## Attachment Theory in Practice

Emotionally Focused Therapy (EFT) with Individuals, Couples, and Families

By *Susan M. Johnson*

Drawing on cutting-edge research on adult attachment--and providing an innovative roadmap for clinical practice--Susan M. Johnson argues that psychotherapy is most effective when it focuses on the healing power of emotional connection. The primary developer of emotionally focused therapy (EFT) for couples, Johnson now extends her attachment-based approach to individuals and families. The volume shows how EFT aligns perfectly with attachment theory as it provides proven techniques for treating anxiety, depression, and relationship problems. Each modality (individual, couple, and family therapy) is covered in paired chapters that respectively introduce key concepts and present an in-depth case example. Special features include instructive end-of-chapter exercises and reflection questions.

## The Science and Clinical Practice of Attachment Theory

A Guide From Infancy to Adulthood

By *Brian Allen*

Bridging the gap between research and practice, this book reviews attachment processes across the lifespan and reviews its applications to infants, children, adolescents, and adults. Beginning with foundational work by pioneers like John Bowlby and Mary Ainsworth, it explores the rich and varied history of attachment research. This volume examines how developmental science moved beyond parental influences in early childhood to study the role that other caregiver and attachment figures play across the lifespan, including foster parents, social peers, and romantic partners. Key concepts such as internal working models and secure vs. insecure attachment behaviors are reviewed in detail, as are important assessment measures like the strange situation procedure and the adult attachment interview.

## Attachment in Psychotherapy

By *David J. Wallin*

This eloquent book translates attachment theory and research into an innovative framework that grounds adult psychotherapy in the facts of childhood development. Advancing a model of treatment as transformation through relationship, the author integrates attachment theory with neuroscience, trauma studies, relational psychotherapy, and the psychology of mindfulness. Vivid case material illustrates how therapists can tailor interventions to fit the attachment needs of their patients, thus helping them to generate the internalized secure base for which their early relationships provided no foundation. Demonstrating the clinical uses of a focus on nonverbal interaction, the book describes powerful techniques for working with the emotional responses and bodily experiences of patient and therapist alike.

### The Therapists Journey From Meeting Your First Client to Finding Your Life's Work

**NEW**

By *Robert Taibbi*

### Therapeutic Presence 2/e A Mindful Approach to Effective Therapeutic Relationships

**NEW EDITION**

By *Shari Geller, Leslie S. Greenber*

Psychotherapists just starting out in the field often have more questions than answers: "Am I really cut out for this job?" "Where do I want my career to be heading?" "How do I deal with my reactions to clients, or theirs to me?"

Therapeutic presence—one's ability to exist fully in the moment with a client—is crucial to effective psychotherapy practice.

NEW EDITION

## Clinicians in Court 3/e

A Guide to Subpoenas, Depositions, Testifying, and Everything Else You Need to Know

By *Allan E. Barsky*

This trusted, authoritative reference for mental health clinicians and students is now in a thoroughly revised third edition. Using vivid case scenarios, Allan E. Barsky explains when and why clinicians may be called to participate in legal proceedings. He describes and illustrates best practices for record keeping, responding to subpoenas, preparing reports, giving testimony as a fact witness or expert witness, managing ethical dilemmas, and reducing malpractice risks. Appendices feature reproducible agreements and other sample documentation. Readers can download and print these materials at the companion website, which also offers additional case examples, learning activities, and resources. A supplemental test bank is available on request to instructors who adopt the book for courses.

## Clinical Assessment of Malingering and Deception 4/e

By *Richard Rogers, Scott D. Bender*

Widely used by practitioners, researchers, and students--and now thoroughly revised with 70% new material--this is the most authoritative, comprehensive book on malingering and other response styles. Leading experts translate state-of-the-art research into clear, usable strategies for detecting intentional distortions in a wide range of psychological and psychiatric evaluation contexts, including forensic settings. The book examines dissimulation across multiple domains: mental disorders, cognitive impairments, and medical complaints. It describes and critically evaluates evidence-based applications of multiscale inventories, other psychological measures, and specialized methods. Applications are discussed for specific populations, such as sex offenders, children and adolescents, and law enforcement personnel.

## Psychological Science and the Law

By *Neil Brewer, Amy Bradfield Douglass*

Psychological research can provide constructive explanations of key problems in the criminal justice system--and can help generate solutions. This state-of-the-art text dissects the psychological processes associated with fundamental legal questions: Is a suspect lying? Will an incarcerated individual be dangerous in the future? Is an eyewitness accurate? How can false memories be implanted? How do juries, experts, forensic examiners, and judges make decisions, and how can racial and other forms of bias be minimized? Chapters offer up-to-date reviews of relevant theory, experimental methods, and empirical findings.

## Principles and Practice of Psychiatric Rehabilitation 3/e

Promoting Recovery and Self-Determination

By *Patrick W. Corrigan, Nicolas Rusch*

The leading text and go-to practitioner resource on psychiatric rehabilitation is now in a thoroughly revised third edition, bringing readers up to date on current ideas, findings, and evidence-based best practices. The expert authors present the knowledge needed to help adults with psychiatric disabilities develop their strengths and achieve their life goals. The book describes effective ways to assess personal needs and aspirations; integrate medical and psychosocial interventions; implement supportive services in such areas as housing, employment, education, substance use, and physical health; and combat stigma and discrimination. "Personal Examples" throughout the text share the experiences of diverse individuals recovering from serious mental illness.

## Integrated Behavioral Health in Primary Care

Step-by-Step Guidance for Assessment and Intervention

By *Christopher L. Hunter, Jeffrey L. Goodie*

Now in its third edition, Integrated Behavioral Health in Primary Care details the relevant updates in the field for behavioral health care practitioners and offers targeted clinical assessment and intervention strategies that will meet the future needs of educators, students, and clinicians. Drawing on comprehensive research evidence and the authors' decades of clinical experience, this book offers practical guidance for behavioral health care practitioners who want to work more effectively in the fast-paced and complex setting of primary care. Chapters provide an overview of the key foundational concepts and applications of behavioral health within the primary care setting, and detail the competencies required for optimal assessment and intervention outcomes.

## STRESS, HEALTH, AND BEHAVIOR

Richard McCarty

## Stress, Health, and Behavior

By *Richard McCarty*

Exposure to stressful life experiences can disrupt key regulatory systems in the body and contribute to a variety of negative health outcomes. This authoritative text takes a biopsychosocial approach to understanding the role of stress in alcohol use disorder, posttraumatic stress disorder, depression, cardiovascular disease, Type 2 diabetes, cancer, and other chronic diseases. It presents cutting-edge knowledge about how stressors are conceptualized and measured; connections to disease processes; systemic racism as a significant, ongoing stressor for people of color; and factors that promote resilience. For each of the disorders discussed, proven and promising stress-targeted clinical interventions are reviewed. Student-friendly features include an end-of-book glossary and an extensive bibliography to facilitate in-depth study of selected topics of interest.

## Motivational Interviewing 4/e

Helping People Change and Grow

*By William R. Miller, Stephen Rollnick*

Now in a fully rewritten fourth edition, this is the authoritative presentation of motivational interviewing (MI), the powerful approach to facilitating change. It has been updated and streamlined to be even more user-friendly as a practitioner guide and course text. MI originators William R. Miller and Stephen Rollnick elucidate the four tasks of MI—engaging, focusing, evoking, and planning—and vividly demonstrate what they look like in action. A wealth of vignettes and interview examples illustrate the dos and don'ts of successful implementation in diverse contexts. The book reviews the evidence base for the approach and covers ways to assess the quality of MI. The companion website provides reflection questions, annotated case material, and additional helpful resources.

**NEW IN PAPERBACK**

## Motivational Interviewing and CBT

Combining Strategies for Maximum Effectiveness

*By Sylvie Naar, Steven A. Safren*

Providing tools to enhance treatment of any clinical problem, this book shows how integrating motivational interviewing (MI) and cognitive-behavioral therapy (CBT) can lead to better client outcomes than using either approach on its own. The authors demonstrate that MI strategies are ideally suited to boost client motivation and strengthen the therapeutic relationship, whether used as a pretreatment intervention or throughout the course of CBT. User-friendly features include extensive sample dialogues, learning exercises for practitioners, and 35 reproducible client handouts. This title is part of the Applications of Motivational Interviewing Series, edited by Stephen Rollnick, William R. Miller, and Theresa B. Moyers.

## Building Motivational Interviewing Skills 2/e

A Practitioner Workbook

*By David Rosengren*

Many tens of thousands of mental health and health care professionals have used this essential book--now significantly revised with 70% new content reflecting important advances in the field--to develop and sharpen their skills in motivational interviewing (MI). Clear explanations of core MI concepts are accompanied by carefully crafted sample dialogues, exercises, and practice opportunities. Readers build proficiency for moving through the four processes of MI--engaging, focusing, evoking, and planning--using open-ended questions, affirmations, reflective listening, and summaries (OARS), plus information exchange. In a large-size format with lay-flat binding for easy photocopying, the volume includes more than 80 reproducible worksheets. Purchasers get access to a companion website where they can download and print the reproducible materials.
