Zelensky: 3 Years as a Frontline President

By Andrew L. Urban, Chris McLeod

Key Sales Points:

- * A new and updated version of the 2022 bestseller.
- * Includes key new insights including Russia's premature victory plans, the staggering cost of the war in its three-year run and how Zelensky convinced the free world to back him and his people against the Russians.

The message from the free world to Russian President Putin has always been clear: Leave Ukraine alone... get out! What Russia thought would be a three-day hit-and-run mission to oust the Ukraine government of Volodymyr Zelensky was an abject failure.

The Russians even took with them their dress uniforms ready for a victory parade in Kyiv and booked ahead for restaurants for their celebrations. But Russia hadn't reckoned on the Zelensky factor in Ukraine.

Approaching the third year of conflict, President Putin is still struggling to overrun his determined neighbour. The cost of the conflict, both in human and material terms, has been staggering.

In this gripping new update of the bestseller, Zelensky: Frontline President, Andrew L. Urban and Chris McLeod examines what went wrong for Putin, how Zelensky convinced the free world to back him and how a "special military operation" is an all-out war with an unpredictable outcome.

Darker with the Dawn

Nick Cave's Songs of Love and Death

By Adam Steiner

Key Sales Points:

* From his early work with The Birthday Party to the future sounds of Ghosteen, Nick Cave has rewritten the language of rock n roll.

From his early work with The Birthday Party to the future sounds of Ghosteen, Nick Cave has rewritten the language of rock 'n' roll. Darker with the Dawn uncovers the history and deeper meanings behind Nick Cave and The Bad Seeds' most well-known songs from "Tupelo", "The Mercy Seat", "Red Right Hand", "Stagger Lee", "Into My Arms", to "Higgs Boson Blues" and beyond.

The book explores Nick Cave's life in music drawing upon his inspirations of the Bible, Greek myth, and literature, as well as his enduring passion for gospel, blues, and progressive rock.

Steiner reflects upon Caves journey from his childhood in Australia, struggles with drug addiction, his young fascination with the nightmare landscapes of Americas wild west and the southern gothic towards a reckoning with his own sense of Christian spirituality.

In a career spanning four decades Caves songwriting has moved from the saints and sinners of the traditional murder ballad to piano-based heartbreak songs, deconstructed garage rock and ambient fever dreams delivered through minimalist electronica.

Adam Steiner dives into the world of a complex songwriter who, in his universal expressions of love and death, continues to speak to us of the light and shade of humanity.

Reviews:

Nick Cave has created a body of work across music, prose, and screen unmatched in its impact, depth, and erudition by few artists. At last, we have a critical analysis that does this achievement justice. Adam Steiner has set the benchmark for many years to come. — **Mat Snow**, former editor of Mojo, author of Nick Cave: Sinner Saint.

"This is a great primer on all things Nick Cave—a solid, deep dive into where Nick Cave started from and how he made it to the present day. This is a must read for any Nick Cave fan, whether a newcomer or veteran." — **Tony DuShane**, author of Confessions of a Teenage Jesus Jerk, former music columnist, San Francisco Chronicle.

"For over forty years, Nick Caves complex and richly allusive music has invited and rewarded close consideration. Scholarly, thorough, and insightful, Darker with the Dawn delivers the depth of analysis that Caves body of work deserves." - — **Simon Price**, author of Curepedia: An A-Z Of The Cure

Walks of a Lifetime from Around the World

Extraordinary Hikes in Exceptional Places

By Robert Manning, Martha Manning

Walking is simple, but it can also be profound. In an increasingly complex and frantic world, walking can help simplify and focus our lives, is an elegantly sustainable form of recreation, deepens our understanding and appreciation of the world's great cultural landscapes, stimulates our thinking, and makes us healthier and happier in the process.

In *Walks of a Lifetime from Around the World*, Bob and Martha Manning invite readers to join the walking community. Their book explains why, how, and where to walk, with an emphasis on multi-day, long-distance trails — walking vacations of a few days to a few weeks.

The heart of the book is a series of first-hand descriptions of forty of the world's great multi-day walks, spanning six continents, most U.S. states and Washington, DC, and ranging from inn-to-inn walks to backpacking treks. Many of these walks are among the world's most iconic. Trail descriptions are richly illustrated with color photographs and maps.

Author Bio:

Robert Manning is Professor Emeritus at the University of Vermont where he taught the history, philosophy, and management of national parks and related areas and conducted a long-term program of research for the US National Park Service.

Martha Manning is an artist who uses hiking and the out-of-doors as an inspiration for her work; her work is represented in national shows and publications.

Bob and Martha are accomplished hikers, having walked dozens of long-distance trails throughout the world. They are Hiking Ambassadors of the American Hiking Society and currently reside in Prescott, AZ. Their website is: www.extraordinaryhikes.com.

Dior
The Fashion Icons

By Michael O'Neill

Christian Dior was a French fashion designer who founded the iconic fashion house Dior in 1946. He was known for his elegant, feminine designs, and his use of luxurious fabrics and intricate details.

This beautifully illustrated book for every lover of fashion includes never to be forgotten images of Christian Dior's designs and illuminates the talent of the man who was France's most unpredictable and spectacular fashion designer.

The book includes a detailed look at some of Dior's most important creations: The "New Look" silhouette - Dior's debut collection in 1947 featured a new silhouette that emphasized the female figure, with nipped-in waists, full skirts, and rounded shoulders.

The Bar suit - this tailored suit was a cornerstone of Dior's early collections. The jacket featured a cinched waist, padded hips, and a deep V-neckline, while the skirt flared out from the hips to create a full, feminine silhouette.

The Miss Dior dress - this elegant, off-the-shoulder cocktail dress was inspired by Dior's love of flowers. It featured a fitted bodice and a full, flared skirt, and it was often made in soft, romantic fabrics like silk and tulle.

Author Bio:

Michael A. O'Neill is a writer and actor who trained at the Central School of Speech and Drama in London and appeared on the West End Stage and in a number of films. Michael has written many bestselling books across the non-fiction genre including biographies of Queen and The Beatles.

Hobart's Best Walks 2/e

The full colour guide to over 40 fantastic walks

By Ingrid Roberts

Key Sales Points:

- * First new edition of this popular book in over a decade.
- * The best walks around the capital of Australia's favourite 'walking state'.
- * Thoroughly revised from the previous edition with a new chapter and 7 new walks.

Hobart - capital of Australia's favourite state for bushwalking - and its environs boast a huge range of beautiful environments, making the region perfect for exploring on foot.

Hobart's Best Walks (previously *Hobart's Best Bush, Coast & City Walks*), part of Woodslane's hugely successful walking guides series, introduces the best walks for visitors and residents alike, ranging from historic urban strolls to the more rugged tracks deep in the local bush.

Detailed descriptions and maps help the reader explore the region's parks, bushland, hills, coastal and river areas, and its most interesting urban areas. As with other titles in the series, the book is richly illustrated with over 200 full-colour photographs and dozens of detailed maps. A summary table of walks indicating distances, facilities and highlights is included to help the reader find exactly the right walk for the occasion.

This thoroughly revised and expanded new edition includes seven new walks and a whole new chapter, North of Hobart.

Manchester United Legends

By Michael O'Neill

The word legend is thrown around all too readily these days, but there can be no doubt that the Manchester United players featured in this book are the very best to have ever graced a football pitch.

They are true legends of the club and the game. Spanning the decades and covering all the Manchester United's most iconic eras, we uncover the fascinating stories and incredible accomplishments of the club's greatest soccer players from Bobby Charlton and George Best to Eric Cantona Roy Keane and Ronaldo.

It's not just about great players, though. Without great managers there would be no great players, legendary teams, or memorable matchups.

That's why we also run down the ten most successful managers from Manchester United history, look back at the ten greatest championship winning teams and relive ten of the best games of all time.

The Basketball Book of Why (and Who, What, When, Where, and How)

The Answers to Questions You've Always Wondered about Hoops

By Wayne Stewart

How was basketball born? Why is the area in the paint and around the free throw circle known as the key? When did the NBA begin play? What team was arguably the worst NBA squad ever? Who was the highest drafted college player who never played a single game in the NBA? This book provides over 100 questions and detailed answers concerning the traditions, rules, and history of basketball. Organized by the sport's three eras—its birth through 1945, the NBA from 1946 through 1999, and the game today—it answers questions about the sport at all levels, from college games to the Olympics. A bonus chapter provides a who, what, when, where, why, and how of basketball—the perfect resource to settle arguments or to answer challenging trivia questions.

The Wealth Playbook Your Ultimate Guide to Financial Security

By Andrew Baxter

This book provides a step-by-step game plan to help everyday Australians reduce financial stress and ultimately enjoy the peace of mind and fun that can come from financial security. Starting from the ground up, this book will help its readers build life changing habits that will promote a stronger financial position, less debt, greater peace of mind and ultimately a brighter financial future that is not plagued by money worries.

Each chapter provides a clear game plan of what needs to be done and perhaps most importantly, why, enabling the reader to build confidence and understanding in the journey they are on and the decisions they make. Most importantly, readers who follow this game plan will very likely save thousands of dollars in unnecessary fees and charges from the financial planning and investment industry, which the Royal Commission showed to be riddled with greed and dishonesty.

If you want to get ahead financially, learn how to recession proof yourself and avoid poor advice and high fees, *The Wealth Playbook* will provide you the only gameplan you will need.

Leadership at 43000 Feet
The flight path to becoming a wise leader

By Chris Smith

Anyone can call themselves a leader, can't they? All they need is a title – a role – a 'position', right? I don't think so. For most people, the authority or power that goes with a title or role disappears when they no longer hold a position on the organisational chart. If they haven't done a good job, if they haven't treated people well, no-one will give us the time of day when they pass us in the street - when we have no longer have any power over them. True leaders don't need the title, 'Leader'. They don't even need a role. They often don't even need a 'management model'. They just.... have it. So, what is it then? Whether we agree with them or not, the truly magnificent leaders around the world have one thing in common – respect. They have flaws, they make mistakes, sometimes big ones, but people follow them regardless – because they have earned respect and this makes them influential.

The NFT Book
Everything You Need to Know about the Art and Collecting of Non-Fungible Tokens

By Noah Charney, Kenny Schachter

NFTs, non-fungible tokens, as collectible, digital, blockchain-secured files became an international sensation in 2020, with the trend in trading them peaking in the fall of 2021. Many sold for millions, and one even sold for \$69 million. And yet what exactly are they, and why do they have value? This is the definitive book on NFTs in the story of art and collecting. It is co-authored by an art historian who has written often on the value of art and the history of collecting. NFTs caught Noah Charney's attention and fascinated him. He, too, felt that initial knee-jerk reaction that so many who hear of a \$69 million sale do: how is this digital image different from me clicking "right-click save" on my touchpad and downloading it to my computer?

**Light Field
The Art of Bruce Munro**

By Fiona Gruber

Starting his career in commercial lighting design, Bruce Munro (b.1959) later returned to his artistic roots to create large immersive site-specific light installations born from his fertile imagination. Exploring Munros fascinating career to date, text and images combine to present an artist whose work is an exploration of place, topography, and the environments in which the works are set. From the Australian desert to Californian vineyards, through to museums and manor houses in his native England, Munros spellbinding installations are immersive experiences that engage with the senses, their apparent simplicity belying the thematic and technological complexity behind their conception and realisation. Continually probing the possibilities of light and the considerable emotional pull the medium can create, Munros enthusiasm for his materials and their relationship with audiences and environments is intelligently and engagingly communicated here. Richly balanced with beautiful reproductions of Munros spectacular work, Light Field is essential reading for anyone interested in the power of light as an artform.

Sitcommentary

Television Comedies That Changed America

By *Mark A. Robinson*

From I Love Lucy to Black-ish, sitcoms have often paved the way for social change. Television comedy has long been on the frontline in how America evolves on social issues. There is something about comedy that makes difficult issues more palatable-with humor an effective device for presenting ideas that lead to social change. From I Love Lucy which introduced the first television pregnancy to Will & Grace, which normalized gay characters, the situation comedy has challenged the public to revisit social mores and reshape how we think about the world in which we live. In *Sitcommentary: Television Comedies That Changed America*, Mark A. Robinson looks at more than three dozen programs that have tackled social issues, from the 1940s to the present.

Seasons of Love

Why Rent Matters

By *Emily Garside*

With its groundbreaking score, unabashed romanticism, and scrappy sensibility, *Rent* was like a firecracker thrown into a hushed theater, turning heads and upending conventions. But if its unexpected success was the stuff of theatrical legend, the story of its making was a bittersweet one, with composer Jonathan Larson, a student of Sondheim's finally making his Off-Broadway debut, tragically dying on the night of the final dress rehearsal. Even decades later, *Rent* lives on as a warmly remembered chapter in Broadway history, yet the show is too often trivialized, reduced to parody, or dissected in the service of an arid cultural politics. Considering this, journalist and theater expert Emily Garside has some questions. Chief among them: Why is *Rent* taken less seriously than other musicals of its caliber? And should it be?

A Disturbance in the Force

By *Steve Kozak*

Bea Arthur as the owner of the Mos Eisley Cantina. Long scenes entirely of Wookies bleating at each other, without subtitles. Harvey Korman, in drag, as a four-armed Space Julia Child. Six minutes of Jefferson Starship performing for Art Carney and a bored Imperial Guard. Mark Hamill, fresh from his near-fatal motorcycle accident, slathered in pancake makeup. A salacious holographic burlesque from Diahann Carroll. Even by the standards of the 1970s, even compared to Jar-Jar Binks, the legendary 1978 Star Wars Holiday Special is a peerlessly cringeworthy pop-culture artifact. George Lucas, who completely disowned the production, reportedly has said, "If I had the time and a sledgehammer, I would track down every copy of that show and smash it." Just how on earth did this thing ever see the light of day?

Rags to Rugs

30 New Weaving Designs for Repurposed Fabrics

By Tom Knisely

Tom Knisely is back with 30 brand-new designs for his favorite type of weaving project: rag rugs! Weaving with strips of cloth creates a sturdy, hard-wearing piece that can be enjoyed on your floor every day for years to come. When made with repurposed cloth from items you otherwise have no use for, these rugs are also an excellent way to keep fabrics from ending up in a landfill (or even just taking up space in a closet). In Rags to Rugs, Tom explores the weaving possibilities of a variety of fabrics, from T-shirts and jeans to quilts, linens, towels, and more. He shows you the techniques he uses to get the most from each piece and gives advice on how best to set up your loom for weaving with rags much thicker than your typical weaving thread.

We're All Neurodiverse
How to Build a Neurodiversity-Affirming Future and Challenge Neuronormativity

By Sonny Jane Wise

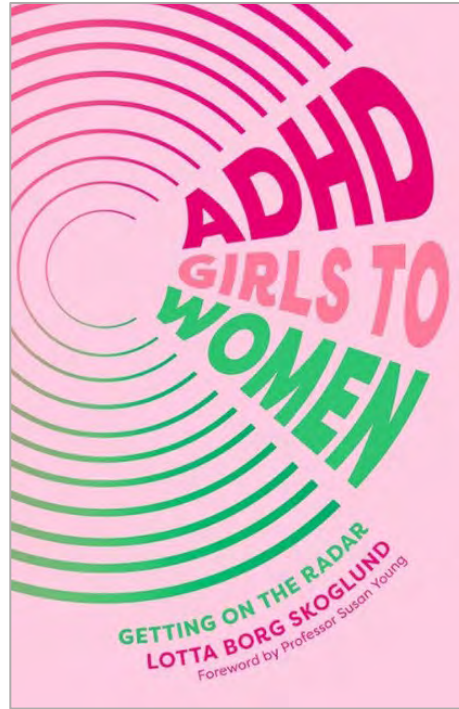

Key Sales Points:

- * Author with lived experience and a growing 70k strong platform.
- * Radical interpretation of neurodiversity sets this book apart from other neurodiversity guides.

This affirming and thoughtful guide outlines how and why we need to fundamentally shift our thinking about neurodivergent people. At times challenging and radical, Sonny Jane Wise explores the intersections of neurodivergence with disability, gender, sexuality, and race. They consider how current systems and structures that impact neurodivergent people are rooted in outdated capitalist and racist frameworks, and how these need to change and adapt to be neurodiversity affirming. Sonny Janes words are a rallying cry to challenge the pathology paradigm. And instead offers nine principles for facilitating change with core values that are reflected in deeply personal stories from the neurodivergent community.

ADHD Girls to Women
From Invisibility, Emotional Dysregulation & Burn out to Self-Knowledge

By Lotta Borg Skoglund

Key Sales Points:

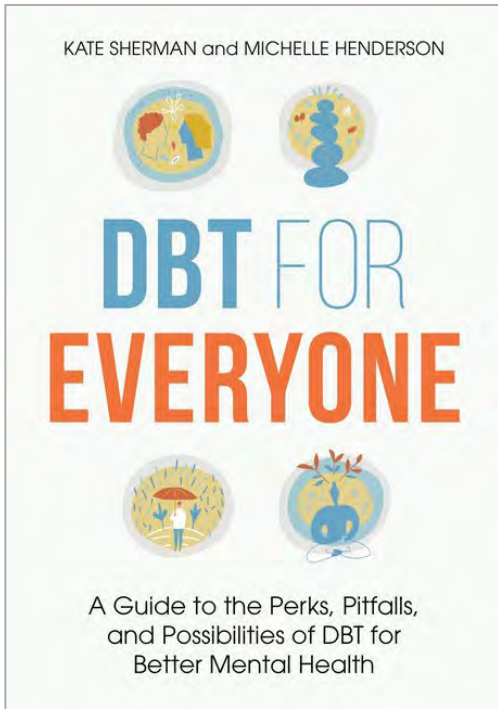

- * Popular science book on ADHD in women interspersed with real stories from amazing ADHD women.

ADHD girls and women often fall under the radar. This rigorous and accessible book connects current research (which until recently has mostly focused on men) to the lived experiences of girls and women with ADHD, weaving in their personal struggles and breakthroughs throughout their lives from childhood and the teen years through to motherhood, menopause and beyond. Family doctor, psychiatrist, and international ADHD expert Lotta Borg Skoglund combines years of experience in the treatment and assessment of ADHD with the powerful testimonies of the women she has encountered along the way, exploring issues such as hormonal changes, emotional regulation, organisation and concentration, relationships, work, and treatment. She provides valuable tips and insights along with powerful strategies as to how ADHD girls and women can achieve the self-understanding they need to live lives to their best potential.

DBT for Everyone

A Guide to the Perks, Pitfalls, and Possibilities of DBT for Better Ment

By Michelle Henderson, Kate Sherman

Key Sales Points:

* A simple guide to using DBT skills in daily life from the hosts of the popular DBT and Me podcast.

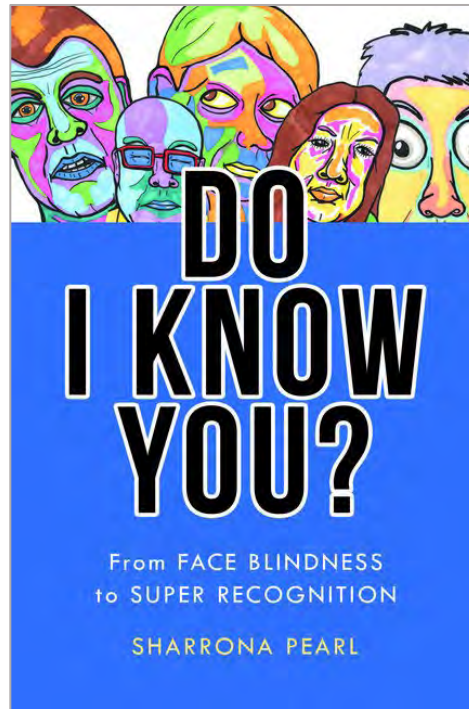

DBT skills can be a fantastic way to approach life's challenges. But where do you start? This down-to-earth guide walks you through the four DBT modules, mindfulness, distress tolerance, emotion regulation, and interpersonal effectiveness. Each chapter explains how to practice the key skills and dives into the authors' own experiences to explore what works, what doesn't, and which skills work best for challenges. Journaling prompts help you work out how to fit the skills into your own day-to-day life, so you can make changes that work for you.

DBT works by helping you to understand difficult emotions and develop skills to regulate them in a healthy way. Whether you struggle with mental health difficulties, or just want to improve the way you handle everyday stress and challenges, this book will filter out the jargon and show you how to use DBT skills in real life.

Do I Know You?

From Face Blindness to Super Recognition

By Sharrona Pearl

A fascinating history of how we recognize faces-or fail to recognize them. In *Do I Know You?* Sharrona Pearl explores the fascinating category of face recognition and the "the face recognition spectrum," which ranges from face blindness at one end to super recognition at the other. Informed by archival research, the latest neurological studies, and testimonials from people at both ends of the spectrum, Pearl tells a nuanced story of how we relate to each other through our faces. Face blindness is framed as a disability, while super recognition is framed as a superpower with no meaningful disadvantages.

This superhero rhetoric is tied to the use of super recognizers in criminal detection, prosecution, and other forms of state surveillance. *Do I Know You?* demonstrates a humanistic approach to the study of the brain, one that offers an entirely new method for examining this fundamental aspect of human interaction. Building on an interdisciplinary foundation that includes the history of medicine, science, and technology, disability studies, media and communication, artificial intelligence ethics, and the health humanities, Pearl challenges the binary nature of spectrum thinking.

The Adventures of Sherlock Holmes

By Arthur Conan Doyle

Call of the Wild

By Jack London

The Adventures of Sherlock Holmes is a collection of twelve short stories offering insights into the crime scene of Victorian London in a time of trains, gaslight, and paper mail.

Call of the Wild marks a turning point in the in-naturalist literature dealing with the exploration of heredity versus environmental influences.

Tiger Tales

Almost True Stories from Old Singapore

By Joycelyn See Tully, Chloe Chang

With much of old Singapore still covered in jungle, encounters with animals were not uncommon for those who lived here. *Tiger Tales* brings to life little-known tales of such episodes in Singapore’s past, from a crazy rain of fish and the discovery of a giant crocodile in the Rochor River in the middle of town, to a conundrum with tapirs and the delights of a zoo in the Botanic Gardens. Of course, no compendium of Singapore’s animal stories can go without the legend of Sang Nila Utama, the island’s mythical founder—did he really see a lion, we wonder? —and the dramatic story of the tiger under the Raffles Hotel’s billiard room. Along the way, readers also meet a cast of colourful yet real people from the past.

The Little Singapore Book (New Edition)

By Sim Ee Waun, Joycelyn See Tully

A modern Singapore children’s classic, *The Little Singapore Book* is a fun-filled romp through Singapore’s 700 years of history, packed in four beautifully, richly illustrated chapters. It offers young readers a simplified history of Singapore from the 14th century to the present day, then brings them on a whirlwind tour of the historical districts of Singapore. Flitting from past to present, it reveals the fascinating origins of neighbourhoods such as Chinatown and Little India, and how they have changed. For instance, did you know that Serangoon was once cattle farmland? Or that there was a real fort that once stood at Fort Road? This is followed by the final chapter about life in Singapore, and what Singaporeans are all about, from the rich colourful language called ‘Singlish’ to the people’s collective love for food.

Doodle Yourself Happy

A Therapeutic Doodling Workbook for Children Who Feel Sad or Low

By Tanja Sharpe

What does happy mean to you? Even though happiness is important to our minds and our bodies, we don't hear people talking about it much. The doodling activities in this book can help you to understand your feelings and find ways to grow a spark of happiness even when things feel tough. This is your book, and you can use it in any way that you like. Featuring 50 fun doodling activities, this creative workbook helps children aged 8+ to work through low mood and sadness and use doodling as a way of inviting more joy, confidence, and resilience into their lives. This exploration can be independently led by the child themselves or with guidance from a parent or professional.

Childhood Narcissism

Strategies to Raise Unselfish, Unentitled, and Empathetic Children

By Mary Ann Little

Notice the signs of narcissism in your child and act to curb them before it's too late! Raising empathetic and unselfish young people in today's "all about me" world might seem impossible, but parents can insulate children from these harmful influences. Written by a psychologist with decades of clinical experience, *Childhood Narcissism* explains how selfish, entitled behavior can take root in a child and shows parents how to stop it before it's too late. Mary Ann Little identifies the early warning signs that can result in a full-blown narcissistic disorder in adulthood. As narcissism is most often anchored in childhood, waiting too long to address these tendencies can be costly. The book explores four psychological structures developing over childhood that nurture a child's healthy, realistic self-concept and positive model of love and relationships.

Right from the Start

A Practical Guide for Helping Young Children with Autism

By Karin Donahue, Kate Crassons

In *Right from the Start: A Practical Guide for Helping Young Children with Autism*, Karin Donahue and Kate Crassons assert that autistic children can be successful when parents and teachers understand key principles of autism and have the tools to help these children expand their social and emotional skills. Emphasizing the importance of self-regulation—the ability to moderate our feelings and reactions—the authors describe practical strategies to help children manage their emotions and behavior, learn social and play skills, and cope with challenging sensory experiences. *Right from the Start* is a needed and indispensable resource for parents, professionals, and educators.

Why Mixed Feeding Matters

By Karen Hall

Many parents plan to introduce a bottle early in their child's life, whether they're going to use formula or expressed breastmilk. Many more find themselves going down this pathway even though they hadn't planned to.

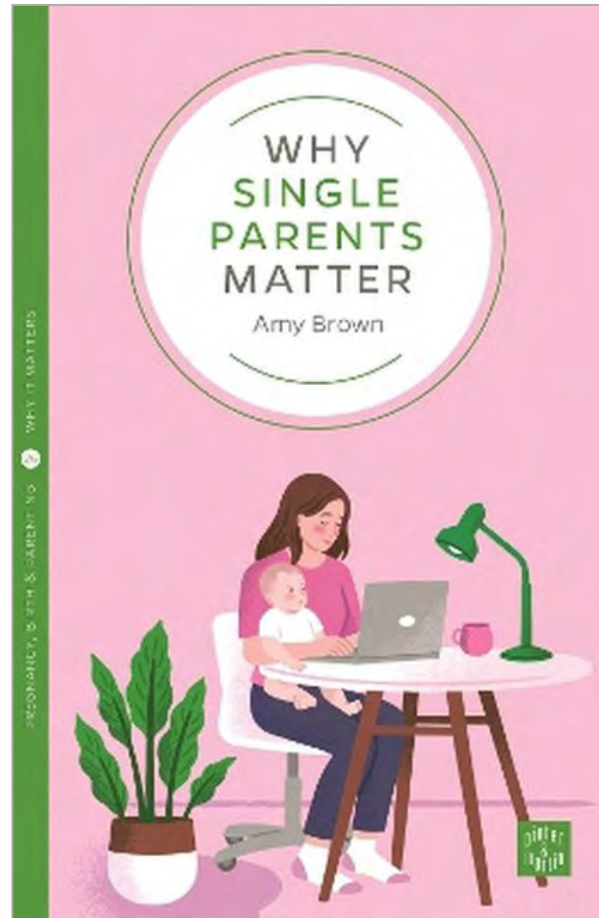

It can be difficult to find useful information to navigate the journey of mixed feeding, balancing giving formula alongside maintaining the production of breastmilk, and parents often feel unprepared and unsupported with this decision.

Breastfeeding Counsellor Karen Hall has been supporting parents to feed their babies in different feeding situations for over 10 years and draws together her experience and understanding of what parents need to know, to have a positive experience of mixed feeding.

Why Single Parents Matter

By Amy Brown

One in six families with children under 18 in the UK is headed by a single parent, yet portrayals of single parents in the public eye are often one-sided, focusing on challenges and negative stories. Many suggest that single parents are all young mothers, living in poverty, stress and regret.

Why Single Parents Matter takes a different approach, focusing on supporting the wellbeing of single parents, by examining the evidence behind the headlines and drawing on interviews with single parents from a broad range of backgrounds.

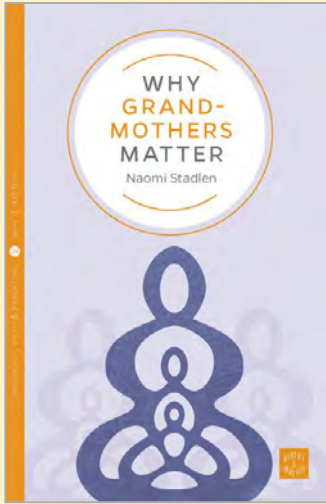

The book challenges negative stories, highlights the stresses, triumphs, and perseverance of single parenting, and explores the ways we can all better support the single parents in our lives.
