Fools* details the complete story of this unique band, as well as the personal histories of the four unique individuals who combined to turn Slade into a genuine phenomenon. Beginning by exploring the background and influences that shaped the foursome, the book charts their emergence from the 1960s beat boom, their initial successes, the epoch-making glam heyday, Slade's attempts to crack America and subsequent re-emergence as hard rocking heavyweights, through to their final dissolution and post-Slade careers.

At the Table
The Chef's Guide to Advocacy

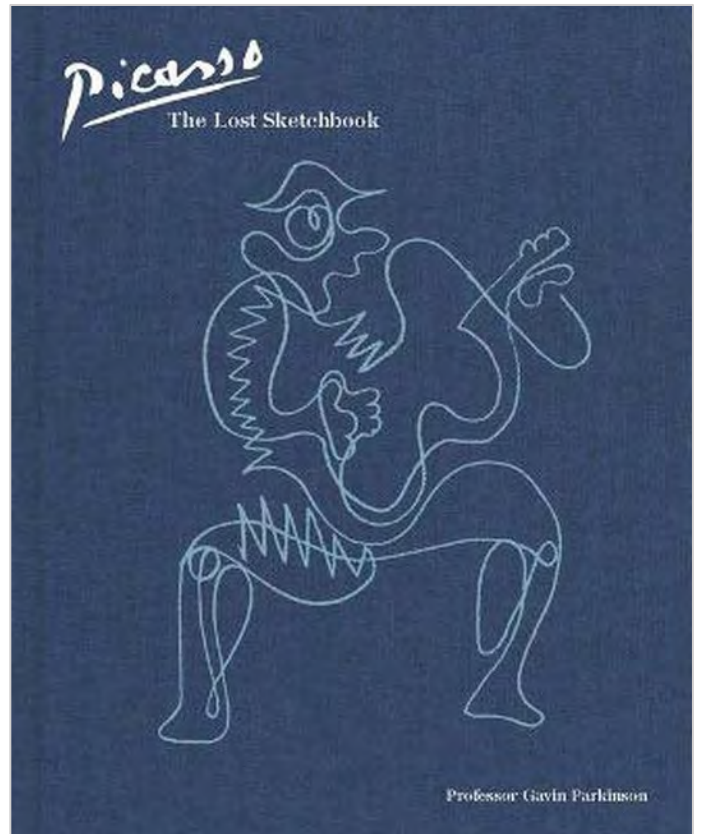

By Katherine Miller

When Katherine Miller was first asked to train chefs to be advocates, she thought the idea was ludicrous. This was a group known for short tempers and tattoos, not for saving the world. But she quickly learned that chefs and other leaders in the restaurant industry are some of the most powerful forces for change in our troubled food system. Chefs are leading hunger relief efforts, supporting local farmers, fighting food waste, confronting racism, and sexism in the industry, and much more. In *At the Table*, Miller shares the essential techniques she developed for the James Beard Foundation's Chefs Boot Camp for Policy and Change. Readers will learn how to focus their philanthropic efforts; pinpoint their audience and develop their argument; recruit allies and support action; and maybe most importantly, grab people's attention in a crowded media landscape. Miller also shares the moving stories of chefs who used these skills to create lasting change. Tom Collichio became one of the world's most respected voices on ending hunger. Bakers Against Racism recruited more than 3,000 people to participate their global bake sales. Chefs from around the country pushed Congress to provide financial relief to the restaurant industry at the height of the Covid pandemic. *At the Table* is filled with inspiration for anyone who has ever wanted to make a difference outside the four walls of their restaurant. And most importantly, it offers proven methods to become a successful advocate. You don't have to be a celebrity chef to change the food system; you just need the will and the tools in this unique guide.

Picasso: The Lost Sketchbook

By Gavin Parkinson

The Picasso sketchbook featured here dates to March 1923 and has never been seen before.

It was part of a cache of works stolen over decades by Picasso's electrician and only discovered when he and his wife tried to sell some pieces in 2020.

A facsimile of the sketchbook itself, bound in real linen cloth that has been specifically aged to match the original.

The book is packaged in a clamshell box with an illustrated book that tells the story of the theft and the discovery.

The book also examines the sketches in detail relating them to several examples of Picasso's finished work.

Jukebox Empire

The Mob and the Dark Side of the American Dream

By David Rabinovitch

Key Sales Points:

* Threatened by extortion, bombing, acid attacks, and his brothers kidnapping, William "Wolfe" Rabin turns to the Mob for protection and ends up the mastermind behind the largest money-laundering scheme in history to finance running guns to Cuba.

Jukebox Empire follows the many twists and turns in one man's pursuit of the American dream, from a self-taught electronics genius to money launderer for the mob. This book exposes how the jukebox industry became the vertically integrated business model for organized crime at a time when there was a jukebox in every restaurant, diner, bar, barracks, arcade, and canteen throughout the country.

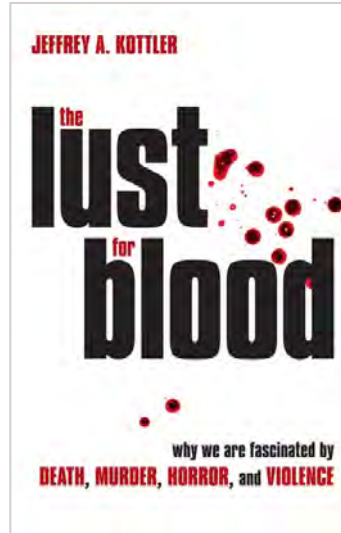

Anyone can afford a nickel for a song and every week the jukeboxes generate millions of dollars in cash, untaxed income, that needed to be laundered. Beneath this wholesome veneer lies a seamy underworld of juke joints, operators' routes, smoke-filled showrooms, and violence. Rabinovitch reveals the details of the mob's international money-laundering scheme to finance running guns to Cuba.

The investigation pieces together an epic puzzle that begins in Chicago with the invention of a jukebox and spans the casinos of Havana and the financial giants of Europe, leading to what the FBI called "the biggest bank robbery in the world."

The Lust for Blood

Why We Are Fascinated by Death, Murder, Horror, and Violence

By Jeffrey A. Kottler

How do we explain the lurid fascination that most people experience when confronted by real or simulated acts of violence, murder, horror, and crime? This is the subject examined in this candid assessment of our dark vicarious thrills.

Based on a series of interviews with perpetrators, victims, and "consumers" of violence, including several celebrities, the author of a best-selling book on serial killers explores what there is about this subject that draws such a wide audience.

Unlike many other books that attempt to probe the murky psyches of deviant individuals, this book focuses on normal, average people who, despite themselves, enjoy getting close to the most forbidden, perverse side of destruction and evil.

The persons interviewed range from homicide detectives and emergency room personnel to a heavyweight boxer and groupies of serial killers on death row.

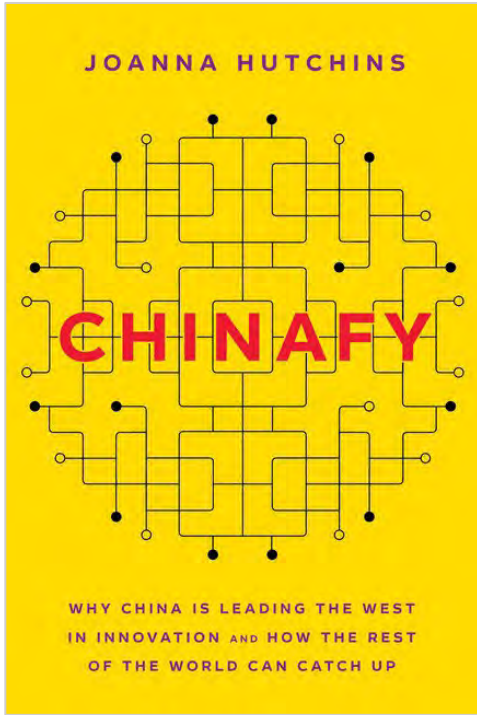

The author considers ideas from a variety of theories and research to explain our responses to violence, raises questions about the shifting line between normal and abnormal, evaluates the confusion and ambivalence that many people feel when witnessing others suffering, and suggests future trends in society's attitudes toward violence.

Afraid

Understanding the Purpose of Fear and Harnessing the Power of Anxiety

By MD Javanbakht Arash

Provides a broad and entertaining overview of fear from evolution to modern day challenges, and how clinicians treat trauma, anxiety, and PTSD today. About a third of the world population suffers from an anxiety disorder, and half of Americans have had at least one traumatic experience like rape, assault, shooting, or natural disasters. On social media, digital tribes have lined up against each other and people worry they may get "canceled" for any number of perceived offenses. Fear and anxiety are with us everywhere we go. Fear is one of the most deeply rooted biological mechanisms that has evolved over hundreds of millions of years in the brains and bodies of animals and humans with one key mission: to increase our chance of survival. Fear is deeply woven into our biology, culture, politics, and day to day life. We sometimes don't even know what we are afraid of. In this book, a psychiatrist and neuroscientist answer these questions. It is a comprehensive review of fear and anxiety in most tangible aspects of the modern life. Arash Javanbakht explores how our childhood experiences define the role fear plays in us as adults, how fear may or may not affect our genes, what excessive fear and anxiety can do to our brains and bodies, and the role of fear in the wake of trauma. Readers will come away with a better understanding of fear and how we can tamp its negative effects, how we can treat it medically if necessary, and how we can protect ourselves from fear's most negative consequences.

Yoni Shakti

A woman's guide to power and freedom through yoga and tantra

By Uma Dinsmore-Tuli, Nirlipta Tuli

In this courageous and radical book, renowned yoga therapist and mother-of-three Uma Dinsmore-Tuli explores the sexual politics of yoga from the perspective that women's spiritual transformation is the most potent revolutionary force.

It includes: * a comprehensive history section covering women's contribution to (and exclusion from) traditional hatha yoga, * a Goddess-inspired section guiding a woman from her first period to postmenopausal, * illuminating personal life stories and experiences from hundreds of women, * specially conceived, guided yoga nidra practices, * instructions for womb-friendly asana and pranayama practices, including restorative yoga, for every part of a woman's life and menstrual cycle.

Intimate and scholarly, irreverent, and inspiring, Yoni Shakti brings womb yoga, tantra and feminism together in an astonishingly powerful combination.

This revised and updated edition includes a lengthy new preface with previously censored material. It includes recently uncovered information about abusive yoga teachers and organisations, and an updated decolonising bibliography. The chapter on Yoga Nidra and the 'Note to Men, Transgender and Non-binary readers' have been substantially edited to reflect developments since first publication.

Every Woman's Guide to Finding Your Voice and Using it Fearlessly

By Jessica Doyle-Mekkes

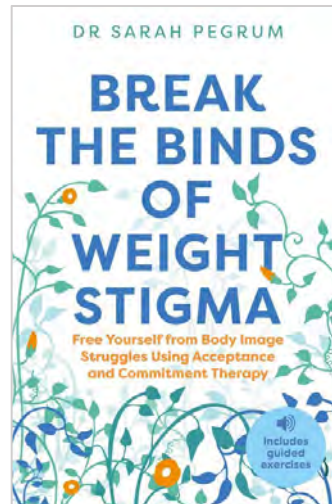

I'm Speaking is not a book on public speaking. Public speaking is an old white guy, standing in front of a podium, telling you things you don't want to know on a topic you're not interested in. He thinks he's funny. His Mustache is funny. *I'm Speaking* is every woman's guide to creating a clear, confident voice that is authentically hers and then using it fearlessly.

Opening Repertoire: Queen's Gambit Accepted

By Nicolas Yap

The Queen's Gambit Accepted (1 d4 d5 2 c4 dxc4) has a long history and has always been popular at all levels of play. However, in the past few years it has undergone an explosion of interest, thanks to many new discoveries of possibilities for very dynamic play from Black. One of these is the line 1 d4 d5 2 c4 dxc4 3 e4 b5!?. This was previously thought to be a very poor line for Black but numerous recent games and investigations have completely changed this assessment. This is now almost the main line of the *Queen's Gambit Accepted* and there is currently very little theoretical material on it. Nicolas Yap analyses this line in forensic detail and also investigates other popular, counterattacking lines such as 3 e3 e5!?. The book is rounded off with suggestions to meet other White systems that involve 1 d4 but not 2 c4 (such as the London, Colle etc.) This makes the book a complete repertoire to face 1 d4.

By Lisa Morton, John A. Russo

Whether George Romero's implacable, slow-moving monstrosities or the fleet-footed terrors of 28 Days Later, over the last several decades the zombie has ascended into the upper echelon of the of the movie monster pantheon-an elite tier once reserved only for vampires, werewolves, and Frankenstein's monster. Featuring over 500 posters, lobby cards, pressbooks, stills, and props from zombie movies across the whole of cinema history, *The Art of the Zombie Movie* is an eye-popping, entertaining visual history of zombie films written by six-time Bram Stoker Award-winning author Lisa Morton.

Included here is the story of the origin and global reach of the zombie feature film; special features, quotes, and interviews from key creators; a survey of such varied subgenres as Blaxploitation, sci-fi, cowboy, and comic zombie films; and a selection of foreign zombie movies from Mexico, Germany, Czechoslovakia, Japan, and other countries. With unprecedented range and detail, this comprehensive collection of zombie movie art begins in 1932 (when *The White Zombie*, the first true entrant in the genre, was released), explores the renaissance that was launched by George Romero's *Night of the Living Dead*, and traces the countless variations, innovations, and reinventions that continue to ensure that the zombie genre will never truly die.

Star Trek A Cultural History

By M. Keith Booker

First airing in 1966, with a promise to "boldly go where no man has gone before," *Star Trek* would eventually become a bona fide phenomenon. Week after week, viewers of the series tuned in to watch Captain Kirk, Spock, and the rest of the crew of the *USS Enterprise* as they conducted their five-year mission in space. Their mission was cut short by a corporate monolith that demanded higher ratings, but *Star Trek* lived on in syndication, ultimately becoming a multibillion-dollar media franchise.

In *Star Trek: A Cultural History*, M. Keith Booker offers an intriguing account of the series from its original run to its far-reaching impact on society. By placing the *Star Trek* franchise within the context of American history and popular culture, the author explores how the series engaged with political and social issues such as the Vietnam War, race, gender, and the advancement of technology. While this book emphasizes the original series, it also addresses the significance of subsequent programs, as well as the numerous films and extensive array of novels, comic books, and merchandise that have been produced in the decades since. It is those exact elements that allowed *Star Trek* to go from simply a good show to the massive media franchise it is today. *Star Trek: A Cultural History* will appeal to fans of media, television, and popular culture, as well as to fans of the show.

The Simpsons
A Cultural History

By **Moritz Fink**

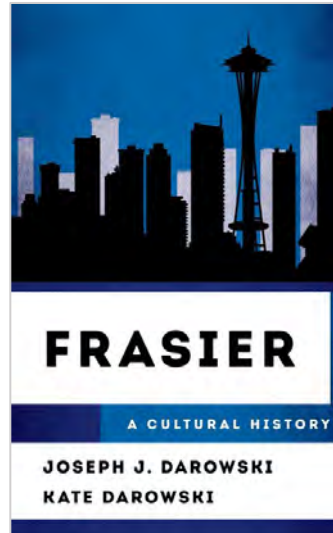

From its crudely drawn vignettes on The Tracey Ullman Show to its nearly 700 episodes, The Simpsons has evolved from an alternative programming experiment to a worldwide cultural phenomenon. At 30 seasons and counting, The Simpsons boasts the distinction as the longest-running fictional primetime series in the history of American television. Broadcast around the globe, the show's viewers relate to a plethora of iconic characters-from Homer, Marge, Lisa, Maggie, and Bart to Kwik-E-Mart proprietor Apu, bar owner Moe, school principal Seymour Skinner, and conniving businessman Montgomery Burns, among many others.

In *The Simpsons: A Cultural History*, Moritz Fink explores the show's roots, profiles its most popular characters, and examines the impact the series has had-not only its shaping of American culture but its pivotal role in the renaissance of television animation. Fink traces the show's comic forerunners-dating back to early twentieth century comic strips as well as subversive publications like Mad magazine-and examines how the show, in turn, generated a new wave of animation. Drawing on memorable scenes and providing useful background details, this book combines cultural analysis with intriguing trivia. In addition to an appreciation of the show's landmark episodes, *The Simpsons: A Cultural History* offers an entertaining discussion of the series that will appeal to both casual fans and devoted aficionados of this groundbreaking program.

Frasier
A Cultural History

By **Joseph J. Darowski, Kate Darowski**

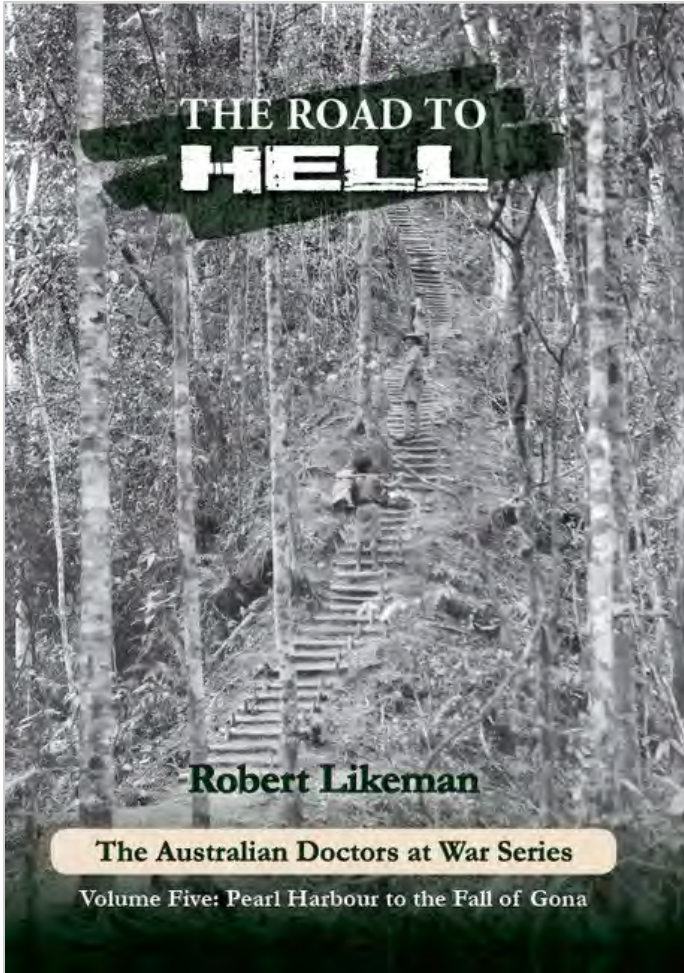

After America's most pompous barhound left the Cheer's gang in Boston, he returned to Seattle and found himself surrounded by an equally colourful cast of friends and family alike. For eleven seasons, radio psychiatrist Frasier Crane contended with his blue-collar ex-cop father Martin, English caretaker Daphne, coworker Roz, and his younger brother Niles. Looking at the world through Frasier's aristocratic, witty lens, the show explored themes of love, loss, friendship, and what it might mean to live a full life. Both fans and critics loved Frasier, and the show's 37 primetime Emmy wins are the most ever for a comedy series. In *Frasier: A Cultural History*, Joseph J. Darowski and Kate Darowski offer an engaging analysis of the long-running, award-winning show, offering insights into both the onscreen stories as well as the efforts behind the scenes to shape this modern classic. This volume examines the series, but also focuses on the show's key characters, including Eddie, the canine. Close looks at set design, class issues, and gender roles are also provided, along with opinionated reviews of all 264 episodes, highlighting the peaks and dips in quality across more than a decade of television. Despite the show's focus on an elitist intellectual-and his equally snooty brother-Frasier often embraced farce on a level previously unseen in American sitcoms, a mix of comedic elements that endeared it to viewers around the world. *Frasier: A Cultural History* will appeal to the show's many fans as well as to scholar of media, television, and popular culture.

The Immortal Dinner

A Famous Evening of Genius and Laughter in Literary London, 1817

By Penelope Hughes-Hallett

On December 28, 1817, the eccentric painter B. R. Haydon gave a famous dinner party in his painting room in London. He invited, among others, three of the greatest literary lights of the age: the poets John Keats and William Wordsworth and the essayist and wit Charles Lamb. Over the course of a long winter evening of delights, the guests recited poetry, indulged in high-minded conversation, and took part in ridiculous antics, with such displays of brilliance and wit that the party came to be known as the Immortal Dinner. Penelope Hughes-Hallett celebrates this unique gathering by vividly bringing to life these illustrious diners against a backdrop of social change. Literary London society was at its extraordinarily gifted best just two years after Waterloo: the Elgin Marbles controversy still raged.

Warplane

How the Military reformers birthed the A-10 Warthog

By Hal Sundt

The A-10 is the Air Force's unlikely success story, an airplane designed to support the Army, and one that ground troops came to venerate. Originally conceived with the express purpose of destroying Soviet tanks, the Air Force only developed it to keep funding away from the Army's response to the mission, the AH-56 Cheyenne helicopter. Inspired by the biography of a tank-busting German pilot in World War II, the engineering and design of the A-10 fell to Pierre Sprey, a precocious civilian who'd enrolled at Yale when he was just 15 years old, and now, barely 30, was exiled to a Pentagon backwater with little, if any, supervision. The result was one of the finest military aircraft ever built, a plane essentially constructed around a 19.5-foot, 4,000-pound cannon that fired 30mm depleted uranium bullets at a blistering rate.

Air Power's Lost Cause

The American Air Wars of Vietnam

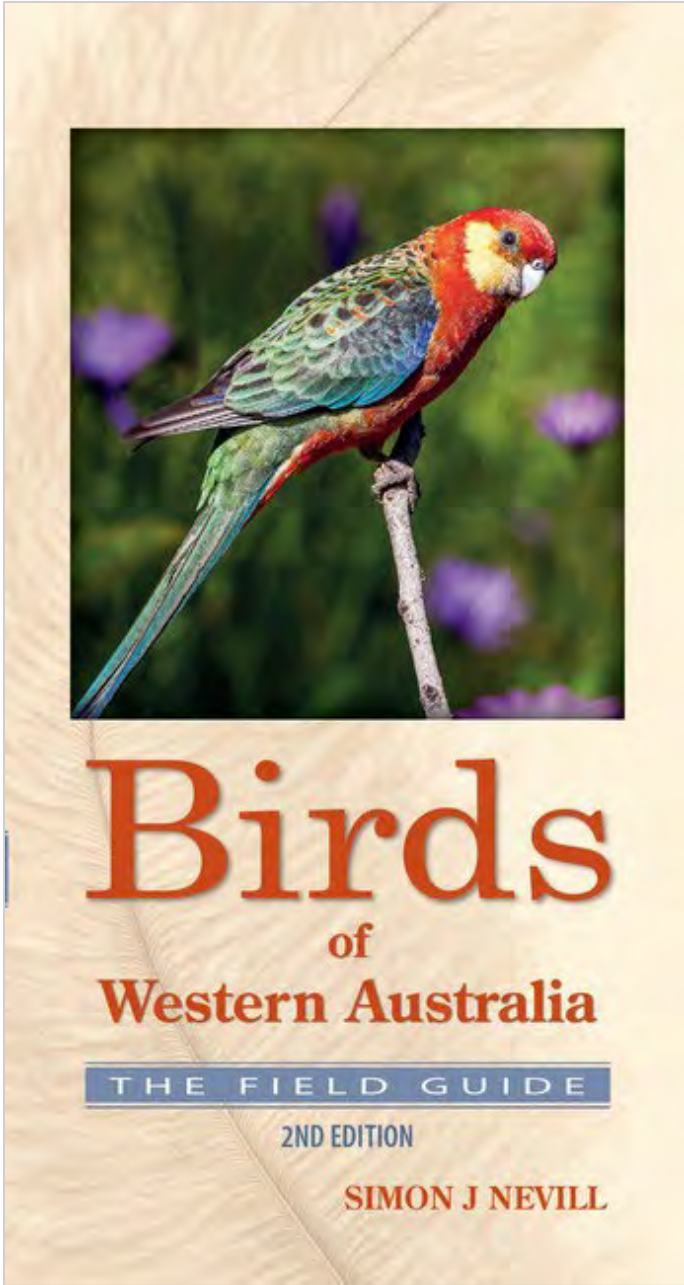

By Brian D. Laslie

The first comprehensive treatment of the air wars in Vietnam. Filling a substantial void in our understanding of the history of airpower in Vietnam, this book provides the first comprehensive treatment of the air wars in Vietnam. Brian Laslie traces the complete history of these air wars from the beginning of American involvement until final withdrawal. Detailing the competing roles and actions of the air elements of the United States Army, Navy, and Air Force, the author considers the strategic, operational, and tactical levels of war. He also looks at the air war from the perspective of the North Vietnamese Air Force. Most important for understanding the US defeat, Laslie illustrates the perils of a nation building a one-dimensional fighting force capable of supporting only one type of war.

Abandoned Germany

By Aurelien Villette

Grand congress hotels from the Socialist era, the once popular Ballhaus often built with basic, functional materials which were not made to last, derelict factories, buildings converted into museums, and barracks now transformed into flats or simply knocked down to make way for solar panels.

Over 15 urban forays to seek out abandoned places have been undertaken by Aurelien Villette, an international award-winning photographer, and have helped him paint an alternative portrait of contemporary Germany - a land scarred by many historical fractures which the passage of time has willingly glossed over, thus remaining only in people's memories.

Forbidden France

By Robin Brinaert

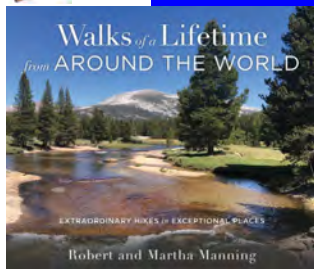

Beautiful, haunting photographs of abandoned places in France. The ultimate visual reference in French urban exploration. Castles lost in the mists of time, large hunting estates once used by Frances nobility, historic buildings closed to the public, an abandoned factory once abuzz, an old orphanage in ruins, a grounded Concorde, a disused prison in pastel, a hidden tunnel to protect a collection of vintage cars.

Through his photographs immortalising neglected heritage, Robin Brinaert invites us to explore an entire part of forgotten history whose grandiose details are often hidden by decay. Beyond the beauty of these sleeping wonders, he reveals their uncertain fate and the respect they deserve, to help salvage what can still be saved. This exceptional photographic report is the result of ten years of exploration across France.

Walks of a Lifetime from Around the World

Extraordinary Hikes in Exceptional Places

By **Robert Manning, Martha Manning**

Walking is simple, but it can also be profound. In an increasingly complex and frantic world, walking can help simplify and focus our lives, is an elegantly sustainable form of recreation, deepens our understanding and appreciation of the world's great cultural landscapes, stimulates our thinking, and makes us healthier and happier in the process. In *Walks of a Lifetime from Around the World*, Bob and Martha Manning invite readers to join the walking community. Their book explains why, how, and where to walk, with an emphasis on multi-day, long-distance trails — walking vacations of a few days to a few weeks. The heart of the book is a series of first-hand descriptions of forty of the world's great multi-day walks, spanning six continents, most U.S. states and Washington, DC, and ranging from inn-to-inn walks to backpacking treks.

The Greatest Rowing Stories Ever Told

By **Goeran R Buckhorn**

The Greatest Rowing Stories Ever Told collects articles and excerpts of classic rowing stories, from the inception of the sport on English waters in the eighteenth century, through the scandalous era of professionalism (and gambling) of the nineteenth century, to the popular amateur sport of today. The contributors include prominent oarsmen and women, historians of the sport, and even poets and songwriters. Recall here the great rivalries, the pageantry of the regattas, the poetic solitude of the single sculler, and many other aspects of a sport entering its third century.

The Woman They Wanted

Shattering the Illusion of the Good Christian Wife

By **Shannon Harris**

Ex-wife of pastor Joshua Harris (*I Kissed Dating Goodbye*) Shannon Harris recounts her story of entering conservative Christianity as a young woman, its limiting and oppressive views on womanhood, and her own awakening to her true self after the ministry downfall and her divorce. "No one is coming to rescue me. I am going to have to rescue me." As a twenty-three-year-old singer and the soon-to-be wife of youth pastor Joshua Harris, nothing in Shannon Harris's secular upbringing prepared her to enter the world of conservative Christianity. Soon Joshua's bestselling book *I Kissed Dating Goodbye* helped inspire a national purity movement, and Shannon's identity became "pastors' wife." *The Woman They Wanted* recounts Shannon's remarkable experience inside Big Church--where she was asked to live within a narrow definition of womanhood for almost two decades--and her subsequent journey out of that world and into a more authentic version.

Revelation Freshly Erupting Collected Poems

By Nelly Sachs, Andrew Shanks

Key Sales Points:

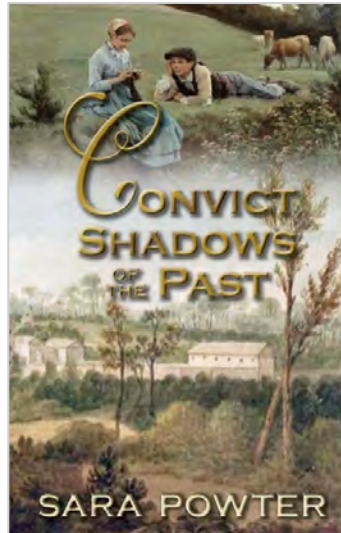

- This collection revives the Nobel Prize-winning German Jewish poet Nelly Sachs, who became a great poet in her fifties, as a Jewish exile from Nazi Germany, living in Sweden. * Her poetry begins as a monumental lament for the victims of the Holocaust but continues to develop other themes. * This dual-language book includes all the lyric poetry Sachs published in her lifetime and adds the posthumous collection Teile dich Nacht, an introductory essay, and notes.

The Jewish writer Nelly Sachs (1891-1970) writes in direct response to the Holocaust. She is uniquely a prophetic poet, one of the greatest of that species in twentieth century. Her first book appeared in the immediate wake of the Second World War, in 1946. Since that time, Hans Magnus Enzensberger declared, she has been writing fundamentally a single book. Her major work is an evolving response to the trauma of the Holocaust. In 1966 she received the Nobel Prize for Literature. This book includes all the lyric poetry Sachs published in her lifetime and adds the posthumous collection Teile dich Nacht, an introductory essay, and notes. Her poetry begins as a monumental lament for the victims of the Holocaust. Other themes develop biblical, Kabbalist and religious allusions, personal bereavement, mental breakdown. And there are reflections on poetic vocation in the darkness of recent history.

Convict Shadows of the Past - Two Jennifers, two hundred years apart. When aged eight, Jenny Kellow learns of her convict family history and discovers that she was named after a convict from nearly two hundred years ago.

Her grandfather's stories inspire her to dig deeper into her ancestors' convict past. From her grandfather, she hears stories of bushrangers, convicts, and life in the infant colony of Parramatta. She sets about retracing the footsteps of her convict great-great-great-grandmother to honour her.

Jenny's search starts with microfiche back in the 60s, and she learns about the small tin mining town in Cornwall and the production of a cheese that sets London afire.

Then she discovers her ancestor has brought these cheese-making skills to Parramatta, where she taught others her craft. Echoes of the past can still be heard if you know where to listen. But who was the first Jennifer? Why is she so elusive?

Foundation Day

The Adventures of Captain Flinders, Mr Bungaree and Trim the Cat

By Nerys Evans, Ted Egan, Thor F. Jensen

Foundation Day tells of the voyage of two men who first circumnavigated the continent and first named it 'Australia': Captain Flinders and Mr Bungaree. And Trim, the cat.

The jaunty rhythms and rhymes of Ted Egan's song makes the educational content go down like honey – and after you read it to your child, you can scan the QR code and leave him or her with the phone to hear the song on the video clip that plays.

Discover their delight.
